

2016 FINGERLING SALE - FISH FOR YOUR POND!!

The Shelby Soil and Water Conservation District is holding its annual fish sale. If you have been fishing your pond regularly, it might be time to restock. If you have recently built a new pond, fall is a good time to stock it. We are presently taking orders for the species listed below. Orders must be received in our office by 12:00 p.m. Wednesday, October 19, 2016. Payments must accompany all orders. The fish will be delivered in an aerated truck at 10:30 a.m. Thursday, October 20, 2016 at the SWCD office, 822 Fair Road, Sidney. Please bring a container filled with fresh water from your pond. A five gallon bucket with a lid will transport 100 fingerling fish. A trash can lined with a plastic bag could also be used. Money will be refunded if insufficient orders are received.

THIS COMBINATION RECOMMENDED FOR A BALANCED POND (per surface acre)

Largemouth Bass	1000	
Blue Gill and/or shellcracker	500	
Channel Catfish	100	
White Amur (do not control algae)	(% of pond with vegetation)	
	0—20%	none
	40%	5
	40—60%	10

Aquatic plants at moderate levels are vital to maintaining a healthy pond.

* Other species available below may or may not thrive in your pond; could compete with other desirable species in smaller ponds.

SPECIES	# IN PACK	PRICE/PACK	# PACKS PURCHASED	TOTAL PRICE (# PACKS X PRICE/PACK)
