---

Good afternoon,

The project website is now live -- <https://burtonplanning.com/shelby-hmp/>. This page has information about the planning process and contains the old plan for reference. It also has the Teams links for each meeting.

As mentioned in the kickoff email, we would like you to complete the Goals & Hazard Priority Survey before the April 27 meeting. The surveys are now open, and you can find the links to the surveys on the project website under "Meeting 1 Materials".

The surveys can also be found here:

- <https://www.surveymonkey.com/r/Q9S5LK3> (Hazard Priority Survey)
  - This survey asks you to consider the hazards identified in the 2017 Plan and determine if they are still relevant
- <https://www.surveymonkey.com/r/CPSZHQ7> (Previous Mitigation Actions Status Survey)
  - This survey asks communities to reflect on the projects they wanted included in the 2017 Hazard Mitigation Plan. Communities are asked to provide the status of each mitigation action and suggest any new actions they would like included in this plan update. (Please note: only complete the page for your community. You do not need to complete all pages in this PDF).

As a reminder, here are the times and links for our first meeting:

- **Stakeholder Meeting #1:** Wednesday, April 27, 2022, at 9:30 am

- Link: [Join Meeting via Microsoft Teams](#)
  - Phone number: 469-998-7570
  - Access Code: 378 074 90#
- 
- **Public Meeting #1: Wednesday, April 27, 2022, at 6:30 pm**
    - Link: [Join Meeting via Microsoft Teams](#)
    - Phone number: 469-998-7570
    - Access Code: 339 983 084#

The meetings are typically scheduled for 2 hours; however, they are often done before that. You do not have to attend both meetings on the same day.

Please let me know if you have any questions or concerns.

Thank you!

Kristy

**Subject:** Updating Shelby County's Hazard Mitigation Plan -- Kickoff

Good afternoon,

Shelby County was recently awarded a Pre-Disaster Mitigation Grant to update our County's Hazard Mitigation Plan. This update is required by FEMA every five (5) years to remain eligible for funding for projects. Municipalities, police and fire departments, schools, businesses, and the general public may receive funding for any mitigation strategy found in the approved and adopted plan update. Community input is critical to this plan's success (and the FEMA approval process). As such, we are asking for your participation in the planning process at the following two sets of meetings. I will send you a separate invitation for each meeting.

These meetings will be offered in multiple formats that allow stakeholders and the public to participate however they are available and comfortable. These meeting formats will include live virtual meetings, recorded presentations, and paper and digital surveys. If you are unable to attend either the stakeholder meetings or the public meetings, please let us know and we will work with you to obtain participation in other formats.

Core Planning Committee (*Stakeholder*) Meeting and Public Meeting dates and links:

**Stakeholder Meeting 1**

**Wednesday, April 27, 2022, at 9:30am**

Link: [Join Meeting](#)

Phone Number: (469) 998-7570

Access Code: 378 074 90#

**Stakeholder Meeting 2**

**Tuesday, June 7, 2022, at 9:30am**

Link: [Join Meeting](#)

Phone number: (469) 998-7570

Access Code: 728 260 936#

**Public Meeting 1**

**Wednesday, April 27, 2022, at 6:30pm**

Link: [Join Meeting](#)

Phone number: (469) 998-7570

Access Code: 339 983 084#

**Public Meeting #2:**

**Tuesday, June 7, 2022, at 6:30pm**

Link: [Join Meeting](#)

Phone number: (469) 998-7570

Access Code: 443 800 980#

Prior to Meeting #1, we have two action items for your completion:

1. **Review the attached item**, which describe the goal of the hazard mitigation planning process, as well as who is involved in updating the plan, why the plan needs to be updated, and an overview of the planning process and schedule.
2. **Complete the Goals & Hazard Priority Survey** prior to Meeting #1 – I will send a link to this ahead of the meeting.

Many of you may wonder why you have been asked to participate in this process. Updating the Hazard Mitigation Plan every five years allows us to identify opportunities to lessen the potential impacts from disasters and also allows us to evaluate projects that have been

completed during the past five-year cycle. All possible projects are identified by YOU, our community leaders. Once our plan has gone through the FEMA approval process and has been adopted locally, we can apply for grant funding that could potentially cover 75% of the costs associated with those projects.

Please let us know if you have any questions.

Sincerely,  
Kristy

## **SHELBY COUNTY HAZARD MITIGATION PLAN OVERVIEW**

March 2022

### **Goal**

Update the 2017 Shelby County Hazard Mitigation Plan to include both natural and human-caused hazards that pose a threat to the County.

### **Who's involved?**

The Shelby County EMA will work closely with Burton Planning Services and members of the Core Planning Committee to develop a mitigation plan that adequately addresses the threats posed to Shelby County residents by natural and man-made hazards. The following people will be involved:

- Kristy Fryman, Shelby County EMA Director
- Burton Planning Services (BPS)
  - Kevin Buettner, AICP – Project Manager, Plan Preparation, Stakeholder Engagement
  - Brett Morris, LEED Green Associate – Plan Preparation, Hazus Modeling, GIS
- Core Planning Committee Members

### **Hazard Mitigation Planning: Federal Requirements**

The Disaster Mitigation Act, 2000 (DMA2K) states that all jurisdictions must have an adopted plan to receive funds from FEMA in the event of a disaster. DMA2K provides a legal basis for FEMA's state, local, and tribal mitigation planning requirements. Additionally, the Robert T. Stafford Disaster Relief and Emergency Assistance Act of 1988 created the system where Presidential disaster declarations trigger federal assistance via FEMA.

To receive federal funding, hazard mitigation plans must:

- Be updated and adopted by local jurisdictions every 5 years
- Include:
  - Public participation and documented process
  - Existing conditions and demographics
  - Major disaster declarations since the previous plan
  - Risk assessments and vulnerability analyses for hazards
  - Mitigation actions and their status
  - Identified plan maintenance and updates
- Municipalities, police and fire departments, schools, businesses, and the general public may receive funding for any mitigation strategy found in the approved and adopted plan update.

### **Hazard Mitigation Planning: Overview**

Potential hazard types include natural disasters (floods, storms, droughts, landslides, invasive species, etc.) and man-made disasters (hazardous material spills, terrorism, etc.). Benefits of updating the hazard mitigation plan include:

- Minimizing property damage, economic loss, injuries, and loss of human life
- Enhancing public awareness of natural and man-made hazards
- Coordinating inter-jurisdictional preparedness measures, mitigation actions, and programs for effective implementation
- Providing a tool for decision-makers to better prepare for disasters
- Achieving state and federal regulatory compliance to be eligible for funding

## Hazard Mitigation Planning: Process and Schedule

FEMA focuses on the mitigation strategies, on the intent and compliance of the plan, and on the planning process. Milestones for the Shelby County Hazard Mitigation Plan are indicated below.

Shelby County Hazard Mitigation Plan Schedule

	Mar'22	Apr'22	May'22	Jun'22	Jul'22	Aug'22	Sep'22	Oct'22	Nov'22	Dec'22	Jan'23	Feb'23	Mar'23
Project Kickoff													
Existing Conditions													
Perform Risk Assessments													
Prepare Mitigation Actions

- Access Code: 443 800 980#

4) **Public Comment Period:** November 2022

### **Hazard Mitigation Planning: Core Planning Committee Role**

The role of the Core Planning Committee (you!) is as follows:

- Provide local knowledge and data as needed
- Help identify potential hazards from experience and prioritize hazards
- Help develop new mitigation actions, determine the status of previous mitigation actions, and prioritize new mitigation actions
- Provide feedback on the draft plan
- Participate in public and stakeholder meetings
- Assist in plan adoption for representative local jurisdiction

**Hazard Mitigation Plan Update**  
**Wednesday, April 27**  
**6:30 PM**

Contact:

**Kristy Fryman**

Director, Shelby County Emergency Management Agency

800 Fair Road

Sidney, OH 45365

(937) 492-5635 (Office)

[kfryman@shelbyco.net](mailto:kfryman@shelbyco.net)

**FOR IMMEDIATE RELEASE**

**Hazard Mitigation Plan Update – Public Meeting Announcement**

Shelby County was recently awarded a Pre-Disaster Mitigation Grant to update our County's Hazard Mitigation Plan. This update is required by FEMA every five (5) years to remain eligible for funding for projects. Municipalities, police and fire departments, schools, businesses, and the general public may receive funding for any mitigation strategy found in the approved and adopted plan update. Community input is critical to this plan's success (and the FEMA approval process). As such, **we are asking for your participation in the planning process at the following meeting.**

These meetings will be offered in multiple formats that allow stakeholders and the public to participate however they are available and comfortable. These meeting formats will include, live virtual meetings, recorded presentations, and paper and digital surveys. If you are unable to attend, please let us know and we will work with you to obtain participation in other formats.

Public Meeting dates and links:

**Public Meeting**

Phone number: 469-998-7570

Access Code: 233 855 590 11#

\*(<https://bit.ly/3uGRUSp>)

Prior to Meeting #1, we have one action items for your completion:

1. **Review the attached items**, which describe the goal of the hazard mitigation planning process, as well as who is involved in updating the plan, why the plan needs to be updated, and an overview of the planning process and schedule.

Many of you may wonder why you have been asked to participate in this process. Updating the Hazard Mitigation Plan every five years allows us to identify opportunities to lessen the potential impacts from disasters and allows us to evaluate projects that have been completed during the past five-year cycle. All possible projects are identified by YOU, our community leaders. Once our plan has gone through the FEMA approval process and has been adopted locally, we can apply for grant funding that could potentially cover 75% of the costs associated with those projects.

###

## Scenic Graceland Walking Path

Shelby County is located in the heartland of Ohio. Established in 1819, our county is 420 square-miles of agriculture and industry, providing a stable economy. With eight incorporated villages and 14 townships, Shelby County is known for its close-knit communities, solid work ethic and a "together we can" attitude that brings private industry and government together regularly to accomplish any task at hand. Our area boasts the safety and comfort of living in a smaller community, but provides easy access to larger cities and all of their amenities.

# Welcome

### ODJFS to Offer Free Credit Monitoring to Victims of Unemployment-Related ID Theft

Individuals who reported being the victim of such identity theft will be eligible for one year of credit monitoring at no charge. Those who believe they were victims, but have not yet reported it, can do so at [unemployment.ohio.gov](http://unemployment.ohio.gov) or by calling (833) 658-0394. The services include identity theft monitoring, restoration, and insurance.

## Mission Statement

To promote a culture of preparedness in Shelby County by providing a comprehensive emergency management program.

This website will provide you with information about what hazards threaten our communities and how to prepare for them. Our function centers around the four phases in the emergency management cycle:

- Mitigation (prevention)
- Preparedness
- Response
- Recovery from incidents that can affect our citizen's lives, property, and the environment.

**Learn** what you can do to be prepared and ready for the hazards that can affect our lives and communities by clicking on the links to the left. Find out what the EMA and other organizations do to prepare the county from these threats.

Shelby County Hazard Mitigation Plan | 4

4

Shelby County Hazard Mitigation Plan | 5

## Introductions

- Why are we here today?
  - Update the 2017 Shelby County Hazard Mitigation Plan
  - Hazard mitigation overview
  - Progress update
  - Gather stakeholder input
  - Next steps

5

Shelby County Hazard Mitigation Plan | 6

## Hazard Mitigation Overview

6

Shelby County Hazard Mitigation Plan | 7

## Hazard Mitigation Overview

- What is hazard mitigation?
  - A sustained action to reduce or eliminate the long-term risk to human life and property from hazards.
- Goals:
  - Reduce potential losses in future disasters.
  - Identify natural hazards and identify actions to reduce loss.
  - Establish a process to implement these actions.

7

Shelby County Hazard Mitigation Plan | 8

## Hazard Mitigation Overview

- Potential types of hazards include:
  - Water (flooding, dam/levee failure)
  - Wind (hurricanes, tornadoes, damaging winds)
  - Summer and Winter Storms
  - Drought, Wildfires, and Extreme Heat
  - Geology (landslides, earthquakes)
  - Invasive species
  - Man-made (hazardous materials, terrorism)

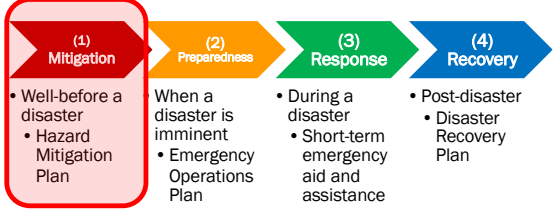

Microhydropower dam, Seattle 2015

8

Shelby County Hazard Mitigation Plan | 9

## Hazard Mitigation Overview

- The disaster response cycle

- Well-before a disaster
  - Hazard Mitigation Plan
- When a disaster is imminent
  - Emergency Operations Plan
- During a disaster
  - Short-term emergency aid and assistance
- Post-disaster
  - Disaster Recovery Plan

9

Shelby County Hazard Mitigation Plan | 10

## Hazard Mitigation Overview

- Robert T. Stafford Disaster Relief and Emergency Assistance Act, 1988
  - Presidential disaster declarations trigger federal assistance via FEMA.
- Disaster Mitigation Act, 2000 (DMA2K)
  - Legal basis for FEMA's state, local, and tribal mitigation planning requirements.
  - Jurisdictions must have an adopted plan to receive funds from FEMA in the event of a disaster.

Source: Mike, Flickr

10

Shelby County Hazard Mitigation Plan | 11

## Hazard Mitigation Overview

- Hazard Mitigation Plan Requirements
  - To receive FEMA funding, hazard mitigation plans must be adopted by local jurisdictions & updated every 5 years.
  - Hazard mitigation plans must include:
    - Public participation & documented update process
    - Existing conditions/demographics
    - Major disaster declarations since the previous plan
    - Risk assessments & vulnerability analyses for hazards
    - Mitigation actions & their status
    - Identified plan maintenance & updates

11

Shelby County Hazard Mitigation Plan | 12

## Hazard Mitigation Overview

- Funding Opportunities
  - Types of projects that can receive federal funding, include:
    - Property acquisition, demolition, relocation
    - Property reconstruction
    - Structure elevation, floodproofing, retrofits
    - Generators
    - Safe rooms
    - Soil stabilization
    - Etc.

Source: ODOT

12

Shelby County Hazard Mitigation Plan | 13

## Hazard Mitigation Overview

- Overall benefits of hazard mitigation planning:
  1. Minimize property damage, economic loss, injuries, and loss of human life.
  2. Enhance public awareness and education of natural and man-made hazards.
  3. Coordinate inter-jurisdictional preparedness measures, mitigation actions, and programs for efficient and effective implementation.
  4. Provide tools for decision-makers to better prepare for disasters.
  5. Achieve state and federal regulatory compliance to be eligible for funding.

13

Shelby County Hazard Mitigation Plan | 14

## Hazard Mitigation Overview

- Overall benefits of hazard mitigation planning:
  6. Municipalities: funds for related building/infrastructure needs, such as addressing issues caused by hazards or improvements to reduce future issues.
  7. Police & Fire: funds for safety-related equipment & resources.
  8. Schools: funds for school safety-related equipment/resources.
  9. Businesses: reduce/eliminate site & operational impacts.
  10. General Public: reduce/eliminate monetary & emotional costs from lost lives & homes.

14

Shelby County Hazard Mitigation Plan | 15

## Process and Schedule

15

Shelby County Hazard Mitigation Plan | 16

## Process & Schedule

- Completed and Upcoming Tasks:
  - ✓ Gathered critical facilities information
  - ✓ Gathered GIS base mapping
  - ✓ Gathered repetitive loss property information
  - ✓ Summarized features and demographics of County and communities
  - ✓ Gathered historical information on previous hazard events
  - Identify past and potential hazards to evaluate in this plan update – **need feedback today**
  - Identify mitigation actions from the previous plan that need to be updated – **need feedback today**

16

Shelby County Hazard Mitigation Plan | 17

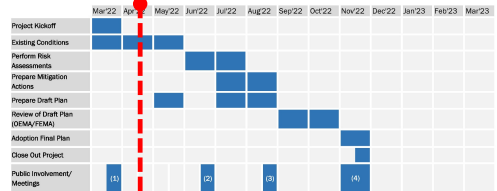

## Process & Schedule

- Hazard Mitigation Planning Process:
  - ✓ Milestone 1: Project Kickoff Announcement; Gather Data For Existing Conditions/Demographics
  - Milestone 2: Hold Planning Meeting #1
  - Milestone 3: Perform Risk Assessments & Vulnerability Analyses; Develop Mitigation Actions
  - Milestone 4: Hold Planning Meeting #2
  - Milestone 5: Prepare Draft Plan
  - Milestone 6: Conduct Reviews Of Draft Plan
  - Milestone 7: Adoption Of Plan
  - Milestone 8: Closeout Project

17

Shelby County Hazard Mitigation Plan | 18

## Process & Schedule

- Important Dates
  - ✓ Project Kickoff – March 2022 (Sent out by County EMA)
  - ✓ Planning Meeting #1 – April 27, 2022
  - Planning Meeting #2 – June 7, 2022
  - Reviews of draft plan – September/October 2022
  - Adoption of plan – November 2022

18

19

Shelby County Hazard Mitigation Plan | 20

## Your Role

- Overview
  - Provide local knowledge & data as needed, including history, demographics, spatial information.
  - Help identify potential hazards based on previous experience & prioritize based on risk.
  - Help develop new mitigation actions, determine status of previous mitigation actions & prioritize
  - Provide feedback on draft plan
  - Participate in both planning meetings
  - Assist in plan adoption for representative local jurisdiction

20

Shelby County Hazard Mitigation Plan | 21

## Your Role

Today:

1. Project Website
2. Complete surveys
3. General feedback
4. Report on your use/integration of 2017 HMP
5. Add second meeting to schedule

21

Shelby County Hazard Mitigation Plan | 22

## Action Items

1. Project Website: <https://burtonplanning.com/shelby-hmp/>

22

Shelby County Hazard Mitigation Plan | 23

## Action Items

2. Complete Surveys
  - Survey #1a: Goals
    - Goals guide the Plan and inform the development of specific mitigation actions.
    - Evaluate goals from last plan.
    - Provide comments, changes.

23

Shelby County Hazard Mitigation Plan | 24

## Action Items

2. Complete Surveys
  - Survey #1b: Hazard Priorities
    - Many hazards could be included in the plan update (see Hazards Overview handout).
    - Determine which ones from the full list should be included in this plan.
    - Rate the priority of all hazards.

2017 Plan Hazards	Low	Medium	High	Very High	Not Rated
1. Flooding	0	1	2	3	4
2. Severe Storms	0	1	2	3	4
3. Winter Storms	0	1	2	3	4
4. Tornadoes	0	1	2	3	4
5. Drought and Extreme Heat	0	1	2	3	4
6. Earthquakes	0	1	2	3	4

24

Shelby County Hazard Mitigation Plan | 25

## Action Items

2. Complete Surveys

- Survey #2: Previous mitigation actions status
  - Update the status, remarks, and ratings.

## Next Steps – Prior to Meeting #2

- **All Participating Jurisdictions & General Public:**
  - Complete the goals, hazard priority, and existing mitigation action surveys
- **Project Team**
  - Finalize critical facilities lists
  - Perform risk assessments & vulnerability analyses
  - Develop draft mitigation actions
  - Meeting #2 preparation
- **Next meeting - June 7, 2022**
  - Discuss risk assessments, mitigation actions, prioritize

### PREVIOUS MITIGATION ACTIONS STATUS

As part of each Hazard Mitigation Plan, Shelby County is tasked with developing a list of mitigation actions that can help prepare communities and their residents for hazards, as well as lessen the impact of these hazards.

As part of this process, the status of each mitigation action included in Shelby County's 2017 Hazard Mitigation Plan needs to be determined.

In the following tables, enter your name and position and select one of the following status options for each mitigation action in your jurisdiction:

- **Completed** (indicate when the action was completed)
- **Deleted** (indicate why the action was deleted)
- **Deferred** (indicate why the action was deferred)
- **Unchanged** (indicate why the action remains unchanged)
- **Ongoing** (include percentage complete or description of progress – e.g. “Ongoing (20% Complete)” or “Completed annually from 2017-2021”).

Please include remarks for each mitigation action for which you enter a status.

Name & Organization: \_\_\_\_\_

### GOALS SURVEY

It is important to revisit the goals and objectives from Shelby County's 2017 Hazard Mitigation Plan to help guide the current update to the plan. Please provide input on if these goals are still relevant. If a goal is still applicable as written, please check (✓) the box; if the goal or objective(s) needs to be modified or removed, please write how it should be modified or why it should be removed on the line below the goal.

#### Previous Goals (from the 2017 Plan)

There is one goal from the 2017 plan, assigned to each individual hazard: "To save the lives and protect property by reducing the impact of [hazard] to the communities and residents of Shelby County."

#### New Goals

If there are new goals that should be included, please write them on the lines below.

- ☐ \_\_\_\_\_
- ☐ \_\_\_\_\_
- ☐ \_\_\_\_\_
- ☐ \_\_\_\_\_
- ☐ \_\_\_\_\_
- ☐ \_\_\_\_\_

Please provide any additional comments on the goals in the space provided below.

### PREVIOUS MITIGATION ACTIONS STATUS

As part of each Hazard Mitigation Plan, Shelby County is tasked with developing a list of mitigation actions that can help prepare communities and their residents for hazards, as well as lessen the impact of these hazards.

As part of this process, the status of each mitigation action included in Shelby County's 2017 Hazard Mitigation Plan needs to be determined.

In the following tables, enter your name and position and select one of the following status options for each mitigation action in your jurisdiction:

- **Completed** (indicate when the action was completed)
- **Deleted** (indicate why the action was deleted)
- **Deferred** (indicate why the action was deferred)
- **Unchanged** (indicate why the action remains unchanged)
- **Ongoing** (include percentage complete or description of progress – e.g. “Ongoing (20% Complete)” or “Completed annually from 2017-2021”).

Please include remarks for each mitigation action for which you enter a status.

**SHELBY COUNTY HAZARD MITIGATION PLAN**  
**- PUBLIC ANNOUNCEMENT EMAIL**

Good morning,

Shelby County was recently awarded a Pre-Disaster Mitigation Grant to update our County's Hazard Mitigation Plan. This update is required by FEMA every five (5) years to remain eligible for funding for projects. Municipalities, police and fire departments, schools, businesses, and the general public may receive funding for any mitigation strategy found in the approved and adopted plan update. Community input is critical to this plan's success (and the FEMA approval process). As such, **we are asking for your participation in the planning process at the following two meetings.**

These meetings will be offered in multiple formats that allow stakeholders and the public to participate however they are available and comfortable. These meeting formats will include live virtual meetings, recorded presentations, and paper and digital surveys. If you are unable to attend, please let us know and we will work with you to obtain participation in other formats.

Public Meeting dates and links:

**Public Meeting 1**

**Wednesday, April 27, 2022 at 6:30 PM**

[Join Meeting via Microsoft Teams](#)

Phone number: 469-998-7570

Access Code: 339 983 084#

**Public Meeting 2**

**Tuesday, June 7, 2022 at 6:30 PM**

[Join Meeting via Microsoft Teams](#)

Phone number: 469-998-7570

Access Code: 957 901 350#

Prior to Meeting #1, we have one action items for your completion:

1. **Review the attached items**, which describe the goal of the hazard mitigation planning process, as well as who is involved in updating the plan, why the plan needs to be updated, and an overview of the planning process and schedule.

Many of you may wonder why you have been asked to participate in this process. Updating the Hazard Mitigation Plan every five years allows us to identify opportunities to lessen the potential impacts from disasters and also allows us to evaluate projects that have been completed during the past five-year cycle. All possible projects are identified by YOU, our community leaders. Once our plan has gone through the FEMA approval process and has been adopted locally, we can apply for grant funding that could potentially cover 75% of the costs associated with those projects.

## SHELBY COUNTY HAZARD MITIGATION PLAN

Name & Organization: \_\_\_\_\_

### HAZARD PRIORITIES

#### Instructions:

1. Consider each hazard below.
2. Rate each hazard on a scale of 0 to 5 based on how important each hazard is to your community.
3. If a hazard should not be studied, give it a zero (0).
4. Provide any comments you would like to share regarding your selected ratings.

2017 Plan Hazards	Priority Ratings (Circle One Score)					
	Do not Include	Lowest Priority	Low-Medium Priority	Medium Priority	Medium-High Priority	Highest Priority
1. Flooding	0	1	2	3	4	5
2. Summer Storms	0	1	2	3	4	5
3. Winter Storms	0	1	2	3	4	5
4. Tornadoes	0	1	2	3	4	5
5. Drought and Extreme Heat	0	1	2	3	4	5
6. Earthquakes	0	1	2	3	4	5
Other Potential Hazards						
7. Dam and Levee Failure	0	1	2	3	4	5
8. Hazardous Materials	0	1	2	3	4	5
9. Invasive Species	0	1	2	3	4	5
10. High Winds	0	1	2	3	4	5

Additional Comments

- *Please consider how the hazards are grouped – should any be grouped together? Should any be made into its own category?*
- *Are there any hazards not listed that you would like to see included in the 2022 plan?*
- *Any other additional comments.*

## Mission Statement

To promote a culture of preparedness in Shelby County by providing a comprehensive emergency management program.

This website will provide you with information about what hazards threaten our communities and how to prepare for them. Our function centers around the four phases in the emergency management cycle:

- Mitigation (prevention)
- Preparedness
- Response
- Recovery from incidents that can affect our citizen's lives, property, and the environment.

**Learn** what you can do to be prepared and ready for the hazards that can affect our lives and communities by clicking on the links to the left. Find out what the EMA and other organizations do to prepare the county from these threats.

## FOR IMMEDIATE RELEASE

### Hazard Mitigation Plan Update – Public Meeting Announcement

Shelby County was recently awarded a Pre-Disaster Mitigation Grant to update our County's Hazard Mitigation Plan. This update is required by FEMA every five (5) years to remain eligible for funding for projects. Municipalities, police and fire departments, schools, businesses, and the general public may receive funding for any mitigation strategy found in the approved and adopted plan update. Community input is critical to this plan's success (and the FEMA approval process). As such, **we are asking for your participation in the planning process at the following meeting.**

These meetings will be offered online to allow stakeholders and the public to participate from the comfort of their own home. If you are unable to attend, please let us know and we will work with you to obtain participation in other formats.

Public Meeting dates and links:

**Subject:** Shelby County Hazard Mitigation Plan (Rough Draft) Review

Good afternoon,

First, I sincerely thank you all for participating over the past several months in assisting EMA/Burton Planning Services with updating our Shelby County Hazard Mitigation Plan.

The draft plan is done and ready for review and comment. The draft plan can be found online at: <https://burtonplanning.com/shelby-hmp/>. Please send me your comments by **COB Friday, December 2**.

As mentioned before, please ensure that if your jurisdiction/agency intends to seek federal funding for mitigation projects in the next five years, this is listed in the "mitigation actions" section beginning on page 98. Many of the grants require this to be listed in our plan.

\*Please note that not all appendices are included in the draft plan.

Please let me know if you have questions.

Kristy

Kristy Fryman

## **PLANNING MEETING #2**

June 7, 2022

Microsoft Teams Meeting

Core Planning Committee Meeting 2 June 7, 2022, 9:30 AM	Public Meeting 2 June 7, 2022, 6:30 PM
<a href="#">Meeting Link Here</a>  Phone: +1 (469) 998-7570 Access Code: 378 074 90#	<a href="#">Meeting Link Here</a>  Phone: +1 (469) 998-7570 Access Code: 339 983 084#

### **1. Introductions**

- Core Groups: <https://www.surveymonkey.com/r/ShelbyCore2SignIn>
- Public: <https://www.surveymonkey.com/r/ShelbyPublic2SignIn>
- Email your name, email, phone, title, employer, and meeting attended to [bmorris@burtonplanning.com](mailto:bmorris@burtonplanning.com)

### **2. Progress Update**

### **3. Committee Role & Action Items**

- Mitigation Actions Survey: <https://www.surveymonkey.com/r/ShelbyMitActions>

### **4. Next Steps**

## COMMUNITY LIFELINES

### Purpose

Community Lifelines enable the continuous operation of critical government and business functions, and are essential to human health, safety, and economic security. The purpose of this survey is to identify community lifelines in your community.

### Instructions

To complete this survey, please provide the name of the community lifeline, the address, and the type. Community lifeline types include:

1. **Safety and security** – Law enforcement, security services, fire service, search and rescue, community safety, etc.
2. **Food, water, and shelter** – Large occupancy buildings (hotels, public shelters, etc.), water service infrastructure, food storage and distribution, agriculture, etc.
3. **Health and medical** - medical care facilities, patient movement, public health, medical supplies, etc.
4. **Energy** – power grid infrastructure, fuel storage, etc.
5. **Communications** – Infrastructure, responder communications, alerts and sirens, 911 and dispatch, etc.
6. **Transportation** – critical highways, evacuation routes, mass transit, railways, aviation, etc.

- OR type your name, email, phone, title, employer into the chat
- OR text 740-262-4742 with your name, email, phone, title, employer

1

Shelby County Hazard Mitigation Plan | 2

## Introductions

- Shelby County EMA
- BPS Project Team  Burton Planning Services
  - Kimberly Burton, Project Manager
  - Kevin Buettner, Project Management, Plan Preparation
  - Brett Morris, Plan Preparation, Hazus, Mitigation Actions
- Core Planning Committee Members

2

Shelby County Hazard Mitigation Plan | 3

## Reminder

- Virtual Sign-In
  - Please Sign In via SurveyMonkey:  
<https://www.surveymonkey.com/r/ShelbyCore2SignIn>
  - OR email [bmorris@burtonplanning.com](mailto:bmorris@burtonplanning.com) or [KFryman@shelbyco.net](mailto:KFryman@shelbyco.net) with your name, email, phone, title, employer, and meeting attended.
  - OR type your name, email, phone, title, employer into the chat
  - OR text 740-262-4742 with your name, email, phone, title, employer
- Questions – type into chat
- Surveys - physical copies to print, fillable PDFs, and online surveys
  - Available on the website at: <https://burtonplanning.com/shelby-hmp/>

3

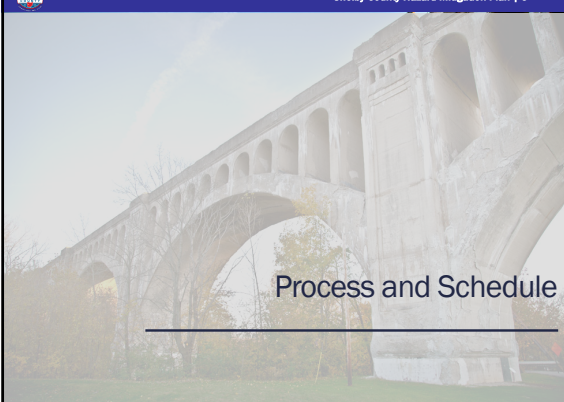

Shelby County Hazard Mitigation Plan | 4

## Introductions

- Why are we here today?
  - Update the 2017 Shelby County Hazard Mitigation Plan
  - Hazard mitigation overview
  - Progress update
  - Gather stakeholder input
  - Next steps

4

Shelby County Hazard Mitigation Plan | 5

## Process and Schedule

5

Shelby County Hazard Mitigation Plan | 6

## Process & Schedule

- Completed and Upcoming Tasks:
  - ✓ Gathered critical facilities information
  - ✓ Gathered GIS base mapping
  - ✓ Gathered repetitive loss property information
  - ✓ Summarized features and demographics of County and communities
  - ✓ Gathered historical information on previous hazard events
  - ✓ Identify past and potential hazards to evaluate in this plan update
  - ✓ Identify mitigation actions from the previous plan that need to be updated
  - Receive feed back today on new mitigation actions

6

Shelby County Hazard Mitigation Plan | 7

## Process & Schedule

- Hazard Mitigation Planning Process:
  - ✓ Milestone 1: Project Kickoff Announcement; Gather Data For Existing Conditions/Demographics
  - ✓ Milestone 2: Hold Planning Meeting #1
  - ✓ Milestone 3: Perform Risk Assessments & Vulnerability Analyses; Develop Mitigation Actions
  - Milestone 4: Hold Planning Meeting #2
    - Milestone 5: Prepare Draft Plan
    - Milestone 6: Conduct Reviews Of Draft Plan
    - Milestone 7: Adoption Of Plan
    - Milestone 8: Closeout Project

7

Shelby County Hazard Mitigation Plan | 8

## Process & Schedule

Important Dates

- ✓ Project Kickoff – March 2022 (Sent out by County EMA)
- ✓ Planning Meeting #1 – April 27, 2022
- ✓ Planning Meeting #2 – June 7, 2022
- Reviews of draft plan – September/October 2022
- Adoption of plan – November 2022

8

Shelby County Hazard Mitigation Plan | 9

## Stakeholder & Public Participation

9

Shelby County Hazard Mitigation Plan | 10

## Your Role

- Overview
  - Provide local knowledge & data as needed, including history, demographics, spatial information.
  - Help identify potential hazards based on previous experience & prioritize based on risk.
  - Help develop new mitigation actions, determine status of previous mitigation actions & prioritize
  - Provide feedback on draft plan
  - Participate in both planning meetings
  - Assist in plan adoption for representative local jurisdiction

10

Shelby County Hazard Mitigation Plan | 11

## Your Role

Today:

1. Project Website
2. Complete surveys
3. General feedback

11

Shelby County Hazard Mitigation Plan | 12

## Action Items

1. Project Website: <https://burtonplanning.com/shelby-hmp/>

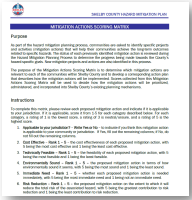

12

Shelby County Hazard Mitigation Plan | 13

## Action Items

### 2. Complete Surveys

- Survey #2: Previous mitigation actions status
  - Update the status, remarks, and ratings.

#	Mitigation Action	Status	Applicable to Jurisdiction? (Y/N)	Cost Effective (1-5)	Technically Feasible (1-5)	Environmentally Sound (1-5)	Immediate Need (1-5)	Risk Reduction (1-5)
Dam Failure								
1	Obtain inundation mapping for at least all high hazard potential dams in the County.	New						

13

Shelby County Hazard Mitigation Plan | 14

## Next Steps

14

Shelby County Hazard Mitigation Plan | 15

## Next Steps

- All Participating Jurisdictions & General Public:
  - Complete the goals, hazard priority, and existing mitigation action surveys
- Project Team
  - Finalize critical facilities lists
  - Develop draft plan
  - Prepare for public comment period

15

Shelby County Hazard Mitigation Plan | 16

## Reminder

- Virtual Sign-In
  - Please Sign In via SurveyMonkey: <https://www.surveymonkey.com/r/ShelbyCore2SignIn>
  - OR email [bmorris@burtonplanning.com](mailto:bmorris@burtonplanning.com) or [KFryman@shelbyco.net](mailto:KFryman@shelbyco.net) with your name, email, phone, title, employer, and meeting attended.
  - OR type your name, email, phone, title, employer into the chat
  - OR text 740-262-4742 with your name, email, phone, title, employer
- Questions – type into chat
- Surveys - physical copies to print, fillable PDFs, and online surveys
  - Available on the website at: <https://burtonplanning.com/shelby-hmp/>

### MITIGATION ACTIONS SCORING MATRIX

#### Purpose

As part of the hazard mitigation planning process, communities are asked to identify specific projects and activities (mitigation actions) that will help their communities achieve the long-term outcomes related to specific hazards. The status of each previously identified mitigation action is reviewed during the Hazard Mitigation Planning Process to determine the progress being made towards the County's hazard-specific goals. New mitigation projects and actions are also identified in this process.

The purpose of the Mitigation Actions Scoring Matrix is to determine which mitigation actions are relevant to each of the communities within Shelby County and to develop a corresponding action plan that describes how the mitigation actions will be implemented. Scores collected from this Mitigation Actions Scoring Matrix will be used to decide how the mitigation actions will be prioritized, administered, and incorporated into Shelby County's existing planning mechanisms.

#### Instructions

To complete this matrix, please review each proposed mitigation action and indicate if it is applicable to your jurisdiction. If it is applicable, score it from 1-5 for each category described below. For each category, a rating of 1 is the lowest score, a rating of 3 is neutral/unsure, and a rating of 5 is the highest score.

1. **Applicable to your jurisdiction? – Write Yes or No** – to indicate if you think this mitigation action is applicable to your community or jurisdiction. If Yes, fill out the remaining columns; if No, do not fill out the remaining columns.
2. **Cost Effective – Rank 1 – 5** – the cost effectiveness of each proposed mitigation action, with 5 being the most cost effective and 1 being the least cost effective.
3. **Technically Feasible – Rank 1 – 5** – the feasibility of each proposed mitigation action, with 5 being the most feasible and 1 being the least feasible.
4. **Environmentally Sound – Rank 1 – 5** – the proposed mitigation action in terms of how environmentally sound it seems, with 5 being the most sound and 1 being the least sound.
5. **Immediate Need – Rank 1 – 5** – whether each proposed mitigation action is needed immediately, with 5 being the most immediate need and 1 being not an immediate need.
6. **Risk Reduction – Rank 1 – 5** – the proposed mitigation action on the extent to which it will reduce the total risk of the associated hazard, with 5 being the greatest contribution to risk reduction and 1 being the least contribution to risk reduction.

#	Mitigation Action	Status	Applicable to jurisdiction? (Y/N)	Cost Effective (1-5)	Technically Feasible (1-5)	Environmentally Sound(1-5)	Immediate Need (1-5)	Risk Reduction (1-5)
Dam Failure								
1	Obtain inundation mapping for at least all high hazard potential dams in the County.	New

 Shelby County Emergency Management Agency ...

The Shelby County Hazard Mitigation Plan has been updated, and the draft plan is ready for review! Updating our plan allows our jurisdictions to remain eligible for disaster mitigation grant programs.

We invite the public to participate in this process by reviewing and providing comments on the plan.

The draft plan can be found online at: <https://burtonplanning.com/shelby-hmp/>

You may email your comments to [kfryman@shelbyco.net](mailto:kfryman@shelbyco.net). Comments are due by COB Friday, December 2.

The *Local Mitigation Plan Review Tool* demonstrates how the Local Mitigation Plan meets the regulation in 44 CFR §201.6 and offers States and FEMA Mitigation Planners an opportunity to provide feedback to the community.

- The Regulation Checklist provides a summary of FEMA's evaluation of whether the Plan has addressed all requirements.
- The Plan Assessment identifies the plan's strengths as well as documents areas for future improvement.
- The Multi-jurisdiction Summary Sheet is an optional worksheet that can be used to document how each jurisdiction met the requirements of the each Element of the Plan (Planning Process; Hazard Identification and Risk Assessment; Mitigation Strategy; Plan Review, Evaluation, and Implementation; and Plan Adoption).

The FEMA Mitigation Planner must reference this *Local Mitigation Plan Review Guide* when completing the *Local Mitigation Plan Review Tool*.

<b>Jurisdiction:</b>	<b>Title of Plan:</b>	<b>Date of Plan:</b>

<b>Plan Approved</b>		

## SECTION 1: REGULATION CHECKLIST

**INSTRUCTIONS:** The Regulation Checklist must be completed by FEMA. The purpose of the Checklist is to identify the location of relevant or applicable content in the Plan by Element/sub-element and to determine if each requirement has been ‘Met’ or ‘Not Met.’ The ‘Required Revisions’ summary at the bottom of each Element must be completed by FEMA to provide a clear explanation of the revisions that are required for plan approval. Required revisions must be explained for each plan sub-element that is ‘Not Met.’ Sub-elements should be referenced in each summary by using the appropriate numbers (A1, B3, etc.), where applicable. Requirements for each Element and sub-element are described in detail in this *Plan Review Guide* in Section 4, Regulation Checklist.

1. REGULATION CHECKLIST		Location in Plan (section and/or page number)	Met	Not Met
Regulation (44 CFR 201.6 Local Mitigation Plans)				
ELEMENT A. PLANNING PROCESS				
A1. Does the Plan document the planning process, including how it was prepared and who was involved in the process for each jurisdiction? (Requirement §201.6(c)(1))	Section 3			X
A2. Does the Plan document an opportunity for neighboring communities, local and regional agencies involved in hazard mitigation activities, agencies that have the authority to regulate development as well as other interests to be involved in the planning process? (Requirement §201.6(b)(2))	Section 3		X	
A3. Does the Plan document how the public was involved in the planning process during the drafting stage? (Requirement §201.6(b)(1))	Section 3.5		X	
A4. Does the Plan describe the review and incorporation of existing plans, studies, reports, and technical information? (Requirement §201.6(b)(3))	Section 3.2 Appendix D Sources listed throughout plan		X	
A5. Is there discussion of how the community(ies) will continue public participation in the plan maintenance process? (Requirement §201.6(c)(4)(iii))	Section 6.2		X	
A6. Is there a description of the method and schedule for keeping the plan current (monitoring, evaluating and updating the mitigation plan within a 5-year cycle)? (Requirement §201.6(c)(4)(i))	Section 6			X

1. REGULATION CHECKLIST		Location in Plan (section and/or page number)	Met	Not Met
<b>Regulation (44 CFR 201.6 Local Mitigation Plans)</b>				
<b>ELEMENT A: REQUIRED REVISIONS</b>				
<p>A1.</p> <ul style="list-style-type: none"> <li>Page 33 (PDF). From Table 3.4.1, it appears that participation from the Village of Anna, Botkins, Kettlersville, Lockington, and Port Jefferson did not take place. If they did participate, please clarify or correct. If not, document outreach efforts in section 3.4 and state that the jurisdictions were invited but did not participate, therefore will not be able to adopt the plan and be eligible for HMA and HHPD funding.</li> <li>Page 35 (PDF). 3.5.4 Core Planning Committee Meeting 2. Say when this meeting took place.</li> <li>GENERAL FYI/OPTIONAL/REQUIRED IF Miami Conservancy District wants mitigation actions. In section 3, it indicated that Miami Conservancy District has attended meetings. In the past, MCD has been grant applicants and is the owner of the Lockington Dam. While the plan can be approved without them, if they want to have mitigation actions in the plan now, the plan needs to have a capability assessment for them that assesses their financial, technical, and administrative capabilities. The flood and dam failure risk assessments must also have a discussion regarding their vulnerabilities in Shelby County to those hazards. <ul style="list-style-type: none"> <li>The plan can also be approved without this; however, they won't be a participant and will require a future amendment if they choose to later apply for project funding within Shelby County.</li> </ul> </li> </ul> <p>A6.</p> <ul style="list-style-type: none"> <li>Section 6. Elaborate more on the plan monitoring and evaluating in between plan updates. For example, how often the planning team will ideally reconvene and evaluate the plan, or how often a plan evaluation/monitoring will happen.</li> </ul> <p>Misc.</p> <ul style="list-style-type: none"> <li>Plan references "Appendix G" for meeting documentation throughout section 3, which is actually in Appendix F.</li> <li>Appendix F has no attachments.</li> <li>Appendix D lists sources, however page 148 (PDF) labels section as appendix E.</li> </ul>				
<b>ELEMENT B. HAZARD IDENTIFICATION AND RISK ASSESSMENT</b>				
B1. Does the Plan include a description of the type, location, and extent of all natural hazards that can affect each jurisdiction(s)? (Requirement §201.6(c)(2)(i))	Section 4			<b>X</b>
B2. Does the Plan include information on previous occurrences of hazard events and on the probability of future hazard events for each jurisdiction? (Requirement §201.6(c)(2)(i))	Section 4			<b>X</b>
B3. Is there a description of each identified hazard's impact on the community as well as an overall summary of the community's vulnerability for each jurisdiction? (Requirement §201.6(c)(2)(ii))	Section 4			<b>X</b>
B4. Does the Plan address NFIP insured structures within the jurisdiction that have been repetitively damaged by floods? (Requirement §201.6(c)(2)(ii))	Section 4.3			<b>X</b>

1. REGULATION CHECKLIST		Location in Plan (section and/or page number)	Met	Not Met
Regulation (44 CFR 201.6 Local Mitigation Plans)				
<b>ELEMENT B: REQUIRED REVISIONS</b>				
B1/2/3.				
<ul style="list-style-type: none"> <li>Page 39 (PDF)- Figure 4.1.1. <ul style="list-style-type: none"> <li>Color scheming can misconstrue understanding of classifications. “High” hazard potential dams should be red, and “Significant” should be orange- swap colors and flip placement of High and Significant in map legend.</li> <li>Label Each Class 1 Dam on map. See item below</li> </ul> </li> <li>Page 40 (PDF)- Table 4.1.1. Add column for ODNR Dam Classification. Sort by highest NID classification to top of table.</li> <li>GENERAL DAM FAILURE FYI. Plan does not address “All Dam Risk” per HHPD requirements. Plan can be approved without assessing “All Dam Risk”, vulnerabilities for each specific high hazard potential dam. However, plan will then need to be amended to include specific vulnerability analyses for each high hazard potential dam for eligibility for any dam-failure mitigating HMA and HHPD grant funds.</li> <li>Page 48 (PDF). Section 4.2.5 states that “A more detailed commodity loss analysis is provided in the Vulnerability Assessment below”. Commodity loss analysis not found in vulnerability assessment.</li> <li>Page 56 (PDF). Table 4.3.2 of Earthquake Structural Vulnerability math seems off. Please revise or clarify methodology. <ul style="list-style-type: none"> <li>Optional. OEMA Can provide new HAZUS-mh Version 6.0 Earthquake and Flood reports if needed.</li> </ul> </li> <li>Page 59 (PDF). Table 4.4.1. Per FEMA’s lawyers, we can no longer publish paid amounts in NFIP Repetitive loss tables. Remove Building Losses, Content Losses, and Total Paid columns.</li> <li>Page 85 (PDF). Relate “\$5 million in property damage.” to total building value in table 4.8.2 <ul style="list-style-type: none"> <li>For example. “\$5 million in property damage, or 0.016% of building value in Shelby County”.</li> </ul> </li> <li>Page 95 (PDF). Replace Figure 4.11.1 with Figure 4.11.2 on page 96 (PDF). <ul style="list-style-type: none"> <li>Remove existing Figure 4.11.2 and “Due to” paragraph below it.</li> </ul> </li> <li>Page 95 (PDF). Move and Replace Figure 4.11.2 to section 4.11.2 “Location, where it references the State of Ohio Wildfire Hazard Assessment. <ul style="list-style-type: none"> <li>Insert State of Ohio Wildfire Hazard Assessment (attached) as new Figure 4.11.2.</li> <li>Fix figure reference in section.</li> </ul> </li> <li>Page 97 (PDF). “Property Damage” refers to a Table 4.11.1 which doesn’t exist in current plan.</li> </ul>				
Misc.				
<ul style="list-style-type: none"> <li>Page 57 (PDF). Plan references Appendix F for Flood insurance maps, which are actually in Appendix E.</li> <li>Page 97 (PDF). Typo. “Tt is unlikely”.</li> <li>See MCD Related item in Element A1 above.</li> </ul>				
<b>ELEMENT C. MITIGATION STRATEGY</b>				
C1. Does the plan document each jurisdiction’s existing authorities, policies, programs and resources and its ability to expand on and improve these existing policies and programs? (Requirement §201.6(c)(3))	Section 3.3		X	
C2. Does the Plan address each jurisdiction’s participation in the NFIP and continued compliance with NFIP requirements, as appropriate? (Requirement §201.6(c)(3)(ii))	Section 4.4.3		X	

<b>1. REGULATION CHECKLIST</b>		<b>Location in Plan (section and/or page number)</b>	<b>Met</b>	<b>Not Met</b>
<b>Regulation (44 CFR 201.6 Local Mitigation Plans)</b>				
C3. Does the Plan include goals to reduce/avoid long-term vulnerabilities to the identified hazards? (Requirement §201.6(c)(3)(i))		Section 5.2	X	
C4. Does the Plan identify and analyze a comprehensive range of specific mitigation actions and projects for each jurisdiction being considered to reduce the effects of hazards, with emphasis on new and existing buildings and infrastructure? (Requirement §201.6(c)(3)(ii))		Table 5.3.1		X
C5. Does the Plan contain an action plan that describes how the actions identified will be prioritized (including cost benefit review), implemented, and administered by each jurisdiction? (Requirement §201.6(c)(3)(iv)); (Requirement §201.6(c)(3)(iii))		Table 5.3.1, Appendix C?		X
C6. Does the Plan describe a process by which local governments will integrate the requirements of the mitigation plan into other planning mechanisms, such as comprehensive or capital improvement plans, when appropriate? (Requirement §201.6(c)(4)(ii))		Section 6.3, 6.4	X	
<b>ELEMENT C: REQUIRED REVISIONS</b>				
<p>C4.</p> <ul style="list-style-type: none"> <li>See first bulletpoint in Element A above. Section 5 lists mitigation actions for the Village of Anna, Botkins, Kettlersville, Lockington, and Port Jefferson. These jurisdictions weren't found to have participated and therefore aren't able to adopt the plan and be eligible for HMA and HHPD funding. If participation cannot be document, either: <ul style="list-style-type: none"> <li>Remove those jurisdictions under "Community" column of mitigation action table. OR</li> <li>Mention above Table 5.3.1 that those jurisdictions did not participate in the Hazard Mitigation Planning Process and cannot adopt the plan and aren't eligible for HMA and HHPD funding.</li> </ul> </li> <li>Page 33 (PDF). From Table 3.4.1, it appears that participation from the Village of Anna, Botkins, Kettlersville, Lockington, and Port Jefferson did not take place. If they did participate, please clarify or correct. If not, document outreach efforts in section 3.4 and state that the jurisdictions were invited but did not participate, therefore will not be able to adopt the plan and be eligible for HMA and HHPD funding.</li> <li>Rephrase Mitigation Action 22 to just: "Develop a flood study, particularly for Loramie Creek between the Loramie Lake Dam on the north side of Fort Loramie and State Route (SR) 47 south of Newport, Ohio, as well as for other areas of flooding in the county"</li> </ul> <p>C5.</p> <ul style="list-style-type: none"> <li>Page 102 (PDF) refers to Appendix C for the Matrix Score Spreadsheet which cannot be found.</li> </ul> <p>Misc.</p> <ul style="list-style-type: none"> <li>See MCD Related item in Element A1 above.</li> </ul>				
<b>ELEMENT D. PLAN REVIEW, EVALUATION, AND IMPLEMENTATION</b> (applicable to plan updates only)				
D1. Was the plan revised to reflect changes in development? (Requirement §201.6(d)(3))		Section 1.2, Section 2.	X	
D2. Was the plan revised to reflect progress in local mitigation efforts? (Requirement §201.6(d)(3))		Appendix B	X	

1. REGULATION CHECKLIST		Location in Plan (section and/or page number)	Met	Not Met
Regulation (44 CFR 201.6 Local Mitigation Plans)				
D3. Was the plan revised to reflect changes in priorities? (Requirement §201.6(d)(3))	Table 5.3.1, Appendix C?	X		
<b>ELEMENT D: REQUIRED REVISIONS</b>				
<b>ELEMENT E. PLAN ADOPTION</b>				
E1. Does the Plan include documentation that the plan has been formally adopted by the governing body of the jurisdiction requesting approval? (Requirement §201.6(c)(5))	Pending	X		
E2. For multi-jurisdictional plans, has each jurisdiction requesting approval of the plan documented formal plan adoption? (Requirement §201.6(c)(5))	Pending	X		
<b>ELEMENT E: REQUIRED REVISIONS</b>				
<b>OPTIONAL: HIGH HAZARD POTENTIAL DAM RISKS</b>				
HHPD1. Did Element A4 (planning process) describe the incorporation of existing plans, studies, reports, and technical information for high hazard potential dams?	Section 3.2 Appendix D Sources listed throughout plan	X		
HHPD2. Did Element B3 (risk assessment) address HHPDs?	Section 4.1			X
HHPD3. Did Element C3 (mitigation goals) include mitigation goals to reduce long-term vulnerabilities from high hazard potential dams that pose an unacceptable risk to the public?	Goal 2	X		
HHPD4. Did Element C4-C5 (mitigation actions) address HHPDs prioritize mitigation actions to reduce vulnerabilities from high hazard potential dams that pose an unacceptable risk to the public?	Table 5.3.1	X		
<b>REQUIRED REVISIONS</b> See Dam Failure relevant items in Element B above.				
<b>ELEMENT F. ADDITIONAL STATE REQUIREMENTS (OPTIONAL FOR STATE REVIEWERS ONLY; NOT TO BE COMPLETED BY FEMA)</b>				
F1.				
F2.				
<b>ELEMENT F: REQUIRED REVISIONS</b>				

## SECTION 2: PLAN ASSESSMENT

**INSTRUCTIONS:** The purpose of the Plan Assessment is to offer the local community more comprehensive feedback to the community on the quality and utility of the plan in a narrative format. The audience for the Plan Assessment is not only the plan developer/local community planner, but also elected officials, local departments and agencies, and others involved in implementing the Local Mitigation Plan. The Plan Assessment must be completed by FEMA. The Assessment is an opportunity for FEMA to provide feedback and information to the community on: 1) suggested improvements to the Plan; 2) specific sections in the Plan where the community has gone above and beyond minimum requirements; 3) recommendations for plan implementation; and 4) ongoing partnership(s) and information on other FEMA programs, specifically RiskMAP and Hazard Mitigation Assistance programs. The Plan Assessment is divided into two sections:

1. Plan Strengths and Opportunities for Improvement
2. Resources for Implementing Your Approved Plan

***Plan Strengths and Opportunities for Improvement*** is organized according to the plan Elements listed in the Regulation Checklist. Each Element includes a series of italicized bulleted items that are suggested topics for consideration while evaluating plans, but it is not intended to be a comprehensive list. FEMA Mitigation Planners are not required to answer each bullet item and should use them as a guide to paraphrase their own written assessment (2-3 sentences) of each Element.

The Plan Assessment must not reiterate the required revisions from the Regulation Checklist or be regulatory in nature and should be open-ended and to provide the community with suggestions for improvements or recommended revisions. The recommended revisions are suggestions for improvement and are not required to be made for the Plan to meet Federal regulatory requirements. The italicized text should be deleted once FEMA has added comments regarding strengths of the plan and potential improvements for future plan revisions. It is recommended that the Plan Assessment be a short synopsis of the overall strengths and weaknesses of the Plan (no longer than two pages), rather than a complete recap section by section.

***Resources for Implementing Your Approved Plan*** provides a place for FEMA to offer information, data sources and general suggestions on the plan implementation and maintenance process. Information on other possible sources of assistance including, but not limited to, existing publications, grant funding or training opportunities, can be provided. States may add state and local resources, if available.

## A. Plan Strengths and Opportunities for Improvement

This section provides a discussion of the strengths of the plan document and identifies areas where these could be improved beyond minimum requirements.

### Element A: Planning Process

*How does the Plan go above and beyond minimum requirements to document the planning process with respect to:*

- *Involvement of stakeholders (elected officials/decision makers, plan implementers, business owners, academic institutions, utility companies, water/sanitation districts, etc.);*
- *Involvement of Planning, Emergency Management, Public Works Departments or other planning agencies (i.e., regional planning councils);*
- *Diverse methods of participation (meetings, surveys, online, etc.); and*
- *Reflective of an open and inclusive public involvement process.*

### Element B: Hazard Identification and Risk Assessment

*In addition to the requirements listed in the Regulation Checklist, 44 CFR 201.6 Local Mitigation Plans identifies additional elements that should be included as part of a plan's risk assessment. The plan should describe vulnerability in terms of:*

- 1) *A general description of land uses and future development trends within the community so that mitigation options can be considered in future land use decisions;*
- 2) *The types and numbers of existing and future buildings, infrastructure, and critical facilities located in the identified hazard areas; and*
- 3) *A description of potential dollar losses to vulnerable structures, and a description of the methodology used to prepare the estimate.*

*How does the Plan go above and beyond minimum requirements to document the Hazard Identification and Risk Assessment with respect to:*

- *Use of best available data (flood maps, HAZUS, flood studies) to describe significant hazards;*
- *Communication of risk on people, property, and infrastructure to the public (through tables, charts, maps, photos, etc.);*
- *Incorporation of techniques and methodologies to estimate dollar losses to vulnerable structures;*
- *Incorporation of Risk MAP products (i.e., depth grids, Flood Risk Report, Changes Since Last FIRM, Areas of Mitigation Interest, etc.); and*
- *Identification of any data gaps that can be filled as new data became available.*

### Element C: Mitigation Strategy

*How does the Plan go above and beyond minimum requirements to document the Mitigation Strategy with respect to:*

- *Key problems identified in, and linkages to, the vulnerability assessment;*
- *Serving as a blueprint for reducing potential losses identified in the Hazard Identification and Risk Assessment;*
- *Plan content flow from the risk assessment (problem identification) to goal setting to mitigation action development;*
- *An understanding of mitigation principles (diversity of actions that include structural projects, preventative measures, outreach activities, property protection measures, post-disaster actions, etc);*
- *Specific mitigation actions for each participating jurisdiction that reflects their unique risks and capabilities;*
- *Integration of mitigation actions with existing local authorities, policies, programs, and resources; and*
- *Discussion of existing programs (including the NFIP), plans, and policies that could be used to implement mitigation, as well as document past projects.*

### Element D: Plan Update, Evaluation, and Implementation (*Plan Updates Only*)

*How does the Plan go above and beyond minimum requirements to document the 5-year Evaluation and Implementation measures with respect to:*

- *Status of previously recommended mitigation actions;*
- *Identification of barriers or obstacles to successful implementation or completion of mitigation actions, along with possible solutions for overcoming risk;*
- *Documentation of annual reviews and committee involvement;*
- *Identification of a lead person to take ownership of, and champion the Plan;*
- *Reducing risks from natural hazards and serving as a guide for decisions makers as they commit resources to reducing the effects of natural hazards;*
- *An approach to evaluating future conditions (i.e. socio-economic, environmental, demographic, change in built environment etc.);*
- *Discussion of how changing conditions and opportunities could impact community resilience in the long term; and*
- *Discussion of how the mitigation goals and actions support the long-term community vision for increased resilience.*

## B. Resources for Implementing Your Approved Plan

*Ideas may be offered on moving the mitigation plan forward and continuing the relationship with key mitigation stakeholders such as the following:*

- *What FEMA assistance (funding) programs are available (for example, Hazard Mitigation Assistance (HMA)) to the jurisdiction(s) to assist with implementing the mitigation actions?*
- *What other Federal programs (National Flood Insurance Program (NFIP), Community Rating System (CRS), Risk MAP, etc.) may provide assistance for mitigation activities?*
- *What publications, technical guidance or other resources are available to the jurisdiction(s) relevant to the identified mitigation actions?*
- *Are there upcoming trainings/workshops (Benefit-Cost Analysis (BCA), HMA, etc.) to assist the jurisdictions(s)?*
- *What mitigation actions can be funded by other Federal agencies (for example, U.S. Forest Service, National Oceanic and Atmospheric Administration (NOAA), Environmental Protection Agency (EPA) Smart Growth, Housing and Urban Development (HUD) Sustainable Communities, etc.) and/or state and local agencies?*

Hello Kristy,

Below are my comments on the draft Shelby County Hazard Mitigation plan:

**On page 12**, under website: the organization name is the “Sidney-Shelby County Health Department”, not “Shelby County Health Department”.

Maybe also include some of the villages and other agency social media pages included in *Shelby County’s Critical Information Plan*.

**On page 35**, can we make the color scheme match the same color scheme as page 36: “Significant” being yellow and “high” being red? Wouldn’t Lake Loramie’s be considered improved?: However, maybe we need to stick with the timeframe listed.

**Page 38: 4.1.7:** We only have a few dams, which dams have “dam failure inundation maps” completed?

**Page 49:**

**4.3.4 History:** The 1937 earthquake was significant- they had to rebuild the school. Should include the information on the damage from that event- not forget the history even though the damage may not be as probable today.

**4.3.5 Probability:** “The USGS has both long-term and short-term probabilistic seismic hazard forecasts. In the 2018 one year probabilistic seismic hazard forecast, the United States Geological Survey estimates that there is a less than one percent chance of potentially minor-damage ground shaking in 2018 for Shelby County” (Figure 4.3.3). Suggest removing. Either the ground shook or it didn’t shake in that year. We should know that already. Suggest removing map on page 50.

Additional resource for more current information, see attached: 2021 Report on Earthquake Activity in Ohio. Page 2 has Map of Earthquake Epicenters located by Ohio Seismic Network for 2021.

**Page 99: #8** Again, should be Sidney-Shelby County Health Department instead of Shelby County Health Department (suggest abbreviating SSCHD).

**Page 107: #64** Remove Shelby County Health Department as lead agency. Sidney-Shelby County Health Department is a support agency to Red Cross for shelters.

Thanks,

**Roberta Mangen, REHS, MPH**

Emergency Preparedness/ Public Health Sanitarian

SHELBY COUNTY HAZARD MITIGATION PLAN  
**MITIGATION ACTIONS SCORING MATRIX**

#	Mitigation Action	Status	Applicable to Jurisdiction? (Y/N)	Cost Effective (1-5)	Technically Feasible (1-5)	Environmentally Sound (1-5)	Immediate Need (1-5)	Risk Reduction (1-5)
10	Establish a green infrastructure program to link, manage, and expand existing parks, preserves, greenways, etc.	New	N	1	1	1	1	1
11	Require that floodplains be kept as open space.	New	N	1	1	1	1	1
12	Limit the percentage of impervious surfaces within developed parcels (including parking).	New	N	1	1	1	1	1
13	Complete a stormwater drainage study for known problem areas.	New	Y <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>
14	Prepare and adopt a stormwater drainage study for known problem areas.	New	N	1	1	1	1	1
15	Conduct a verification study of FEMA's repetitive loss inventory and developing an associated tracking database.	New	N	1	1	1	1	1
16	Raise utilities and other mechanical devices above expected flood levels.	New	Y <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>
17	Require that any County designated lifeline or critical facility is located outside of 100 year floodplains.	New	N	1	1	1	1	1
18	Map or otherwise record flood and flash flood events.	New	Y <input type="checkbox"/>	3 <input type="checkbox"/>	5 <input type="checkbox"/>	5 <input type="checkbox"/>	1	3 <input type="checkbox"/>
19	Develop or maintain a floodplain management plan, and update it regularly.	New	Y <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	5 <input type="checkbox"/>	1	3 <input type="checkbox"/>
20	Develop depth analysis grids to reduce flooding impacts for locations within the Great Miami Watershed and Loramie Creek Watershed.	Previous	N	1	1	1	1	1
21	Purchase, retrofit, relocate, or demolish repetitive loss properties in the County.	Previous	Y <input type="checkbox"/>	1	1	5 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>
22	Develop a river and stream maintenance program for removing debris and log jams from drainage ways	Previous	Y <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	5 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>

#	Mitigation Action	Status	Applicable to jurisdiction? (Y/N)	Cost Effective (1-5)	Technically Feasible (1-5)	Environmentally Sound(1-5)	Immediate Need (1-5)	Risk Reduction (1-5)
23	Develop plan to replace, modify, or expand culverts along OH-705 in the Village of Fort Loramie.	Previous	Y <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>
24	Improve storm water drainage in the Village of Fort Loramie.	Previous	Y <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>
25	Elevate or otherwise address flood prone structures within the base elevation of the 100- year floodplain.	Previous	N <input type="checkbox"/>	1	1	1	1	1
26	Develop plans to replace, modify, or expand culverts along the Hull Creek railroad in the Village of Botkins.	Previous	Y <input type="checkbox"/>	1	1	1	1	1
27	Seek sources of funding to minimize storm water drainage problems in the Village of Jackson Center.	Previous	Y <input type="checkbox"/>	1	1	1	1	1
28	Seek funding to update Flood Insurance Rate Maps.	Previous	Y <input type="checkbox"/>	1	1	1	1	1
<i>Hazardous Materials</i>								
29	Complete a commodity flow study.	New	N	1	1	1	1	1
<i>Invasive Species</i>								
30	Identify ash trees at risk to the Emerald Ash Borer.	New	N	1	1	1	1	1
31	Identify trees with symptoms of Emerald Ash Borer infestation.	New	N	1	1	1	1	1
32	Treat healthy trees and replace highly damaged trees with a non-Ash species.	New	Y <input type="checkbox"/>	1	1	1	1	1
33	Identify ash trees within 15 miles of a confirmed Emerald Ash Borer infestation. Identify appropriate preventative treatments for ash trees in this zone.	New	N	1	1	1	1	1
34	Identify and log any invasive species event, including plants and animals.	New	Y <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>
<i>Landslides</i>								
35	Identify and map landslide hazard areas.	New	N	1	1	1	1	1

#	Mitigation Action	Status	Applicable to jurisdiction? (Y/N)	Cost Effective (1-5)	Technically Feasible (1-5)	Environmentally Sound (1-5)	Immediate Need (1-5)	Risk Reduction (1-5)
36	Encourage the planting of plants with strong root systems on slopes in at risk areas.	New	Y <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	5 <input type="checkbox"/>	1	1
37	Define steep slope/high risk areas in land use and comprehensive plans and create guidelines or restrict new development in those areas.	New	Y <input type="checkbox"/>	3 <input type="checkbox"/>	1	1	1	1
38	Apply soil stabilization measures, such as planting soil-stabilizing vegetation on steep, publically owned slopes.	New	Y <input type="checkbox"/>	3 <input type="checkbox"/>	1	1	1	1
<i>Multiple Hazards</i>								
39	Adopt the International Building Code (IBC) and International Residential Code (IRC).	New	N	1	1	1	1	1
40	Encourage the use of natural plantings.	New	N	1	1	1	1	1
41	Form a citizen plan implementation steering committee to monitor progress on local mitigation actions. Include a mix of representatives from neighborhoods, local businesses, and local government.	New	Y <input type="checkbox"/>	3 <input type="checkbox"/>	1	1	1	1
42	Define and identify populations that may be vulnerable during severe weather events.	New	Y <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	1	1	1
43	Develop education programs associated with multiple natural hazards and how to prepare for them prior to their occurrence.	New	Y <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	5 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>
44	Develop a public education program for informing residents about the benefits of having NOAA radios and Family Disaster Plans, which will help them better respond to an emergency situation.	New	Y <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	5 <input type="checkbox"/>	1	1
45	Seek funding for early warning systems, such as sirens and county-wide emergency notification system, to warn residents of approaching severe weather.	Previous	Y <input type="checkbox"/>	3 <input type="checkbox"/>	5 <input type="checkbox"/>	5 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>

#	Mitigation Action	Status	Applicable to jurisdiction? (Y/N)	Cost Effective (1-5)	Technically Feasible (1-5)	Environmentally Sound(1-5)	Immediate Need (1-5)	Risk Reduction (1-5)
46	Provide back-up generators and the necessary hook-ups for critical facilities, which need to maintain continuous power to protect human health and life.	Previous	Y <input type="checkbox"/>	1 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	5 <input type="checkbox"/>
47	Develop emergency plan for the Sidney Senior Center.	Previous	Y <input type="checkbox"/>	5 <input type="checkbox"/>	5 <input type="checkbox"/>	5 <input type="checkbox"/>	1 <input type="checkbox"/>	2 <input type="checkbox"/>
48	Develop a tree maintenance program for trimming and pruning trees to help prevent damage from falling limbs.	Previous	Y <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	5 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>
49	Develop an outreach program for informing citizens of designated shelter locations.	Previous	Y <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>
50	Construct community shelter/safe rooms in the Village of Fort Loramie.	Previous	Y <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>
51	Develop educational information for general public concerning alternate methods for keeping basements dry.	Previous	Y <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	5 <input type="checkbox"/>	1 <input type="checkbox"/>	4 <input type="checkbox"/>
52	Seek funding for auto sandbag filling equipment.	Previous	Y <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>
<i>Severe Summer Storms</i>								
53	Install and maintain surge protection on critical electronic equipment.	New	Y <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	5 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>
54	Post warning signs about hail, wind, and lightning at local parks, county fairs, and other outdoor venues.	New	N <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>
55	Coordinate with utility companies to perform regular tree trimming near utility lines.	New	Y <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>
56	Encourage the construction of safe rooms in schools, daycares, nursing homes, and other buildings with vulnerable populations.	New	Y <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>
57	Encourage the construction of safe rooms in mobile home communities.	New	Y <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>

SHELBY COUNTY HAZARD MITIGATION PLAN  
**MITIGATION ACTIONS SCORING MATRIX**

#	Mitigation Action	Status	Applicable to jurisdiction? (Y/N)	Cost Effective (1-5)	Technically Feasible (1-5)	Environmentally Sound (1-5)	Immediate Need (1-5)	Risk Reduction (1-5)
58	Distribute the location of public safe rooms to the general public.	New	Y <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	5 <input type="checkbox"/>	1	1
<i>Severe Winter Weather</i>								
59	Install heating systems in public shelters and lifelines/critical facilities that could be used as public shelters.	New	N	1	1	1	1	1
60	Use snow fences or living snow fences to limit blowing and drifting of snow over critical roadway segments.	New	Y <input type="checkbox"/>	5 <input type="checkbox"/>	5 <input type="checkbox"/>	5 <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>
<i>Wildfire</i>								
61	Identify and map wildfire risk areas.	New	Y <input type="checkbox"/>	1	1	1	1	1
62	Identify communities who are potentially vulnerable to wildfires.	New	N	1	1	1	1	1

### Additional Mitigation Actions

Mitigation Action	Hazard	Cost-Effective	Technically Feasible	Environmentally Sound	Immediate Need	Risk Reduction
Communicate specific road conditions during snow/ ice storms, such as notifying the public of which state routes are or are not safe for driving, perhaps based on input from snow plow drivers and law enforcement.		3	3	5	5	5
Add tornado sirens where villages are not covered by one, and educate the public as to the location of them and the testing schedule of them. Educate via the newspaper but also via social media and mass email lists such as those utilized by the schools and villages.		3	5	5	5	5

## Page 2: Goals Survey

### Q2

New Goals: Please provide any goals or objectives you would like included in the Plan.

New Goal 1	Outreach -- Awareness of floodplain development, particularly in A-1 zoning and accessory structures
------------	--

---

### Q3

Please provide any additional comments related to these goals in the space below.

Include 2017 objectives of (1) To reduce damage, and expedite the recovery process, (2) To establish administrative controls for construction, (3) To educate citizens to increase their awareness of and preparedness for the hazards associated with flooding.

---

## Page 3: Hazard Priorities

#### Q4

Hazards included in 2016 Plan

Dam/Levee Failure	Medium-High Priority
Drought	Medium Priority
Earthquakes	Low-Medium Priority
Extreme Temperatures	Low-Medium Priority
Flooding (includes Flash & Riverine Flooding)	Highest Priority
Hazardous Materials	Medium Priority
Landslides	Lowest Priority
Severe Thunderstorms	Highest Priority
Tornadoes & Damaging Winds	Low-Medium Priority
Wildfire	Lowest Priority
Winter Storms	Highest Priority

Respondent skipped this question

Invasive Species: Mitigation Action 33 New Action: Identify ash trees within 15 miles of a confirmed Emerald Ash Borer infestation. Identify appropriate preventative treatments for ash trees in this zone. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q35**

Respondent skipped this question

Invasive Species: Mitigation Action 34 New Action: Identify and log any invasive species event, including plants and animals. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

## Page 8: Landslides

**Q36**

Respondent skipped this question

Landslides: Mitigation Action 35  
New Action: Identify and map landslide hazard areas  
If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q37**

Respondent skipped this question

Landslides: Mitigation Action 36  
New Action: Encourage the planting of plants with strong rootsystems on slopes in at risk areas.  
If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q38**

Respondent skipped this question

Landslides: Mitigation Action 37  
New Action: Define steep slope/high risk areas in land use and comprehensive plans and create guidelines or restrict new development in those areas.  
If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q39**

Respondent skipped this question

Landslides: Mitigation Action 38  
New Action: Apply soil stabilization measures, such as planting soil-stabilizing vegetation on steep, publically owned slopes.  
If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

## Page 9: Multiple Hazards

**Q40**

Respondent skipped this question

Multiple Hazards: Mitigation Action 39  
New Action: Adopt the International Building Code (IBC) and International Residential Code (IRC). If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q41**

Respondent skipped this question

Multiple Hazards: Mitigation Action 40  
New Action: Encourage the use of natural plantings. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q42**

Respondent skipped this question

Multiple Hazards: Mitigation Action 41  
New Action: Form a citizen plan implementation steering committee to monitor progress on local mitigation actions. Include a mix of representatives from neighborhoods, local businesses, and local government. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q43**

Respondent skipped this question

Multiple Hazards: Mitigation Action 42  
New Action: Define and identify populations that may be vulnerable during severe weather events. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q44**

Respondent skipped this question

Multiple Hazards: Mitigation Action 43  
New Action: Develop education programs associated with multiple natural hazards and how to prepare for them prior to their occurrence. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q45**

Respondent skipped this question

Multiple Hazards: Mitigation Action 44  
New Action: Develop a public education program for informing residents about the benefits of having NOAA radios and Family Disaster Plans, which will help them better respond to an emergency situation. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q46**

Respondent skipped this question

Multiple Hazards: Mitigation Action 45  
Previous Action: Seek funding for early warning systems, such as sirens and county-wide emergency notification system, to warn residents of approaching severe weather. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q47**

Respondent skipped this question

Multiple Hazards: Mitigation Action 46  
Previous Action: Provide back-up generators and the necessary hook-ups for critical facilities, which need to maintain continuous power to protect human health and life. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q48**

Respondent skipped this question

Multiple Hazards: Mitigation Action 47  
Previous Action: Develop emergency plan for the Sidney Senior Center. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q49**

Respondent skipped this question

Multiple Hazards: Mitigation Action 48  
Previous Action: Develop a tree maintenance program for trimming and pruning trees to help prevent damage from falling limbs. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q50**

Respondent skipped this question

Multiple Hazards: Mitigation Action 49  
Previous Action: Develop an outreach program for informing citizens of designated shelter locations. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q51**

Respondent skipped this question

Multiple Hazards: Mitigation Action 50  
Previous Action: Construct community shelter/safe rooms in the Village of Fort Loramie. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q52**

Respondent skipped this question

Multiple Hazards: Mitigation Action 51  
Previous Action: Develop educational information for general public concerning alternate methods for keeping basements dry. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q53**

Respondent skipped this question

Multiple Hazards: Mitigation Action 52  
Previous Action: Seek funding for auto sandbag filling equipment. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

Page 10: Severe Summer Storms

**Q54**

Respondent skipped this question

Severe Summer Weather: Mitigation Action 53  
New Action: Install and maintain surge protection on critical electronic equipment. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q55**

Respondent skipped this question

Severe Summer Weather: Mitigation Action 54  
New Action: Post warning signs about hail, wind, and lightning at local parks, county fairs, and other outdoor venues. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q56**

Respondent skipped this question

Severe Summer Weather: Mitigation Action 55  
New Action: Coordinate with utility companies to perform regular tree trimming near utility lines. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q57**

Respondent skipped this question

Severe Summer Weather: Mitigation Action 56  
New Action: Encourage the construction of safe rooms in schools, daycares, nursing homes, and other buildings with vulnerable populations. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q58**

Respondent skipped this question

Severe Summer Weather: Mitigation Action 57  
New Action: Encourage the construction of safe rooms in mobile home communities. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q59**

Respondent skipped this question

Severe Summer Weather: Mitigation Action 58  
New Action: Distribute the location of public safe rooms to the general public. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

Page 11: Severe Winter Weather

**Q60**

Respondent skipped this question

Severe Winter Weather: Mitigation Action 59  
New Action: Install heating systems in public shelters and lifelines/critical facilities that could be used as public shelters. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q61**

Respondent skipped this question

Severe Winter Weather: Mitigation Action 60  
New Action: Use snow fences or living snow fences to limit blowing and drifting of snow over critical roadway segments. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

Page 12: Wildfire

**Q62**

Respondent skipped this question

Wildfire: Mitigation Action 61  
New Action: Identify and map wildfire risk areas. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q63**

Respondent skipped this question

Wildfire: Mitigation Action 62  
New Action: Identify communities who are potentially vulnerable to wildfires. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

## Page 3: Dam Failure

## Q2

Dam Failure: Mitigation Action 1  
 New Action: Obtain inundation mapping for at least all high hazard potential dams in the County. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	3
Immediate Need	3
Risk Reduction	4

## Q3

Respondent skipped this question

Dam Failure: Mitigation Action 2  
 New Action: Identify and record any high hazard potential dams in the County in need of rehabilitation. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

**Q4**

Respondent skipped this question

Dam Failure: Mitigation Action 3  
 New Action: Rehabilitate high hazard potential dams in the County as needed. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Page 4: Drought

**Q5**

Drought: Mitigation Action 4  
 New Action: Identify local drought indicators, such as precipitation, temperature, surface water levels, soil moisture, etc. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	3
Immediate Need	3
Risk Reduction	3

**Q6**

Drought: Mitigation Action 5  
 New Action: Regularly monitor and report on local drought indicators. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	3
Immediate Need	3
Risk Reduction	3

**Q7**

Drought: Mitigation Action 6 New Action: Develop a drought communication plan and early warning system. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	3
Immediate Need	3
Risk Reduction	3

**Q8**

Drought: Mitigation Action 7 New Action: Develop a public education program for residents for restrictions on open burning and water usage during drought conditions. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	3
Immediate Need	3
Risk Reduction	3

## Page 5: Flooding

**Q9**

Flooding: Mitigation Action 8 New Action: Ensure that all communities eligible for participation in the National Flood Insurance Program (NFIP) continue to participate. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	3
Environmentally Sound	3
Immediate Need	3
Risk Reduction	3

**Q10**

Flooding: Mitigation Action 9 New Action: Develop a floodplain management plan and update it regularly. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	3

**Q22**

Flooding: Mitigation Action 21 Previous Action: Purchase, retrofit, relocate, or demolish repetitive loss properties in the County. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	3
Immediate Need	3
Risk Reduction	3

**Q23**

Flooding: Mitigation Action 22 Previous Action: Develop a river and stream maintenance program for removing debris and log jams from drainage ways. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	3
Immediate Need	3
Risk Reduction	3

**Q24**

Flooding: Mitigation Action 23 Previous Action: Develop plan to replace, modify, or expand culverts along OH-705 in the Village of Fort Lorami. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: N/A

**Q25**

Flooding: Mitigation Action 24 Previous Action: Improve storm water drainage in the Village of Fort Lorami. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: N/A

**Q26**

Flooding: Mitigation Action 25 Previous Action: Elevate or otherwise address flood prone structures within the base elevation of the 100- year floodplain If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	3
Immediate Need	3
Risk Reduction	3

**Q27**

Flooding: Mitigation Action 26 Previous Action: Develop plans to replace, modify, or expand culverts along the Hull Creek railroad in the Village of Botkins If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: N/A

**Q28**

Flooding: Mitigation Action 27 Previous Action: Seek sources of funding to minimize storm water drainage problems in the Village of Jackson Center. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: N/A

**Q29**

Flooding: Mitigation Action 28 Previous Action: Seek funding to update Flood Insurance Rate Maps. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

**Q43**

Multiple Hazards: Mitigation Action 42 New Action: Define and identify populations that may be vulnerable during severe weather events. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>5 (highest possible score)</b>
Technically Feasible	<b>5 (highest possible score)</b>
Environmentally Sound	<b>1 (lowest possible score)</b>
Immediate Need	<b>3</b>
Risk Reduction	<b>3</b>

---

**Q44**

Multiple Hazards: Mitigation Action 43 New Action: Develop education programs associated with multiple natural hazards and how to prepare for them prior to their occurrence. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>5 (highest possible score)</b>
Technically Feasible	<b>5 (highest possible score)</b>
Environmentally Sound	<b>1 (lowest possible score)</b>
Immediate Need	<b>3</b>
Risk Reduction	<b>5 (highest possible score)</b>

---

**Q45**

**Multiple Hazards: Mitigation Action 44**  
**New Action:** Develop a public education program for informing residents about the benefits of having NOAA radios and Family Disaster Plans, which will help them better respond to an emergency situation. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>5 (highest possible score)</b>
Technically Feasible	<b>5 (highest possible score)</b>
Environmentally Sound	<b>1 (lowest possible score)</b>
Immediate Need	<b>3</b>
Risk Reduction	<b>5 (highest possible score)</b>

---

**Q46**

**Multiple Hazards: Mitigation Action 45**  
**Previous Action:** Seek funding for early warning systems, such as sirens and county-wide emergency notification system, to warn residents of approaching severe weather. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>5 (highest possible score)</b>
Technically Feasible	<b>4</b>
Environmentally Sound	<b>1 (lowest possible score)</b>
Immediate Need	<b>4</b>
Risk Reduction	<b>5 (highest possible score)</b>

---

**Q47**

**Multiple Hazards: Mitigation Action 46**  
**Previous Action:** Provide back-up generators and the necessary hook-ups for critical facilities, which need to maintain continuous power to protect human health and life. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>5 (highest possible score)</b>
Technically Feasible	<b>5 (highest possible score)</b>
Environmentally Sound	<b>1 (lowest possible score)</b>
Immediate Need	<b>5 (highest possible score)</b>
Risk Reduction	<b>3</b>

---

**Q48**

Multiple Hazards: Mitigation Action 47  
Previous Action: Develop emergency plan for the Sidney Senior Center.  
If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>5 (highest possible score)</b>
Technically Feasible	<b>5 (highest possible score)</b>
Environmentally Sound	<b>1 (lowest possible score)</b>
Immediate Need	<b>1 (lowest possible score)</b>
Risk Reduction	<b>1 (lowest possible score)</b>

---

**Q49**

Multiple Hazards: Mitigation Action 48  
Previous Action: Develop a tree maintenance program for trimming and pruning trees to help prevent damage from falling limbs.  
If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>5 (highest possible score)</b>
Technically Feasible	<b>3</b>
Environmentally Sound	<b>3</b>
Immediate Need	<b>3</b>
Risk Reduction	<b>5 (highest possible score)</b>

---

**Q50**

Multiple Hazards: Mitigation Action 49  
Previous Action: Develop an outreach program for informing citizens of designated shelter locations.  
If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>5 (highest possible score)</b>
Technically Feasible	<b>5 (highest possible score)</b>
Environmentally Sound	<b>1 (lowest possible score)</b>
Immediate Need	<b>1 (lowest possible score)</b>
Risk Reduction	<b>5 (highest possible score)</b>

# Surveys: City of Sidney

NAME:

JURISDICTION:

#	Mitigation Action	Status	Applicable to jurisdiction? (Y/N)	Cost Effective (1-5)	Technically Feasible (1-5)	Environmentally Sound (1-5)	Immediate Need (1-5)	Risk Reduction (1-5)
<i>Dam Failure</i>								
1	Obtain inundation mapping for at least all high hazard potential dams in the County.	New	Y <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>
2	Identify and record any high hazard potential dams in the County in need of rehabilitation.	New	Y <input type="checkbox"/>	2 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	2 <input type="checkbox"/>
3	Rehabilitate high hazard potential dams in the County as needed.	New	Y <input type="checkbox"/>	2 <input type="checkbox"/>	2 <input type="checkbox"/>	1	2 <input type="checkbox"/>	1
<i>Drought</i>								
4	Identify local drought indicators, such as precipitation, temperature, surface water levels, soil moisture, etc.	New	Y <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>	1	1	4 <input type="checkbox"/>
5	Regularly monitor and report on local drought indicators.	New	Y <input type="checkbox"/>	1	1	1	1	1
6	Develop a drought communication plan and early warning system.	New	Y <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	2 <input type="checkbox"/>	1	1
7	Develop a public education program for residents for restrictions on open burning and water usage during drought conditions.	Previous	Y <input type="checkbox"/>	1	1	1	1	1
<i>Flooding</i>								
8	Ensure that all communities eligible for participation in the National Flood Insurance Program (NFIP) continue to participate.	New	Y <input type="checkbox"/>	5 <input type="checkbox"/>	5 <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>
9	Develop a floodplain management plan and update it regularly.	New	Y <input type="checkbox"/>	2 <input type="checkbox"/>	1	1	1	1

#	Mitigation Action	Status	Applicable to jurisdiction? (Y/N)	Cost Effective (1-5)	Technically Feasible (1-5)	Environmentally Sound (1-5)	Immediate Need (1-5)	Risk Reduction (1-5)
10	Establish a green infrastructure program to link, manage, and expand existing parks, preserves, greenways, etc.	New	Y <input type="checkbox"/>	2 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>
11	Require that floodplains be kept as open space.	New	Y <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	1 <input type="checkbox"/>	3 <input type="checkbox"/>	1 <input type="checkbox"/>
12	Limit the percentage of impervious surfaces within developed parcels (including parking).	New	Y <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>
13	Complete a stormwater drainage study for known problem areas.	New	Y <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>
14	Prepare and adopt a stormwater drainage study for known problem areas.	New	Y <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>
15	Conduct a verification study of FEMA's repetitive loss inventory and developing an associated tracking database.	New	Y <input type="checkbox"/>	2 <input type="checkbox"/>	2 <input type="checkbox"/>	1 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
16	Raise utilities and other mechanical devices above expected flood levels.	New	Y <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>
17	Require that any County designated lifeline or critical facility is located outside of 100 year floodplains.	New	Y <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>
18	Map or otherwise record flood and flash flood events.	New	Y <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>
19	Develop or maintain a floodplain management plan, and update it regularly.	New	Y <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>
20	Develop depth analysis grids to reduce flooding impacts for locations within the Great Miami Watershed and Loramie Creek Watershed.	Previous	N <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>
21	Purchase, retrofit, relocate, or demolish repetitive loss properties in the County.	Previous	Y <input type="checkbox"/>	1 <input type="checkbox"/>	5 <input type="checkbox"/>	5 <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>
22	Develop a river and stream maintenance program for removing debris and log jams from drainage ways	Previous	Y <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>

#	Mitigation Action	Status	Applicable to jurisdiction? (Y/N)	Cost Effective (1-5)	Technically Feasible (1-5)	Environmentally Sound (1-5)	Immediate Need (1-5)	Risk Reduction (1-5)
23	Develop plan to replace, modify, or expand culverts along OH-705 in the Village of Fort Loramie.	Previous	N	1	1	1	1	1
24	Improve storm water drainage in the Village of Fort Loramie.	Previous	N	1	1	1	1	1
25	Elevate or otherwise address flood prone structures within the base elevation of the 100- year floodplain.	Previous	Y <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>
26	Develop plans to replace, modify, or expand culverts along the Hull Creek railroad in the Village of Botkins.	Previous	N	1	1	1	1	1
27	Seek sources of funding to minimize storm water drainage problems in the Village of Jackson Center.	Previous	N	1	1	1	1	1
28	Seek funding to update Flood Insurance Rate Maps.	Previous	Y <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>
<i>Hazardous Materials</i>								
29	Complete a commodity flow study.	New	Y <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>
<i>Invasive Species</i>								
30	Identify ash trees at risk to the Emerald Ash Borer.	New	Y <input type="checkbox"/>	5 <input type="checkbox"/>	5 <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>
31	Identify trees with symptoms of Emerald Ash Borer infestation.	New	Y <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>
32	Treat healthy trees and replace highly damaged trees with a non-Ash species.	New	Y <input type="checkbox"/>	5 <input type="checkbox"/>	3 <input type="checkbox"/>	2 <input type="checkbox"/>	2 <input type="checkbox"/>	1
33	Identify ash trees within 15 miles of a confirmed Emerald Ash Borer infestation. Identify appropriate preventative treatments for ash trees in this zone.	New	Y <input type="checkbox"/>	5 <input type="checkbox"/>	3 <input type="checkbox"/>	2 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>
34	Identify and log any invasive species event, including plants and animals.	New	Y <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>	2 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>
<i>Landslides</i>								
35	Identify and map landslide hazard areas.	New	N	1	1	1	1	1

#	Mitigation Action	Status	Applicable to jurisdiction? (Y/N)	Cost Effective (1-5)	Technically Feasible (1-5)	Environmentally Sound(1-5)	Immediate Need (1-5)	Risk Reduction (1-5)
36	Encourage the planting of plants with strong root systems on slopes in at risk areas.	New	N	1	4 <input type="checkbox"/>	4 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>
37	Define steep slope/high risk areas in land use and comprehensive plans and create guidelines or restrict new development in those areas.	New	N	2 <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>
38	Apply soil stabilization measures, such as planting soil-stabilizing vegetation on steep, publically owned slopes.	New	N	2 <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>
<i>Multiple Hazards</i>								
39	Adopt the International Building Code (IBC) and International Residential Code (IRC).	New	N	2 <input type="checkbox"/>	5 <input type="checkbox"/>	3 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>
40	Encourage the use of natural plantings.	New	N	3 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
41	Form a citizen plan implementation steering committee to monitor progress on local mitigation actions. Include a mix of representatives from neighborhoods, local businesses, and local government.	New	N	2 <input type="checkbox"/>	2 <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>	3 <input type="checkbox"/>
42	Define and identify populations that may be vulnerable during severe weather events.	New	N	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>	3 <input type="checkbox"/>
43	Develop education programs associated with multiple natural hazards and how to prepare for them prior to their occurrence.	New	N	2 <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>	3 <input type="checkbox"/>
44	Develop a public education program for informing residents about the benefits of having NOAA radios and Family Disaster Plans, which will help them better respond to an emergency situation.	New	N	5 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>
45	Seek funding for early warning systems, such as sirens and county-wide emergency notification system, to warn residents of approaching severe weather.	Previous	N	5 <input type="checkbox"/>	5 <input type="checkbox"/>	5 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>

#	Mitigation Action	Status	Applicable to jurisdiction? (Y/N)	Cost Effective (1-5)	Technically Feasible (1-5)	Environmentally Sound(1-5)	Immediate Need (1-5)	Risk Reduction (1-5)
46	Provide back-up generators and the necessary hook-ups for critical facilities, which need to maintain continuous power to protect human health and life.	Previous	Y <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	2 <input type="checkbox"/>	4 <input type="checkbox"/>	3 <input type="checkbox"/>
47	Develop emergency plan for the Sidney Senior Center.	Previous	Y <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>

NAME: MARTHA MILLIGAN

JURISDICTION: CITY OF SIDNEY, OHIO

#	Mitigation Action	Status	Applicable to jurisdiction? (Y/N)	Cost Effective (1-5)	Technically Feasible (1-5)	Environmentally Sound(1-5)	Immediate Need (1-5)	Risk Reduction (1-5)
<i>Dam Failure</i>								
1	Obtain inundation mapping for at least all high hazard potential dams in the County.	New	Y	2	1	1	1	3
2	Identify and record any high hazard potential dams in the County in need of rehabilitation.	New	Y	1	1	1	1	3
3	Rehabilitate high hazard potential dams in the County as needed.	New	Y	1	1	1	1	5
<i>Drought</i>								
4	Identify local drought indicators, such as precipitation, temperature, surface water levels, soil moisture, etc.	New	Y	3	3	1	1	3
5	Regularly monitor and report on local drought indicators.	New	Y	1	1	1	1	1
6	Develop a drought communication plan and early warning system.	New	Y	1	1	1	1	1
7	Develop a public education program for residents for restrictions on open burning and water usage during drought conditions.	Previous	Y	2	2	2	2	3
<i>Flooding</i>								
8	Ensure that all communities eligible for participation in the National Flood Insurance Program (NFIP) continue to participate.	New	Y	1	1	1	1	1
9	Develop a floodplain management plan and update it regularly.	New	Y	1	1	1	1	1

#	Mitigation Action	Status	Applicable to jurisdiction? (Y/N)	Cost Effective (1-5)	Technically Feasible (1-5)	Environmentally Sound(1-5)	Immediate Need (1-5)	Risk Reduction (1-5)
10	Establish a green infrastructure program to link, manage, and expand existing parks, preserves, greenways, etc.	New	Y	5	3	3	2	3
11	Require that floodplains be kept as open space.	New	Y	4	3	3	3	3
12	Limit the percentage of impervious surfaces within developed parcels (including parking).	New	Y	1	1	1	1	1
13	Complete a stormwater drainage study for known problem areas.	New	Y	1	1	1	1	1
14	Prepare and adopt a stormwater drainage study for known problem areas.	New	Y	1	1	1	1	1
15	Conduct a verification study of FEMA's repetitive loss inventory and developing an associated tracking database.	New	Y	1	1	1	1	1
16	Raise utilities and other mechanical devices above expected flood levels.	New	Y	5	1	1	1	3
17	Require that any County designated lifeline or critical facility is located outside of 100 year floodplains.	New	Y	5	1	1	1	3
18	Map or otherwise record flood and flash flood events.	New	Y	1	1	1	1	1
19	Develop or maintain a floodplain management plan, and update it regularly.	New	Y	1	1	1	1	1
20	Develop depth analysis grids to reduce flooding impacts for locations within the Great Miami Watershed and Loramie Creek Watershed.	Previous	Y	1	1	1	1	1
21	Purchase, retrofit, relocate, or demolish repetitive loss properties in the County.	Previous	Y	1	1	1	1	1
22	Develop a river and stream maintenance program for removing debris and log jams from drainage ways	Previous	Y	3	3	5	3	5

#	Mitigation Action	Status	Applicable to jurisdiction? (Y/N)	Cost Effective (1-5)	Technically Feasible (1-5)	Environmentally Sound(1-5)	Immediate Need (1-5)	Risk Reduction (1-5)
23	Develop plan to replace, modify, or expand culverts along OH-705 in the Village of Fort Loramie.	Previous	N	1	1	1	1	1
24	Improve storm water drainage in the Village of Fort Loramie.	Previous	N	1	1	1	1	1
25	Elevate or otherwise address flood prone structures within the base elevation of the 100- year floodplain.	Previous	Y	5	1	1	1	2
26	Develop plans to replace, modify, or expand culverts along the Hull Creek railroad in the Village of Botkins.	Previous	N	1	1	1	1	1
27	Seek sources of funding to minimize storm water drainage problems in the Village of Jackson Center.	Previous	N	1	1	1	1	1
28	Seek funding to update Flood Insurance Rate Maps.	Previous	Y	1	1	1	1	1
<i>Hazardous Materials</i>								
29	Complete a commodity flow study.	New	N	1	1	1	1	1
<i>Invasive Species</i>								
30	Identify ash trees at risk to the Emerald Ash Borer.	New	Y	1	1	1	1	1
31	Identify trees with symptoms of Emerald Ash Borer infestation.	New	Y	1	1	1	1	1
32	Treat healthy trees and replace highly damaged trees with a non-Ash species.	New	Y	4	2	2	2	3
33	Identify ash trees within 15 miles of a confirmed Emerald Ash Borer infestation. Identify appropriate preventative treatments for ash trees in this zone.	New	Y	1	1	3	3	3
34	Identify and log any invasive species event, including plants and animals.	New	Y	1	1	1	1	1
<i>Landslides</i>								
35	Identify and map landslide hazard areas.	New	Y	1	1	1	3	3

#	Mitigation Action	Status	Applicable to jurisdiction? (Y/N)	Cost Effective (1-5)	Technically Feasible (1-5)	Environmentally Sound(1-5)	Immediate Need (1-5)	Risk Reduction (1-5)
36	Encourage the planting of plants with strong root systems on slopes in at risk areas.	New	Y	3	5	5	5	5
37	Define steep slope/high risk areas in land use and comprehensive plans and create guidelines or restrict new development in those areas.	New	Y	3	1	3	2	3
38	Apply soil stabilization measures, such as planting soil-stabilizing vegetation on steep, publically owned slopes.	New	Y	3	3	5	2	3
<i>Multiple Hazards</i>								
39	Adopt the International Building Code (IBC) and International Residential Code (IRC).	New	Y	3	2	2	1	1
40	Encourage the use of natural plantings.	New	Y	1	1	3	1	1
41	Form a citizen plan implementation steering committee to monitor progress on local mitigation actions. Include a mix of representatives from neighborhoods, local businesses, and local government.	New	Y	1	1	1	1	1
42	Define and identify populations that may be vulnerable during severe weather events.	New	Y	1	1	1	1	1
43	Develop education programs associated with multiple natural hazards and how to prepare for them prior to their occurrence.	New	Y	1	1	1	1	1
44	Develop a public education program for informing residents about the benefits of having NOAA radios and Family Disaster Plans, which will help them better respond to an emergency situation.	New	Y	1	1	1	1	1
45	Seek funding for early warning systems, such as sirens and county-wide emergency notification system, to warn residents of approaching severe weather.	Previous	Y	1	1	1	1	1

#	Mitigation Action	Status	Applicable to jurisdiction? (Y/N)	Cost Effective (1-5)	Technically Feasible (1-5)	Environmentally Sound(1-5)	Immediate Need (1-5)	Risk Reduction (1-5)
46	Provide back-up generators and the necessary hook-ups for critical facilities, which need to maintain continuous power to protect human health and life.	Previous	Y	3	3	1	3	5
47	Develop emergency plan for the Sidney Senior Center.	Previous	N	1	1	1	1	1
48	Develop a tree maintenance program for trimming and pruning trees to help prevent damage from falling limbs.	Previous	Y	1	1	1	1	1
49	Develop an outreach program for informing citizens of designated shelter locations.	Previous	Y	1	1	1	1	1
50	Construct community shelter/safe rooms in the Village of Fort Loramie.	Previous	N	1	1	1	1	1

## Page 3: Hazard Priorities

#### Q4

Hazards included in 2016 Plan

Dam/Levee Failure	Medium-High Priority
Drought	Medium-High Priority
Earthquakes	Medium Priority
Extreme Temperatures	Medium Priority
Flooding (includes Flash & Riverine Flooding)	Highest Priority
Hazardous Materials	Highest Priority
Landslides	Lowest Priority
Severe Thunderstorms	Low-Medium Priority
Tornadoes & Damaging Winds	Medium-High Priority
Wildfire	Lowest Priority
Winter Storms	Low-Medium Priority

#### Q5

Possible Additional Hazards

Terrorism (Incl. Cyber, Agro, Active Agressor)	Highest Priority
Land & Mine Subsidence	Lowest Priority
Invasive Species (Includes insects, plants, and other non-native species)	Medium-High Priority
Utility Failure	Medium Priority

#### Q6

Respondent skipped this question

Are there any hazards not listed that you would like included in the Plan? If so, please list and rate below.

Brownouts- with the trend in automobiles becoming more electric/hybrid it would be wise to consider this as being an event that could occur more frequently as powergrids cannot support the charging of them, plus AC, plus washers/dryers/dishwashers, etc.

Seek sources of funding to minimize storm water drainage problems in the Village of Jackson Center.

---

Page 6: Previous Mitigation Actions: City of Sidney

**Q25**

Develop an outreach program for informing citizens of designated shelter locations.

**Deferred (Indicate why below),**

(Required) Please describe your answer choice. When was the action completed? Why was the action deleted, deferred, or remained unchanged? If the action is ongoing, please list how much progress has been made by either providing a percent or describing the status.:  
not sure of the answer, will need to gather more information. I know for the hospital this is worked out for staff, patients and visitors, but not sure about the outside community

---

**Q26**

Develop emergency plan for the Sidney Senior Center.

**Deferred (Indicate why below),**

(Required) Please describe your answer choice. When was the action completed? Why was the action deleted, deferred, or remained unchanged? If the action is ongoing, please list how much progress has been made by either providing a percent or describing the status.:  
unsure of status

---

**Q27**

Elevate or otherwise address flood prone structures within the base elevation of the 100- year floodplain.

**Unchanged (Indicate why below),**

(Required) Please describe your answer choice. When was the action completed? Why was the action deleted, deferred, or remained unchanged? If the action is ongoing, please list how much progress has been made by either providing a percent or describing the status.:  
Have plans for the hospital

---

**Q28**

Provide back-up generators and the necessary hook-ups for critical facilities, which need to maintain continuous power to protect human health and life.

**Completed (Indicate when below),**

(Required) Please describe your answer choice. When was the action completed? Why was the action deleted, deferred, or remained unchanged? If the action is ongoing, please list how much progress has been made by either providing a percent or describing the status.:  
Can get back with answer, we are required to have a generator, so this may have been completed prior to 2017

## Page 3: Dam Failure

**Q2**

**Dam Failure: Mitigation Action 1** New Action: Obtain inundation mapping for at least all high hazard potential dams in the County. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>5 (highest possible score)</b>
Technically Feasible	<b>5 (highest possible score)</b>
Environmentally Sound	<b>5 (highest possible score)</b>
Immediate Need	<b>5 (highest possible score)</b>
Risk Reduction	<b>5 (highest possible score)</b>

---

**Q3**

**Dam Failure: Mitigation Action 2** New Action: Identify and record any high hazard potential dams in the County in need of rehabilitation. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>5 (highest possible score)</b>
Technically Feasible	<b>5 (highest possible score)</b>
Environmentally Sound	<b>5 (highest possible score)</b>
Immediate Need	<b>5 (highest possible score)</b>
Risk Reduction	<b>5 (highest possible score)</b>

---

**Q4**

**Dam Failure: Mitigation Action 3** New Action: Rehabilitate high hazard potential dams in the County as needed. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>5 (highest possible score)</b>
Technically Feasible	<b>5 (highest possible score)</b>
Environmentally Sound	<b>5 (highest possible score)</b>
Immediate Need	<b>5 (highest possible score)</b>
Risk Reduction	<b>5 (highest possible score)</b>

---

Page 4: Drought

**Q5**

**Drought: Mitigation Action 4** New Action: Identify local drought indicators, such as precipitation, temperature, surface water levels, soil moisture, etc. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>3</b>
Technically Feasible	<b>3</b>
Environmentally Sound	<b>3</b>
Immediate Need	<b>3</b>
Risk Reduction	<b>3</b>

---

**Q6**

Drought: Mitigation Action 5 New Action: Regularly monitor and report on local drought indicators. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	3
Immediate Need	3
Risk Reduction	3

---

**Q7**

Drought: Mitigation Action 6 New Action: Develop a drought communication plan and early warning system. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	3
Immediate Need	3
Risk Reduction	3

---

**Q8**

Drought: Mitigation Action 7 New Action: Develop a public education program for residents for restrictions on open burning and water usage during drought conditions. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	3
Immediate Need	3
Risk Reduction	3

---

**Q9**

**Flooding: Mitigation Action 8** New Action: Ensure that all communities eligible for participation in the National Flood Insurance Program (NFIP) continue to participate. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>5 (highest possible score)</b>
Technically Feasible	<b>5 (highest possible score)</b>
Environmentally Sound	<b>5 (highest possible score)</b>
Immediate Need	<b>5 (highest possible score)</b>
Risk Reduction	<b>5 (highest possible score)</b>

---

**Q10**

**Flooding: Mitigation Action 9** New Action: Develop a floodplain management plan and update it regularly. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>5 (highest possible score)</b>
Technically Feasible	<b>5 (highest possible score)</b>
Environmentally Sound	<b>5 (highest possible score)</b>
Immediate Need	<b>5 (highest possible score)</b>
Risk Reduction	<b>5 (highest possible score)</b>

---

**Q11**

**Flooding: Mitigation Action 10** New Action: Establish a green infrastructure program to link, manage, and expand existing parks, preserves, greenways, etc. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>5 (highest possible score)</b>
Technically Feasible	<b>5 (highest possible score)</b>
Environmentally Sound	<b>5 (highest possible score)</b>
Immediate Need	<b>5 (highest possible score)</b>
Risk Reduction	<b>5 (highest possible score)</b>

---

**Q12**

Flooding: Mitigation Action 11 New Action: Require that floodplains be kept as open space. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	5 (highest possible score)
Technically Feasible	5 (highest possible score)
Environmentally Sound	5 (highest possible score)
Immediate Need	5 (highest possible score)
Risk Reduction	5 (highest possible score)

---

**Q13**

Flooding: Mitigation Action 12 New Action: Limit the percentage of impervious surfaces within developed parcels (including parking). If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	5 (highest possible score)
Technically Feasible	5 (highest possible score)
Environmentally Sound	5 (highest possible score)
Immediate Need	5 (highest possible score)
Risk Reduction	5 (highest possible score)

---

**Q14**

Flooding: Mitigation Action 13 New Action: Complete a stormwater drainage study for known problem areas. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	5 (highest possible score)
Technically Feasible	5 (highest possible score)
Environmentally Sound	5 (highest possible score)
Immediate Need	5 (highest possible score)
Risk Reduction	5 (highest possible score)

---

**Q15**

Flooding: Mitigation Action 14 New Action: Prepare and adopt a stormwater drainage study for known problem areas. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	5 (highest possible score)
Technically Feasible	5 (highest possible score)
Environmentally Sound	5 (highest possible score)
Immediate Need	5 (highest possible score)
Risk Reduction	5 (highest possible score)

---

**Q16**

Flooding: Mitigation Action 15 New Action: Conduct a verification study of FEMA's repetitive loss inventory and developing an associated tracking database. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	5 (highest possible score)
Technically Feasible	5 (highest possible score)
Environmentally Sound	5 (highest possible score)
Immediate Need	5 (highest possible score)
Risk Reduction	5 (highest possible score)

---

**Q17**

Flooding: Mitigation Action 16 New Action: Raise utilities and other mechanical devices above expected flood levels. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	5 (highest possible score)
Technically Feasible	5 (highest possible score)
Environmentally Sound	5 (highest possible score)
Immediate Need	5 (highest possible score)
Risk Reduction	5 (highest possible score)

---

**Q18**

Flooding: Mitigation Action 17 New Action: Require that any County designated lifeline or critical facility is located outside of 100 year floodplains. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	5 (highest possible score)
Technically Feasible	5 (highest possible score)
Environmentally Sound	5 (highest possible score)
Immediate Need	5 (highest possible score)
Risk Reduction	5 (highest possible score)

---

**Q19**

Flooding: Mitigation Action 18 New Action: Map or otherwise record flood and flash flood events. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	5 (highest possible score)
Technically Feasible	5 (highest possible score)
Environmentally Sound	5 (highest possible score)
Immediate Need	5 (highest possible score)
Risk Reduction	5 (highest possible score)

---

**Q20**

Flooding: Mitigation Action 19 New Action: Develop or maintain a floodplain management plan, and update it regularly. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	5 (highest possible score)
Technically Feasible	5 (highest possible score)
Environmentally Sound	5 (highest possible score)
Immediate Need	5 (highest possible score)
Risk Reduction	5 (highest possible score)

---

**Q21**

Flooding: Mitigation Action 20 Previous Action: Develop depth analysis grids to reduce flooding impacts for locations within the Great Miami Watershed and Loramie Creek Watershed If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	5 (highest possible score)
Technically Feasible	5 (highest possible score)
Environmentally Sound	5 (highest possible score)
Immediate Need	5 (highest possible score)
Risk Reduction	5 (highest possible score)

---

**Q22**

Flooding: Mitigation Action 21 Previous Action: Purchase, retrofit, relocate, or demolish repetitive loss properties in the County. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	5 (highest possible score)
Technically Feasible	5 (highest possible score)
Environmentally Sound	5 (highest possible score)
Immediate Need	5 (highest possible score)
Risk Reduction	5 (highest possible score)

---

**Q23**

Flooding: Mitigation Action 22 Previous Action: Develop a river and stream maintenance program for removing debris and log jams from drainage ways If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	5 (highest possible score)

Page 3: Dam Failure

Q2

Respondent skipped this question

Dam Failure: Mitigation Action 1  
 New Action: Obtain inundation mapping for at least all high hazard potential dams in the County. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

Q3

Respondent skipped this question

Dam Failure: Mitigation Action 2  
 New Action: Identify and record any high hazard potential dams in the County in need of rehabilitation. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q4**

Respondent skipped this question

Dam Failure: Mitigation Action 3  
New Action: Rehabilitate high hazard potential dams in the County as needed. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

Page 4: Drought

**Q5**

Respondent skipped this question

Drought: Mitigation Action 4  
New Action: Identify local drought indicators, such as precipitation, temperature, surface water levels, soil moisture, etc. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q6**

Respondent skipped this question

Drought: Mitigation Action 5  
New Action: Regularly monitor and report on local drought indicators. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q7**

Respondent skipped this question

Drought: Mitigation Action 6  
New Action: Develop a drought communication plan and early warning system. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q8**

Respondent skipped this question

Drought: Mitigation Action 7  
New Action: Develop a public education program for residents for restrictions on open burning and water usage during drought conditions. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

## Page 5: Flooding

**Q9**

Respondent skipped this question

Flooding: Mitigation Action 8  
New Action: Ensure that all communities eligible for participation in the National Flood Insurance Program (NFIP) continue to participate. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q10**

Respondent skipped this question

Flooding: Mitigation Action 9  
New Action: Develop a floodplain management plan and update it regularly. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q11**

Respondent skipped this question

Flooding: Mitigation Action 10  
New Action: Establish a green infrastructure program to link, manage, and expand existing parks, preserves, greenways, etc. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q12**

Respondent skipped this question

Flooding: Mitigation Action 11  
New Action: Require that floodplains be kept as open space. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q13**

Respondent skipped this question

Flooding: Mitigation Action 12 New Action: Limit the percentage of impervious surfaces within developed parcels (including parking). If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q14**

Respondent skipped this question

Flooding: Mitigation Action 13 New Action: Complete a stormwater drainage study for known problem areas. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q15**

Respondent skipped this question

Flooding: Mitigation Action 14 New Action: Prepare and adopt a stormwater drainage study for known problem areas. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q16**

Respondent skipped this question

Flooding: Mitigation Action 15 New Action: Conduct a verification study of FEMA's repetitive loss inventory and developing an associated tracking database. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q17**

Respondent skipped this question

Flooding: Mitigation Action 16 New Action: Raise utilities and other mechanical devices above expected flood levels. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q18**

Respondent skipped this question

Flooding: Mitigation Action 17  
New Action: Require that any County designated lifeline or critical facility is located outside of 100 year floodplains. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q19**

Respondent skipped this question

Flooding: Mitigation Action 18  
New Action: Map or otherwise record flood and flash flood events. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q20**

Respondent skipped this question

Flooding: Mitigation Action 19  
New Action: Develop or maintain a floodplain management plan, and update it regularly. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q21**

Respondent skipped this question

Flooding: Mitigation Action 20  
Previous Action: Develop depth analysis grids to reduce flooding impacts for locations within the Great Miami Watershed and Loramie Creek Watershed. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q22**

Respondent skipped this question

Flooding: Mitigation Action 21  
Previous Action: Purchase, retrofit, relocate, or demolish repetitive loss properties in the County. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q23**

Respondent skipped this question

Flooding: Mitigation Action 22  
Previous Action: Develop a river and stream maintenance program for removing debris and log jams from drainage ways. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q24**

Respondent skipped this question

Flooding: Mitigation Action 23  
Previous Action: Develop plan to replace, modify, or expand culverts along OH-705 in the Village of Fort Laramie. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q25**

Respondent skipped this question

Flooding: Mitigation Action 24  
Previous Action: Improve storm water drainage in the Village of Fort Laramie. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q26**

Respondent skipped this question

Flooding: Mitigation Action 25  
Previous Action: Elevate or otherwise address flood prone structures within the base elevation of the 100- year floodplain. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q27**

Respondent skipped this question

Flooding: Mitigation Action 26  
Previous Action: Develop plans to replace, modify, or expand culverts along the Hull Creek railroad in the Village of Botkins  
If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q28**

Respondent skipped this question

Flooding: Mitigation Action 27  
Previous Action: Seek sources of funding to minimize storm water drainage problems in the Village of Jackson Center.  
If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q29**

Respondent skipped this question

Flooding: Mitigation Action 28  
Previous Action: Seek funding to update Flood Insurance Rate Maps.  
If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

Page 6: Hazardous Materials

**Q30**

Respondent skipped this question

Hazardous Materials: Mitigation Action 29  
New Action: Complete a commodity flow study.  
If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

Page 7: Invasive Species

**Q31**

Respondent skipped this question

Invasive Species: Mitigation Action 30 New Action: Identify ash trees at risk to the Emerald Ash Borer. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q32**

Respondent skipped this question

Invasive Species: Mitigation Action 31 New Action: Identify trees with symptoms of Emerald Ash Borer infestation. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q33**

Respondent skipped this question

Invasive Species: Mitigation Action 32 New Action: Treat healthy trees and replace highly damaged trees with a non-Ash species. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q34**

Respondent skipped this question

Invasive Species: Mitigation Action 33 New Action: Identify ash trees within 15 miles of a confirmed Emerald Ash Borer infestation. Identify appropriate preventative treatments for ash trees in this zone. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q35**

Respondent skipped this question

Invasive Species: Mitigation Action 34 New Action: Identify and log any invasive species event, including plants and animals. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

## Page 8: Landslides

**Q36**

Respondent skipped this question

Landslides: Mitigation Action 35  
New Action: Identify and map landslide hazard areas  
If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

**Q37**

Respondent skipped this question

Landslides: Mitigation Action 36  
New Action: Encourage the planting of plants with strong rootsystems on slopes in at risk areas.  
If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

**Q38**

Respondent skipped this question

Landslides: Mitigation Action 37  
New Action: Define steep slope/high risk areas in land use and comprehensive plans and create guidelines or restrict new development in those areas.  
If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

**Q39**

Respondent skipped this question

Landslides: Mitigation Action 38  
New Action: Apply soil stabilization measures, such as planting soil-stabilizing vegetation on steep, publically owned slopes.  
If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

## Page 9: Multiple Hazards

**Q40**

Respondent skipped this question

Multiple Hazards: Mitigation Action 39  
New Action: Adopt the International Building Code (IBC) and International Residential Code (IRC). If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q41**

Respondent skipped this question

Multiple Hazards: Mitigation Action 40  
New Action: Encourage the use of natural plantings. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q42**

Respondent skipped this question

Multiple Hazards: Mitigation Action 41  
New Action: Form a citizen plan implementation steering committee to monitor progress on local mitigation actions. Include a mix of representatives from neighborhoods, local businesses, and local government. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q43**

Respondent skipped this question

Multiple Hazards: Mitigation Action 42  
New Action: Define and identify populations that may be vulnerable during severe weather events. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q44**

Respondent skipped this question

Multiple Hazards: Mitigation Action 43  
New Action: Develop education programs associated with multiple natural hazards and how to prepare for them prior to their occurrence. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q45**

Respondent skipped this question

Multiple Hazards: Mitigation Action 44  
New Action: Develop a public education program for informing residents about the benefits of having NOAA radios and Family Disaster Plans, which will help them better respond to an emergency situation. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q46**

Respondent skipped this question

Multiple Hazards: Mitigation Action 45  
Previous Action: Seek funding for early warning systems, such as sirens and county-wide emergency notification system, to warn residents of approaching severe weather. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q47**

Respondent skipped this question

Multiple Hazards: Mitigation Action 46  
Previous Action: Provide back-up generators and the necessary hook-ups for critical facilities, which need to maintain continuous power to protect human health and life. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q48**

Respondent skipped this question

Multiple Hazards: Mitigation Action 47  
Previous Action: Develop emergency plan for the Sidney Senior Center. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q49**

Respondent skipped this question

Multiple Hazards: Mitigation Action 48  
Previous Action: Develop a tree maintenance program for trimming and pruning trees to help prevent damage from falling limbs. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q50**

Respondent skipped this question

Multiple Hazards: Mitigation Action 49  
Previous Action: Develop an outreach program for informing citizens of designated shelter locations. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q51**

Respondent skipped this question

Multiple Hazards: Mitigation Action 50  
Previous Action: Construct community shelter/safe rooms in the Village of Fort Loramie. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q52**

Respondent skipped this question

Multiple Hazards: Mitigation Action 51  
Previous Action: Develop educational information for general public concerning alternate methods for keeping basements dry. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q53**

Respondent skipped this question

Multiple Hazards: Mitigation Action 52  
Previous Action: Seek funding for auto sandbag filling equipment. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

Page 10: Severe Summer Storms

**Q54**

Respondent skipped this question

Severe Summer Weather: Mitigation Action 53  
New Action: Install and maintain surge protection on critical electronic equipment. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q55**

Respondent skipped this question

Severe Summer Weather: Mitigation Action 54  
New Action: Post warning signs about hail, wind, and lightning at local parks, county fairs, and other outdoor venues. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q56**

Respondent skipped this question

Severe Summer Weather: Mitigation Action 55  
New Action: Coordinate with utility companies to perform regular tree trimming near utility lines. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

**Q16**

Flooding: Mitigation Action 15 New Action: Conduct a verification study of FEMA's repetitive loss inventory and developing an associated tracking database. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

**Q17**

Flooding: Mitigation Action 16 New Action: Raise utilities and other mechanical devices above expected flood levels. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: N/A

**Q18**

Flooding: Mitigation Action 17 New Action: Require that any County designated lifeline or critical facility is located outside of 100 year floodplains. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

**Q19**

Flooding: Mitigation Action 18 New Action: Map or otherwise record flood and flash flood events. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	5 (highest possible score)
Immediate Need	4
Risk Reduction	4

---

**Q20**

Flooding: Mitigation Action 19 New Action: Develop or maintain a floodplain management plan, and update it regularly. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	3
Immediate Need	3
Risk Reduction	3

---

**Q21**

Flooding: Mitigation Action 20 Previous Action: Develop depth analysis grids to reduce flooding impacts for locations within the Great Miami Watershed and Loramie Creek Watershed. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	3
Risk Reduction	4

---

**Q22**

Flooding: Mitigation Action 21 Previous Action: Purchase, retrofit, relocate, or demolish repetitive loss properties in the County. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: N/A

---

**Q23**

Flooding: Mitigation Action 22 Previous Action: Develop a river and stream maintenance program for removing debris and log jams from drainage ways. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	3
Immediate Need	4
Risk Reduction	3

---

**Q24**

Flooding: Mitigation Action 23 Previous Action: Develop plan to replace, modify, or expand culverts along OH-705 in the Village of Fort Lorami. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: N/A

---

**Q25**

Flooding: Mitigation Action 24 Previous Action: Improve storm water drainage in the Village of Fort Lorami. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: N/A

---

**Q26**

Flooding: Mitigation Action 25 Previous Action: Elevate or otherwise address flood prone structures within the base elevation of the 100- year floodplain If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>3</b>
Technically Feasible	<b>3</b>
Environmentally Sound	<b>3</b>
Immediate Need	<b>3</b>
Risk Reduction	<b>4</b>

**Q27**

Flooding: Mitigation Action 26 Previous Action: Develop plans to replace, modify, or expand culverts along the Hull Creek railroad in the Village of Botkins If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: N/A

**Q28**

Flooding: Mitigation Action 27 Previous Action: Seek sources of funding to minimize storm water drainage problems in the Village of Jackson Center. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: N/A

**Q29**

Flooding: Mitigation Action 28 Previous Action: Seek funding to update Flood Insurance Rate Maps. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>4</b>
Technically Feasible	<b>4</b>
Environmentally Sound	<b>4</b>
Immediate Need	<b>4</b>
Risk Reduction	<b>5 (highest possible score)</b>

**Q30**

Hazardous Materials: Mitigation Action 29  
 New Action: Complete a commodity flow study. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	3
Environmentally Sound	4
Immediate Need	3
Risk Reduction	4

## Page 7: Invasive Species

**Q31**

Invasive Species: Mitigation Action 30  
 New Action: Identify ash trees at risk to the Emerald Ash Borer. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	5 (highest possible score)

**Q32**

Invasive Species: Mitigation Action 31  
 New Action: Identify trees with symptoms of Emerald Ash Borer infestation. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4
Comments:	Get information out to residents.

**Q33**

Invasive Species: Mitigation Action 32 New Action: Treat healthy trees and replace highly damaged trees with a non-Ash species. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	3
Environmentally Sound	5 (highest possible score)
Immediate Need	2
Risk Reduction	4

---

**Q34**

Invasive Species: Mitigation Action 33 New Action: Identify ash trees within 15 miles of a confirmed Emerald Ash Borer infestation. Identify appropriate preventative treatments for ash trees in this zone. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	3
Environmentally Sound	4
Immediate Need	2
Risk Reduction	3

---

**Q35**

Invasive Species: Mitigation Action 34 New Action: Identify and log any invasive species event, including plants and animals. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	3
Immediate Need	3
Risk Reduction	3

Immediate Need	4
Risk Reduction	4

---

**Q42**

Multiple Hazards: Mitigation Action 41 New Action: Form a citizen plan implementation steering committee to monitor progress on local mitigation actions. Include a mix of representatives from neighborhoods, local businesses, and local government. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

---

**Q43**

Multiple Hazards: Mitigation Action 42 New Action: Define and identify populations that may be vulnerable during severe weather events. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	5 (highest possible score)

---

**Q44**

Multiple Hazards: Mitigation Action 43  
 New Action: Develop education programs associated with multiple natural hazards and how to prepare for them prior to their occurrence. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	5 (highest possible score)

**Q45**

Multiple Hazards: Mitigation Action 44  
 New Action: Develop a public education program for informing residents about the benefits of having NOAA radios and Family Disaster Plans, which will help them better respond to an emergency situation. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	3
Immediate Need	2
Risk Reduction	3
Comments:	People have new technology like cell phones that alert people

**Q46**

Multiple Hazards: Mitigation Action 45  
 Previous Action: Seek funding for early warning systems, such as sirens and county-wide emergency notification system, to warn residents of approaching severe weather. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	5 (highest possible score)
Technically Feasible	2
Environmentally Sound	5 (highest possible score)
Immediate Need	5 (highest possible score)
Risk Reduction	5 (highest possible score)
Comments:	Some communities cant afford a new siren or warning system

**Q47**

Multiple Hazards: Mitigation Action 46  
 Previous Action: Provide back-up generators and the necessary hook-ups for critical facilities, which need to maintain continuous power to protect human health and life. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>3</b>
Technically Feasible	<b>4</b>
Environmentally Sound	<b>5 (highest possible score)</b>
Immediate Need	<b>4</b>
Risk Reduction	<b>4</b>

**Q48**

Multiple Hazards: Mitigation Action 47  
 Previous Action: Develop emergency plan for the Sidney Senior Center. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: N/A

**Q49**

Multiple Hazards: Mitigation Action 48  
 Previous Action: Develop a tree maintenance program for trimming and pruning trees to help prevent damage from falling limbs. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

**Q55**

Severe Summer Weather: Mitigation Action 54 New Action: Post warning signs about hail, wind, and lightning at local parks, county fairs, and other outdoor venues. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	2
Technically Feasible	2
Environmentally Sound	2
Immediate Need	2
Risk Reduction	2

---

**Q56**

Severe Summer Weather: Mitigation Action 55 New Action: Coordinate with utility companies to perform regular tree trimming near utility lines. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	3
Risk Reduction	4

**Q57**

Severe Summer Weather: Mitigation Action 56 New Action: Encourage the construction of safe rooms in schools, daycares, nursing homes, and other buildings with vulnerable populations. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	2
Environmentally Sound	2
Immediate Need	2
Risk Reduction	3

**Q58**

Severe Summer Weather: Mitigation Action 57 New Action: Encourage the construction of safe rooms in mobile home communities. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments:	N/A
-----------	-----

**Q59**

Severe Summer Weather: Mitigation Action 58 New Action: Distribute the location of public safe rooms to the general public. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>1 (lowest possible score)</b>
Technically Feasible	<b>1 (lowest possible score)</b>
Environmentally Sound	<b>1 (lowest possible score)</b>
Immediate Need	<b>1 (lowest possible score)</b>
Risk Reduction	<b>1 (lowest possible score)</b>

## Page 11: Severe Winter Weather

**Q60**

Severe Winter Weather: Mitigation Action 59 New Action: Install heating systems in public shelters and lifelines/critical facilities that could be used as public shelters. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>2</b>
Technically Feasible	<b>2</b>
Environmentally Sound	<b>1 (lowest possible score)</b>
Immediate Need	<b>1 (lowest possible score)</b>
Risk Reduction	<b>2</b>
Comments:	N/A. Public places usually have heating systems

**Q61**

Severe Winter Weather: Mitigation Action 60 New Action: Use snow fences or living snow fences to limit blowing and drifting of snow over critical roadway segments. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>1 (lowest possible score)</b>
Technically Feasible	<b>1 (lowest possible score)</b>
Environmentally Sound	<b>1 (lowest possible score)</b>
Immediate Need	<b>1 (lowest possible score)</b>
Risk Reduction	<b>2</b>
Comments:	Plow trucks do a good job in the village

## Page 12: Wildfire

**Q62**

Wildfire: Mitigation Action 61New Action: Identify and map wildfire risk areas.If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: N/A

**Q63**

Wildfire: Mitigation Action 62New Action: Identify communities who are potentially vulnerable to wildfires.If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: N/A

Page 13: Additional Mitigation Actions (Suggest Your Own)

**Q64**

Rate and describe any additional mitigation actions you would like to see in your community below.

Describe your mitigation action.: N/A

**Q65**

Rate and describe any additional mitigation actions you would like to see in your community below.

Describe your mitigation action.: N/A

**Q66**

Rate and describe any additional mitigation actions you would like to see in your community below.

Describe your mitigation action.: N/A

## Page 4: Drought

**Q5**

Drought: Mitigation Action 4 New Action: Identify local drought indicators, such as precipitation, temperature, surface water levels, soil moisture, etc. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	5 (highest possible score)
Immediate Need	2
Risk Reduction	2

**Q6**

Drought: Mitigation Action 5 New Action: Regularly monitor and report on local drought indicators. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	5 (highest possible score)
Environmentally Sound	5 (highest possible score)
Immediate Need	2
Risk Reduction	2

**Q7**

Drought: Mitigation Action 6 New Action: Develop a drought communication plan and early warning system. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	5 (highest possible score)
Environmentally Sound	4
Immediate Need	2
Risk Reduction	2

**Q8**

Drought: Mitigation Action 7 New Action: Develop a public education program for residents for restrictions on open burning and water usage during drought conditions. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>5 (highest possible score)</b>
Technically Feasible	<b>4</b>
Environmentally Sound	<b>3</b>
Immediate Need	<b>2</b>
Risk Reduction	<b>2</b>

---

## Page 5: Flooding

**Q9**

Flooding: Mitigation Action 8 New Action: Ensure that all communities eligible for participation in the National Flood Insurance Program (NFIP) continue to participate. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>5 (highest possible score)</b>
Technically Feasible	<b>5 (highest possible score)</b>
Environmentally Sound	<b>5 (highest possible score)</b>
Immediate Need	<b>4</b>
Risk Reduction	<b>4</b>

---

**Q10**

Flooding: Mitigation Action 9 New Action: Develop a floodplain management plan and update it regularly. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>2</b>
Technically Feasible	<b>5 (highest possible score)</b>
Environmentally Sound	<b>4</b>
Immediate Need	<b>3</b>
Risk Reduction	<b>3</b>

---

**Q11**

Flooding: Mitigation Action 10 New Action: Establish a green infrastructure program to link, manage, and expand existing parks, preserves, greenways, etc. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>1 (lowest possible score)</b>
Technically Feasible	<b>3</b>
Environmentally Sound	<b>5 (highest possible score)</b>
Immediate Need	<b>2</b>
Risk Reduction	<b>2</b>

---

**Q12**

Flooding: Mitigation Action 11 New Action: Require that floodplains be kept as open space. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>1 (lowest possible score)</b>
Technically Feasible	<b>1 (lowest possible score)</b>
Environmentally Sound	<b>3</b>
Immediate Need	<b>1 (lowest possible score)</b>
Risk Reduction	<b>1 (lowest possible score)</b>

---

**Q13**

Flooding: Mitigation Action 12 New Action: Limit the percentage of impervious surfaces within developed parcels (including parking). If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>3</b>
Technically Feasible	<b>1 (lowest possible score)</b>
Environmentally Sound	<b>3</b>
Immediate Need	<b>1 (lowest possible score)</b>
Risk Reduction	<b>1 (lowest possible score)</b>

---

**Q14**

Flooding: Mitigation Action 13 New Action: Complete a stormwater drainage study for known problem areas. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	4
Environmentally Sound	3
Immediate Need	4
Risk Reduction	4

---

**Q15**

Flooding: Mitigation Action 14 New Action: Prepare and adopt a stormwater drainage study for known problem areas. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	4
Environmentally Sound	3
Immediate Need	4
Risk Reduction	4

---

**Q16**

Flooding: Mitigation Action 15 New Action: Conduct a verification study of FEMA's repetitive loss inventory and developing an associated tracking database. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	3
Immediate Need	3
Risk Reduction	3

---

**Q17**

Flooding: Mitigation Action 16 New Action: Raise utilities and other mechanical devices above expected flood levels. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>1 (lowest possible score)</b>
Technically Feasible	<b>2</b>
Environmentally Sound	<b>3</b>
Immediate Need	<b>1 (lowest possible score)</b>
Risk Reduction	<b>1 (lowest possible score)</b>

---

**Q18**

Flooding: Mitigation Action 17 New Action: Require that any County designated lifeline or critical facility is located outside of 100 year floodplains. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>1 (lowest possible score)</b>
Technically Feasible	<b>2</b>
Environmentally Sound	<b>3</b>
Immediate Need	<b>1 (lowest possible score)</b>
Risk Reduction	<b>1 (lowest possible score)</b>

---

**Q19**

Flooding: Mitigation Action 18 New Action: Map or otherwise record flood and flash flood events. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>5 (highest possible score)</b>
Technically Feasible	<b>5 (highest possible score)</b>
Environmentally Sound	<b>5 (highest possible score)</b>
Immediate Need	<b>4</b>
Risk Reduction	<b>4</b>

---

**Q20**

Flooding: Mitigation Action 19 New Action: Develop or maintain a floodplain management plan, and update it regularly. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	2
Technically Feasible	4
Environmentally Sound	3
Immediate Need	3
Risk Reduction	3

---

**Q21**

Flooding: Mitigation Action 20 Previous Action: Develop depth analysis grids to reduce flooding impacts for locations within the Great Miami Watershed and Loramie Creek Watershed. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	2
Technically Feasible	4
Environmentally Sound	4
Immediate Need	2
Risk Reduction	2

---

**Q22**

Flooding: Mitigation Action 21 Previous Action: Purchase, retrofit, relocate, or demolish repetitive loss properties in the County. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	1 (lowest possible score)
Technically Feasible	2
Environmentally Sound	2
Immediate Need	1 (lowest possible score)
Risk Reduction	1 (lowest possible score)

---

**Q23**

Flooding: Mitigation Action 22  
 Previous Action: Develop a river and stream maintenance program for removing debris and log jams from drainage ways  
 If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments:

N/A

**Q24**

Flooding: Mitigation Action 23  
 Previous Action: Develop plan to replace, modify, or expand culverts along OH-705 in the Village of Fort Lorami  
 If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments:

N/A

**Q25**

Flooding: Mitigation Action 24  
 Previous Action: Improve storm water drainage in the Village of Fort Lorami  
 If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments:

N/A

**Q26**

Flooding: Mitigation Action 25  
 Previous Action: Elevate or otherwise address flood prone structures within the base elevation of the 100- year floodplain  
 If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>1 (lowest possible score)</b>
Technically Feasible	<b>2</b>
Environmentally Sound	<b>3</b>
Immediate Need	<b>1 (lowest possible score)</b>
Risk Reduction	<b>1 (lowest possible score)</b>

**Q27**

Flooding: Mitigation Action 26 Previous Action: Develop plans to replace, modify, or expand culverts along the Hull Creek railroad in the Village of Botkins If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>2</b>
Technically Feasible	<b>4</b>
Environmentally Sound	<b>4</b>
Immediate Need	<b>3</b>
Risk Reduction	<b>3</b>

**Q28**

Flooding: Mitigation Action 27 Previous Action: Seek sources of funding to minimize storm water drainage problems in the Village of Jackson Center. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: N/A

**Q29**

Flooding: Mitigation Action 28 Previous Action: Seek funding to update Flood Insurance Rate Maps. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Risk Reduction	<b>1 (lowest possible score)</b>

---

**Q32**

Invasive Species: Mitigation Action 31 New Action: Identify trees with symptoms of Emerald Ash Borer infestation. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>2</b>
Technically Feasible	<b>3</b>
Environmentally Sound	<b>4</b>
Immediate Need	<b>1 (lowest possible score)</b>
Risk Reduction	<b>1 (lowest possible score)</b>

---

**Q33**

Invasive Species: Mitigation Action 32 New Action: Treat healthy trees and replace highly damaged trees with a non-Ash species. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>1 (lowest possible score)</b>
Technically Feasible	<b>3</b>
Environmentally Sound	<b>3</b>
Immediate Need	<b>1 (lowest possible score)</b>
Risk Reduction	<b>1 (lowest possible score)</b>

**Q34**

Invasive Species: Mitigation Action 33 New Action: Identify ash trees within 15 miles of a confirmed Emerald Ash Borer infestation. Identify appropriate preventative treatments for ash trees in this zone. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>2</b>
Technically Feasible	<b>3</b>
Environmentally Sound	<b>3</b>
Immediate Need	<b>1 (lowest possible score)</b>
Risk Reduction	<b>1 (lowest possible score)</b>

**Q35**

Invasive Species: Mitigation Action 34 New Action: Identify and log any invasive species event, including plants and animals. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>1 (lowest possible score)</b>
Technically Feasible	<b>2</b>
Environmentally Sound	<b>3</b>

Risk Reduction	<b>1 (lowest possible score)</b>

**Q36**

Landslides: Mitigation Action 35 New Action: Identify and map landslide hazard areas. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: N/A

---

**Q37**

Landslides: Mitigation Action 36 New Action: Encourage the planting of plants with strong root systems on slopes in at risk areas. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: N/A

---

**Q38**

Landslides: Mitigation Action 37 New Action: Define steep slope/high risk areas in land use and comprehensive plans and create guidelines or restrict new development in those areas. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: N/A

---

**Q39**

Landslides: Mitigation Action 38 New Action: Apply soil stabilization measures, such as planting soil-stabilizing vegetation on steep, publically owned slopes. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: N/A

---

## Page 9: Multiple Hazards

**Q40**

Multiple Hazards: Mitigation Action 39 New Action: Adopt the International Building Code (IBC) and International Residential Code (IRC). If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	3
Risk Reduction	3

---

**Q41**

Multiple Hazards: Mitigation Action 40 New Action: Encourage the use of natural plantings. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	5 (highest possible score)
Immediate Need	3
Risk Reduction	3

---

**Q42**

Multiple Hazards: Mitigation Action 41 New Action: Form a citizen plan implementation steering committee to monitor progress on local mitigation actions. Include a mix of representatives from neighborhoods, local businesses, and local government. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	2
Environmentally Sound	2
Immediate Need	2
Risk Reduction	2

---

**Q43**

Multiple Hazards: Mitigation Action 42 New Action: Define and identify populations that may be vulnerable during severe weather events. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	1 (lowest possible score)
Technically Feasible	3
Environmentally Sound	3
Immediate Need	1 (lowest possible score)
Risk Reduction	1 (lowest possible score)

---

**Q44**

Multiple Hazards: Mitigation Action 43 New Action: Develop education programs associated with multiple natural hazards and how to prepare for them prior to their occurrence. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	4
Environmentally Sound	4
Immediate Need	3
Risk Reduction	3

---

**Q45**

Multiple Hazards: Mitigation Action 44 New Action: Develop a public education program for informing residents about the benefits of having NOAA radios and Family Disaster Plans, which will help them better respond to an emergency situation. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	2
Technically Feasible	3
Environmentally Sound	3
Immediate Need	2
Risk Reduction	2

---

**Q46**

Multiple Hazards: Mitigation Action 45 Previous Action: Seek funding for early warning systems, such as sirens and county-wide emergency notification system, to warn residents of approaching severe weather. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	1 (lowest possible score)
Technically Feasible	2
Environmentally Sound	3
Immediate Need	2
Risk Reduction	2

---

**Q47**

Multiple Hazards: Mitigation Action 46 Previous Action: Provide back-up generators and the necessary hook-ups for critical facilities, which need to maintain continuous power to protect human health and life. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	2
Technically Feasible	5 (highest possible score)
Environmentally Sound	3
Immediate Need	4
Risk Reduction	4

**Q48**

Multiple Hazards: Mitigation Action 47 Previous Action: Develop emergency plan for the Sidney Senior Center. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments:	N/A
-----------	-----

**Q49**

Multiple Hazards: Mitigation Action 48 Previous Action: Develop a tree maintenance program for trimming and pruning trees to help prevent damage from falling limbs. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	2
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

**Q50**

Multiple Hazards: Mitigation Action 49 Previous Action: Develop an outreach program for informing citizens of designated shelter locations. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	3
Immediate Need	3
Risk Reduction	3

**Q51**

Multiple Hazards: Mitigation Action 50 Previous Action: Construct community shelter/safe rooms in the Village of Fort Loramie. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: N/A

**Q52**

Multiple Hazards: Mitigation Action 51 Previous Action: Develop educational information for general public concerning alternate methods for keeping basements dry. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	4
Environmentally Sound	3
Immediate Need	3

## Page 12: Wildfire

**Q62**

Wildfire: Mitigation Action 61 New Action: Identify and map wildfire risk areas. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	2
Technically Feasible	5 (highest possible score)
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

**Q63**

Wildfire: Mitigation Action 62 New Action: Identify communities who are potentially vulnerable to wildfires. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	5 (highest possible score)
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

## Page 13: Additional Mitigation Actions (Suggest Your Own)

**Q64**

Rate and describe any additional mitigation actions you would like to see in your community below.

Cost Effective	5 (highest possible score)
Technically Feasible	5 (highest possible score)
Environmentally Sound	5 (highest possible score)
Immediate Need	5 (highest possible score)
Risk Reduction	5 (highest possible score)
Describe your mitigation action.:	Develop shared services for Fire & EMS services to Villages in a two or more sub county districts. Reducing redundant expenditures and reduce response times with full time coverage.

**Q65**

**Respondent skipped this question**

Rate and describe any additional mitigation actions you would like to see in your community below.

## Page 2: Hazard Priorities

**Q2**

## Hazards included in 2017 Plan

Drought & Extreme Heat	<b>Medium Priority</b>
Earthquakes	<b>Medium Priority</b>
Flooding	<b>Highest Priority</b>
Summer Storms	<b>Medium Priority</b>
Winter Storms	<b>Medium-High Priority</b>
Tornadoes	<b>Medium-High Priority</b>

---

**Q3**

## Other Potential Hazards

Dam/Levee Failure	<b>Lowest Priority</b>
Hazardous Materials Incident	<b>Low-Medium Priority</b>
Invasive Species/Infestation	<b>Low-Medium Priority</b>
High Winds	<b>Medium-High Priority</b>

---

**Q4**

Please consider the following and provide any additional comments: Please consider how the hazards are grouped - Should any be made into separate categories or grouped differently? Are there any hazards not listed that you would like to see included in the 2022 Plan? Any additional comments.

Interstate traffic rerouting and traffic routing from other municipalities.

**Q2****Village of Botkins**

For which community are you responding? If your community is not listed in the dropdown menu, please select Miami County to proceed.

---

## Page 2: Previous Mitigation Actions: Shelby County

**Q3****Respondent skipped this question**

Develop a public education program for informing residents about the benefits of having NOAA radios and Family Disaster Plans, which will help them better respond to an emergency situation.

---

**Q4****Respondent skipped this question**

Develop a public education program for residents for restrictions on open burning and water usage during drought conditions.

---

**Q5****Respondent skipped this question**

Develop a river and stream maintenance program for removing debris and log jams from drainage ways.

---

**Q6** Respondent skipped this question

Develop a tree maintenance program for trimming and pruning trees to help prevent damage from falling limbs.

---

**Q7** Respondent skipped this question

Develop an outreach program for informing citizens of designated shelter locations.

---

**Q8** Respondent skipped this question

Develop depth analysis grids to reduce flooding impacts for locations within the Great Miami Watershed and Loramie Creek Watershed.

---

**Q9** Respondent skipped this question

Develop education programs associated with multiple natural hazards and how to prepare for them prior to their occurrence.

---

**Q10** Respondent skipped this question

Develop educational information for general public concerning alternate methods for keeping basements dry.

---

**Q11** Respondent skipped this question

Develop emergency plan for the Sidney Senior Center.

---

**Q12** Respondent skipped this question

Elevate or otherwise address flood prone structures within the base elevation of the 100- year floodplain.

---

**Q13** Respondent skipped this question

Encourage communities to join the National Flood Insurance Program, which would allow residents to purchase flood insurance.

---

**Q14** Respondent skipped this question

Encourage the construction or installation of safe rooms in new and existing construction.

---

**Q15**

Respondent skipped this question

Provide back-up generators and the necessary hook-ups for critical facilities, which need to maintain continuous power to protect human health and life.

---

**Q16**

Respondent skipped this question

Recommend corrective action for repetitive loss structures.

---

**Q17**

Respondent skipped this question

Seek funding for auto sandbag filling equipment.

---

**Q18**

Respondent skipped this question

Seek funding for early warning systems, such as sirens and county-wide emergency notification system, to warn residents of approaching severe weather.

---

**Q19**

Respondent skipped this question

Seek funding to update Flood Insurance Rate Maps.

---

### Page 3: Previous Mitigation Actions: Village of Botkins

**Q20**

Develop plans to replace, modify, or expand culverts along the Hull Creek railroad in the Village of Botkins.

**Unchanged (Indicate why below),**

(Required) Please describe your answer choice. When was the action completed? Why was the action deleted, deferred, or remained unchanged? If the action is ongoing, please list how much progress has been made by either providing a percent or describing the status.:  
Not a location in Botkins

---

### Page 4: Previous Mitigation Actions: Village of Fort Loramie

**Q21**

Respondent skipped this question

Construct community shelter/safe rooms in the Village of Fort Loramie.

---

**Q22**

Respondent skipped this question

Develop plan to replace, modify, or expand culverts along OH-705 in the Village of Fort Loramie.

---

**Q23**

Respondent skipped this question

Improve storm water drainage in the Village of Fort Loramie.

---

Page 5: Previous Mitigation Actions: Village of Jackson Center

**Q24**

Respondent skipped this question

Seek sources of funding to minimize storm water drainage problems in the Village of Jackson Center.

---

Page 6: Previous Mitigation Actions: City of Sidney

**Q25**

Respondent skipped this question

Develop an outreach program for informing citizens of designated shelter locations.

---

**Q26**

Respondent skipped this question

Develop emergency plan for the Sidney Senior Center.

---

**Q27**

Respondent skipped this question

Elevate or otherwise address flood prone structures within the base elevation of the 100- year floodplain.

---

**Q28**

Respondent skipped this question

Provide back-up generators and the necessary hook-ups for critical facilities, which need to maintain continuous power to protect human health and life.

---

Page 7: Previous Mitigation Actions: All Townships

**Q29**

Respondent skipped this question

Develop a tree maintenance program for trimming and pruning trees to help prevent damage from falling limbs.

# Surveys: Village of Fort Loramie

NAME: Mark Shappie

JURISDICTION: Ft. Loramie

#	Mitigation Action	Status	Applicable to jurisdiction? (Y/N)	Cost Effective (1-5)	Technically Feasible (1-5)	Environmentally Sound (1-5)	Immediate Need (1-5)	Risk Reduction (1-5)
<i>Dam Failure</i>								
1	Obtain inundation mapping for at least all high hazard potential dams in the County.	New	Y <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>	2 <input type="checkbox"/>
2	Identify and record any high hazard potential dams in the County in need of rehabilitation.	New	Y <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	3 <input type="checkbox"/>
3	Rehabilitate high hazard potential dams in the County as needed.	New	Y <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>
<i>Drought</i>								
4	Identify local drought indicators, such as precipitation, temperature, surface water levels, soil moisture, etc.	New	Y <input type="checkbox"/>	2 <input type="checkbox"/>	2 <input type="checkbox"/>	2 <input type="checkbox"/>	2 <input type="checkbox"/>	2 <input type="checkbox"/>
5	Regularly monitor and report on local drought indicators.	New	Y <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>
6	Develop a drought communication plan and early warning system.	New	Y <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>
7	Develop a public education program for residents for restrictions on open burning and water usage during drought conditions.	Previous	Y <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>
<i>Flooding</i>								
8	Ensure that all communities eligible for participation in the National Flood Insurance Program (NFIP) continue to participate.	New	Y <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>
9	Develop a floodplain management plan and update it regularly.	New	Y <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	2 <input type="checkbox"/>

#	Mitigation Action	Status	Applicable to jurisdiction? (Y/N)	Cost Effective (1-5)	Technically Feasible (1-5)	Environmentally Sound (1-5)	Immediate Need (1-5)	Risk Reduction (1-5)
10	Establish a green infrastructure program to link, manage, and expand existing parks, preserves, greenways, etc.	New	Y <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>
11	Require that floodplains be kept as open space.	New	Y <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
12	Limit the percentage of impervious surfaces within developed parcels (including parking).	New	Y <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>
13	Complete a stormwater drainage study for known problem areas.	New	Y <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>
14	Prepare and adopt a stormwater drainage study for known problem areas.	New	Y <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>
15	Conduct a verification study of FEMA's repetitive loss inventory and developing an associated tracking database.	New	Y <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>
16	Raise utilities and other mechanical devices above expected flood levels.	New	Y <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>
17	Require that any County designated lifeline or critical facility is located outside of 100 year floodplains.	New	Y <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>
18	Map or otherwise record flood and flash flood events.	New	Y <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>
19	Develop or maintain a floodplain management plan, and update it regularly.	New	Y <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>
20	Develop depth analysis grids to reduce flooding impacts for locations within the Great Miami Watershed and Loramie Creek Watershed.	Previous	Y <input type="checkbox"/>	2 <input type="checkbox"/>	2 <input type="checkbox"/>	2 <input type="checkbox"/>	2 <input type="checkbox"/>	2 <input type="checkbox"/>
21	Purchase, retrofit, relocate, or demolish repetitive loss properties in the County.	Previous	N <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>	1 <input type="checkbox"/>
22	Develop a river and stream maintenance program for removing debris and log jams from drainage ways	Previous	Y <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>

#	Mitigation Action	Status	Applicable to jurisdiction? (Y/N)	Cost Effective (1-5)	Technically Feasible (1-5)	Environmentally Sound (1-5)	Immediate Need (1-5)	Risk Reduction (1-5)
23	Develop plan to replace, modify, or expand culverts along OH-705 in the Village of Fort Loramie.	Previous	Y <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>
24	Improve storm water drainage in the Village of Fort Loramie.	Previous	Y <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>
25	Elevate or otherwise address flood prone structures within the base elevation of the 100- year floodplain.	Previous	Y <input type="checkbox"/>	2 <input type="checkbox"/>	2 <input type="checkbox"/>	2 <input type="checkbox"/>	2 <input type="checkbox"/>	2 <input type="checkbox"/>
26	Develop plans to replace, modify, or expand culverts along the Hull Creek railroad in the Village of Botkins.	Previous	N	1	1	1	1	1
27	Seek sources of funding to minimize storm water drainage problems in the Village of Jackson Center.	Previous	N	1	1	1	1	1
28	Seek funding to update Flood Insurance Rate Maps.	Previous	Y <input type="checkbox"/>	1	1	1	1	1
<i>Hazardous Materials</i>								
29	Complete a commodity flow study.	New	Y <input type="checkbox"/>	1	1	1	1	1
<i>Invasive Species</i>								
30	Identify ash trees at risk to the Emerald Ash Borer.	New	Y <input type="checkbox"/>	1	1	1	1	1
31	Identify trees with symptoms of Emerald Ash Borer infestation.	New	Y <input type="checkbox"/>	1	1	1	1	1
32	Treat healthy trees and replace highly damaged trees with a non-Ash species.	New	Y <input type="checkbox"/>	1	1	1	1	1
33	Identify ash trees within 15 miles of a confirmed Emerald Ash Borer infestation. Identify appropriate preventative treatments for ash trees in this zone.	New	Y <input type="checkbox"/>	1	1	1	1	1
34	Identify and log any invasive species event, including plants and animals.	New	Y <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>
<i>Landslides</i>								
35	Identify and map landslide hazard areas.	New	N	1	1	1	1	1

#	Mitigation Action	Status	Applicable to jurisdiction? (Y/N)	Cost Effective (1-5)	Technically Feasible (1-5)	Environmentally Sound(1-5)	Immediate Need (1-5)	Risk Reduction (1-5)
36	Encourage the planting of plants with strong root systems on slopes in at risk areas.	New	Y <input type="checkbox"/>	1	1	1	1	1
37	Define steep slope/high risk areas in land use and comprehensive plans and create guidelines or restrict new development in those areas.	New	N	1	1	1	1	1
38	Apply soil stabilization measures, such as planting soil-stabilizing vegetation on steep, publically owned slopes.	New	N	1	1	1	1	1
<i>Multiple Hazards</i>								
39	Adopt the International Building Code (IBC) and International Residential Code (IRC).	New	Y <input type="checkbox"/>	1	1	1	1	1
40	Encourage the use of natural plantings.	New	Y <input type="checkbox"/>	1	1	1	1	1
41	Form a citizen plan implementation steering committee to monitor progress on local mitigation actions. Include a mix of representatives from neighborhoods, local businesses, and local government.	New	Y <input type="checkbox"/>	1	1	1	1	1
42	Define and identify populations that may be vulnerable during severe weather events.	New	Y <input type="checkbox"/>	4 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
43	Develop education programs associated with multiple natural hazards and how to prepare for them prior to their occurrence.	New	Y <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>
44	Develop a public education program for informing residents about the benefits of having NOAA radios and Family Disaster Plans, which will help them better respond to an emergency situation.	New	Y <input type="checkbox"/>	1	1	1	1	1
45	Seek funding for early warning systems, such as sirens and county-wide emergency notification system, to warn residents of approaching severe weather.	Previous	Y <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>

#	Mitigation Action	Status	Applicable to jurisdiction? (Y/N)	Cost Effective (1-5)	Technically Feasible (1-5)	Environmentally Sound(1-5)	Immediate Need (1-5)	Risk Reduction (1-5)
46	Provide back-up generators and the necessary hook-ups for critical facilities, which need to maintain continuous power to protect human health and life.	Previous	Y <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>
47	Develop emergency plan for the Sidney Senior Center.	Previous	N	1	1	1	1	1
48	Develop a tree maintenance program for trimming and pruning trees to help prevent damage from falling limbs.	Previous	Y <input type="checkbox"/>	1	1	1	1	1
49	Develop an outreach program for informing citizens of designated shelter locations.	Previous	Y <input type="checkbox"/>	1	1	1	1	1
50	Construct community shelter/safe rooms in the Village of Fort Loramie.	Previous	Y <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	3 <input type="checkbox"/>	3 <input type="checkbox"/>
51	Develop educational information for general public concerning alternate methods for keeping basements dry.	Previous	Y <input type="checkbox"/>	4 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>	3 <input type="checkbox"/>
52	Seek funding for auto sandbag filling equipment.	Previous	Y <input type="checkbox"/>	4 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
<i>Severe Summer Storms</i>								
53	Install and maintain surge protection on critical electronic equipment.	New	Y <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	4 <input type="checkbox"/>
54	Post warning signs about hail, wind, and lightning at local parks, county fairs, and other outdoor venues.	New	Y <input type="checkbox"/>	1	1	1	1	1

## Page 2: Hazard Priorities

**Q2**

## Hazards included in 2017 Plan

Drought & Extreme Heat	Low-Medium Priority
Earthquakes	Low-Medium Priority
Flooding	Medium Priority
Summer Storms	Low-Medium Priority
Winter Storms	Low-Medium Priority
Tornadoes	Low-Medium Priority

---

**Q3**

## Other Potential Hazards

Dam/Levee Failure	Medium Priority
Hazardous Materials Incident	Medium Priority
Invasive Species/Infestation	Low-Medium Priority
High Winds	Low-Medium Priority

---

Q4

Please consider the following and provide any additional comments: Please consider how the hazards are grouped - Should any be made into separate categories or grouped differently? Are there any hazards not listed that you would like to see included in the 2022 Plan? Any additional comments.

Country Concert / Hickory Hill Lakes. A large concert/camping venue that is primitive camping. A significant storm for most weekends becomes a serious storm for that location. Roads/Access is becoming a challenge due to large crowds

## Q2

Village of Fort Loramie

For which community are you responding? If your community is not listed in the dropdown menu, please select Miami County to proceed.

---

## Page 2: Previous Mitigation Actions: Shelby County

## Q3

Respondent skipped this question

Develop a public education program for informing residents about the benefits of having NOAA radios and Family Disaster Plans, which will help them better respond to an emergency situation.

---

## Q4

Respondent skipped this question

Develop a public education program for residents for restrictions on open burning and water usage during drought conditions.

---

## Q5

Respondent skipped this question

Develop a river and stream maintenance program for removing debris and log jams from drainage ways.

---

**Q6** Respondent skipped this question

Develop a tree maintenance program for trimming and pruning trees to help prevent damage from falling limbs.

---

**Q7** Respondent skipped this question

Develop an outreach program for informing citizens of designated shelter locations.

---

**Q8** Respondent skipped this question

Develop depth analysis grids to reduce flooding impacts for locations within the Great Miami Watershed and Loramie Creek Watershed.

---

**Q9** Respondent skipped this question

Develop education programs associated with multiple natural hazards and how to prepare for them prior to their occurrence.

---

**Q10** Respondent skipped this question

Develop educational information for general public concerning alternate methods for keeping basements dry.

---

**Q11** Respondent skipped this question

Develop emergency plan for the Sidney Senior Center.

---

**Q12** Respondent skipped this question

Elevate or otherwise address flood prone structures within the base elevation of the 100- year floodplain.

---

**Q13** Respondent skipped this question

Encourage communities to join the National Flood Insurance Program, which would allow residents to purchase flood insurance.

---

**Q14** Respondent skipped this question

Encourage the construction or installation of safe rooms in new and existing construction.

---

**Q15**

**Respondent skipped this question**

Provide back-up generators and the necessary hook-ups for critical facilities, which need to maintain continuous power to protect human health and life.

---

**Q16**

**Respondent skipped this question**

Recommend corrective action for repetitive loss structures.

---

**Q17**

**Respondent skipped this question**

Seek funding for auto sandbag filling equipment.

---

**Q18**

**Respondent skipped this question**

Seek funding for early warning systems, such as sirens and county-wide emergency notification system, to warn residents of approaching severe weather.

---

**Q19**

**Respondent skipped this question**

Seek funding to update Flood Insurance Rate Maps.

---

---

### Page 3: Previous Mitigation Actions: Village of Botkins

**Q20**

**Respondent skipped this question**

Develop plans to replace, modify, or expand culverts along the Hull Creek railroad in the Village of Botkins.

---

---

### Page 4: Previous Mitigation Actions: Village of Fort Loramie

**Q21**

Construct community shelter/safe rooms in the Village of Fort Loramie.

**Unchanged (Indicate why below),**

(Required) Please describe your answer choice. When was the action completed? Why was the action deleted, deferred, or remained unchanged? If the action is ongoing, please list how much progress has been made by either providing a percent or describing the status.:  
My memory this was primary related to Lake Loramie campground which is a combination of full hookups for campers and primitive camping. Provide a shelter when weather is approaching. To my knowledge nothing has been completed.

---

**Q22**

Develop plan to replace, modify, or expand culverts along OH-705 in the Village of Fort Loramie.

**Unchanged (Indicate why below),**

(Required) Please describe your answer choice. When was the action completed? Why was the action deleted, deferred, or remained unchanged? If the action is ongoing, please list how much progress has been made by either providing a percent or describing the status.:

I am un-aware as FD Chief. Follow up with admin

---

**Q23**

Improve storm water drainage in the Village of Fort Loramie.

**Unchanged (Indicate why below),**

(Required) Please describe your answer choice. When was the action completed? Why was the action deleted, deferred, or remained unchanged? If the action is ongoing, please list how much progress has been made by either providing a percent or describing the status.:

I am un-aware as FD Chief. Follow up with admin

**Q34**

Invasive Species: Mitigation Action 33 New Action: Identify ash trees within 15 miles of a confirmed Emerald Ash Borer infestation. Identify appropriate preventative treatments for ash trees in this zone. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	2
Technically Feasible	2
Environmentally Sound	2
Immediate Need	2
Risk Reduction	2

---

**Q35**

Invasive Species: Mitigation Action 34 New Action: Identify and log any invasive species event, including plants and animals. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	2
Technically Feasible	2
Environmentally Sound	2
Immediate Need	2
Risk Reduction	2

---

**Q36**

Landslides: Mitigation Action 35 New Action: Identify and map landslide hazard areas. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: no

---

**Q37**

Landslides: Mitigation Action 36 New Action: Encourage the planting of plants with strong root systems on slopes in at risk areas. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: no

---

**Q38**

Landslides: Mitigation Action 37 New Action: Define steep slope/high risk areas in land use and comprehensive plans and create guidelines or restrict new development in those areas. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: no

---

**Q39**

Landslides: Mitigation Action 38 New Action: Apply soil stabilization measures, such as planting soil-stabilizing vegetation on steep, publically owned slopes. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: no

---

## Page 9: Multiple Hazards

**Q40**

Multiple Hazards: Mitigation Action 39 New Action: Adopt the International Building Code (IBC) and International Residential Code (IRC). If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

---

**Q41**

Multiple Hazards: Mitigation Action 40 New Action: Encourage the use of natural plantings. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	5 (highest possible score)
Technically Feasible	5 (highest possible score)
Environmentally Sound	5 (highest possible score)
Immediate Need	5 (highest possible score)
Risk Reduction	5 (highest possible score)

---

**Q42**

Multiple Hazards: Mitigation Action 41 New Action: Form a citizen plan implementation steering committee to monitor progress on local mitigation actions. Include a mix of representatives from neighborhoods, local businesses, and local government. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	5 (highest possible score)
Technically Feasible	5 (highest possible score)
Environmentally Sound	5 (highest possible score)
Immediate Need	5 (highest possible score)
Risk Reduction	5 (highest possible score)

---

**Q43**

Multiple Hazards: Mitigation Action 42 New Action: Define and identify populations that may be vulnerable during severe weather events. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	5 (highest possible score)
Technically Feasible	5 (highest possible score)
Environmentally Sound	5 (highest possible score)
Immediate Need	5 (highest possible score)
Risk Reduction	5 (highest possible score)

---

**Q44**

Multiple Hazards: Mitigation Action 43 New Action: Develop education programs associated with multiple natural hazards and how to prepare for them prior to their occurrence. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	5 (highest possible score)
Technically Feasible	5 (highest possible score)
Environmentally Sound	5 (highest possible score)
Immediate Need	5 (highest possible score)
Risk Reduction	5 (highest possible score)

---

**Q45**

Multiple Hazards: Mitigation Action 44 New Action: Develop a public education program for informing residents about the benefits of having NOAA radios and Family Disaster Plans, which will help them better respond to an emergency situation. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	5 (highest possible score)
Technically Feasible	5 (highest possible score)
Environmentally Sound	5 (highest possible score)
Immediate Need	5 (highest possible score)
Risk Reduction	5 (highest possible score)

---

**Q46**

Multiple Hazards: Mitigation Action 45 Previous Action: Seek funding for early warning systems, such as sirens and county-wide emergency notification system, to warn residents of approaching severe weather. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	3
Immediate Need	3
Risk Reduction	3

---

**Q47**

Multiple Hazards: Mitigation Action 46 Previous Action: Provide back-up generators and the necessary hook-ups for critical facilities, which need to maintain continuous power to protect human health and life. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	2
Technically Feasible	2
Environmentally Sound	2
Immediate Need	2
Risk Reduction	2
Comments:	We have most of our critical facilities already backed up. With the remaining few on schedule to back up.

**Q48**

Multiple Hazards: Mitigation Action 47 Previous Action: Develop emergency plan for the Sidney Senior Center. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	5 (highest possible score)
Technically Feasible	5 (highest possible score)
Environmentally Sound	5 (highest possible score)
Immediate Need	5 (highest possible score)
Risk Reduction	5 (highest possible score)

**Q49**

Multiple Hazards: Mitigation Action 48 Previous Action: Develop a tree maintenance program for trimming and pruning trees to help prevent damage from falling limbs. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	3
Immediate Need	3
Risk Reduction	3

**Q50**

Multiple Hazards: Mitigation Action 49 Previous Action: Develop an outreach program for informing citizens of designated shelter locations. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	5 (highest possible score)
Technically Feasible	5 (highest possible score)
Environmentally Sound	5 (highest possible score)
Immediate Need	5 (highest possible score)
Risk Reduction	5 (highest possible score)

**Q51**

Multiple Hazards: Mitigation Action 50 Previous Action: Construct community shelter/safe rooms in the Village of Fort Loramie. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: no

**Q52**

Multiple Hazards: Mitigation Action 51 Previous Action: Develop educational information for general public concerning alternate methods for keeping basements dry. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

**Q53**

Multiple Hazards: Mitigation Action 52 Previous Action: Seek funding for auto sandbag filling equipment. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

---

## Page 10: Severe Summer Storms

**Q54**

Severe Summer Weather: Mitigation Action 53 New Action: Install and maintain surge protection on critical electronic equipment. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	5 (highest possible score)
Technically Feasible	5 (highest possible score)
Environmentally Sound	5 (highest possible score)
Immediate Need	5 (highest possible score)
Risk Reduction	5 (highest possible score)

---

**Q55**

Severe Summer Weather: Mitigation Action 54 New Action: Post warning signs about hail, wind, and lightning at local parks, county fairs, and other outdoor venues. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	5 (highest possible score)
Technically Feasible	5 (highest possible score)
Environmentally Sound	5 (highest possible score)
Immediate Need	5 (highest possible score)
Risk Reduction	5 (highest possible score)

---

**Q56**

Severe Summer Weather: Mitigation Action 55 New Action: Coordinate with utility companies to perform regular tree trimming near utility lines. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

---

**Q57**

Severe Summer Weather: Mitigation Action 56 New Action: Encourage the construction of safe rooms in schools, daycares, nursing homes, and other buildings with vulnerable populations. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

---

**Q58**

Severe Summer Weather: Mitigation Action 57 New Action: Encourage the construction of safe rooms in mobile home communities. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	5 (highest possible score)
Technically Feasible	5 (highest possible score)
Environmentally Sound	5 (highest possible score)
Immediate Need	5 (highest possible score)
Risk Reduction	5 (highest possible score)

---

**Q59**

Severe Summer Weather: Mitigation Action 58 New Action: Distribute the location of public safe rooms to the general public. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	5 (highest possible score)
Technically Feasible	5 (highest possible score)
Environmentally Sound	5 (highest possible score)
Immediate Need	5 (highest possible score)
Risk Reduction	5 (highest possible score)

---

## Page 11: Severe Winter Weather

**Q60**

Severe Winter Weather: Mitigation Action 59 New Action: Install heating systems in public shelters and lifelines/critical facilities that could be used as public shelters. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

---

**Q61**

Severe Winter Weather: Mitigation Action 60 New Action: Use snow fences or living snow fences to limit blowing and drifting of snow over critical roadway segments. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	3
Immediate Need	3
Risk Reduction	3

---

## Page 12: Wildfire

**Q62**

Wildfire: Mitigation Action 61New Action: Identify and map wildfire risk areas.If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: no

**Q63**

Wildfire: Mitigation Action 62New Action: Identify communities who are potentially vulnerable to wildfires.If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: no, we are not in a wild fire area, we have field fires

Organization/Agency	<b>Village of Kettlersville</b>
Title/Position	<b>Mayor</b>
Email Address	<b>fiscalofficervk@yahoo.com</b>

---

## Page 2: Hazard Priorities

**Q2**

## Hazards included in 2017 Plan

Drought & Extreme Heat	<b>Lowest Priority</b>
Earthquakes	<b>Do not include</b>
Flooding	<b>Medium Priority</b>
Summer Storms	<b>Medium Priority</b>
Winter Storms	<b>Medium Priority</b>
Tornadoes	<b>Medium Priority</b>

---

**Q3**

## Other Potential Hazards

Dam/Levee Failure	<b>Do not include</b>
Hazardous Materials Incident	<b>Lowest Priority</b>
Invasive Species/Infestation	<b>Lowest Priority</b>
High Winds	<b>Medium Priority</b>

---

**Q4**

Respondent skipped this question

Please consider the following and provide any additional comments: Please consider how the hazards are grouped - Should any be made into separate categories or grouped differently? Are there any hazards not listed that you would like to see included in the 2022 Plan? Any additional comments.

Page 3: Dam Failure

Q2

Dam Failure: Mitigation Action 1  
 New Action: Obtain inundation mapping for at least all high hazard potential dams in the County. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: No

---

Q3

Dam Failure: Mitigation Action 2  
 New Action: Identify and record any high hazard potential dams in the County in need of rehabilitation. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: No

---

Q4

Dam Failure: Mitigation Action 3  
 New Action: Rehabilitate high hazard potential dams in the County as needed. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: No

---

## Page 4: Drought

## Q5

Drought: Mitigation Action 4 New Action: Identify local drought indicators, such as precipitation, temperature, surface water levels, soil moisture, etc. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	1 (lowest possible score)
Environmentally Sound	2
Immediate Need	1 (lowest possible score)
Risk Reduction	2

## Q6

Drought: Mitigation Action 5 New Action: Regularly monitor and report on local drought indicators. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: No

## Q7

Drought: Mitigation Action 6 New Action: Develop a drought communication plan and early warning system. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: No

## Q8

Drought: Mitigation Action 7 New Action: Develop a public education program for residents for restrictions on open burning and water usage during drought conditions. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: No

## Page 5: Flooding

**Q9**

Flooding: Mitigation Action 8 New Action: Ensure that all communities eligible for participation in the National Flood Insurance Program (NFIP) continue to participate. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	3
Immediate Need	1 (lowest possible score)
Risk Reduction	2

---

**Q10**

Flooding: Mitigation Action 9 New Action: Develop a floodplain management plan and update it regularly. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	2
Technically Feasible	2
Environmentally Sound	2
Immediate Need	1 (lowest possible score)
Risk Reduction	2

---

**Q11**

Flooding: Mitigation Action 10 New Action: Establish a green infrastructure program to link, manage, and expand existing parks, preserves, greenways, etc. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments:	No
-----------	----

---

**Q12**

Flooding: Mitigation Action 11 New Action: Require that floodplains be kept as open space. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	2
Technically Feasible	2
Environmentally Sound	2
Immediate Need	1 (lowest possible score)
Risk Reduction	2

---

**Q13**

Flooding: Mitigation Action 12 New Action: Limit the percentage of impervious surfaces within developed parcels (including parking). If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	1 (lowest possible score)
Technically Feasible	1 (lowest possible score)
Environmentally Sound	1 (lowest possible score)
Immediate Need	1 (lowest possible score)
Risk Reduction	1 (lowest possible score)

---

**Q14**

Flooding: Mitigation Action 13 New Action: Complete a stormwater drainage study for known problem areas. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	2
Technically Feasible	2
Environmentally Sound	2
Immediate Need	1 (lowest possible score)
Risk Reduction	1 (lowest possible score)

---

**Q15**

Flooding: Mitigation Action 14 New Action: Prepare and adopt a stormwater drainage study for known problem areas. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>1 (lowest possible score)</b>
Technically Feasible	<b>2</b>
Environmentally Sound	<b>2</b>
Immediate Need	<b>2</b>
Risk Reduction	<b>2</b>

---

**Q16**

Flooding: Mitigation Action 15 New Action: Conduct a verification study of FEMA's repetitive loss inventory and developing an associated tracking database. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>2</b>
Technically Feasible	<b>2</b>
Environmentally Sound	<b>2</b>
Immediate Need	<b>2</b>
Risk Reduction	<b>2</b>

---

**Q17**

Flooding: Mitigation Action 16 New Action: Raise utilities and other mechanical devices above expected flood levels. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>2</b>
Technically Feasible	<b>2</b>
Environmentally Sound	<b>2</b>
Immediate Need	<b>2</b>
Risk Reduction	<b>2</b>

---

**Q18**

Flooding: Mitigation Action 17 New Action: Require that any County designated lifeline or critical facility is located outside of 100 year floodplains. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	2
Technically Feasible	2
Environmentally Sound	2
Immediate Need	1 (lowest possible score)
Risk Reduction	2

---

**Q19**

Flooding: Mitigation Action 18 New Action: Map or otherwise record flood and flash flood events. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	2
Technically Feasible	2
Environmentally Sound	2
Immediate Need	3
Risk Reduction	2

---

**Q20**

Flooding: Mitigation Action 19 New Action: Develop or maintain a floodplain management plan, and update it regularly. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	1 (lowest possible score)
Technically Feasible	1 (lowest possible score)
Environmentally Sound	2
Immediate Need	2
Risk Reduction	2

---

**Q21**

Flooding: Mitigation Action 20 Previous Action: Develop depth analysis grids to reduce flooding impacts for locations within the Great Miami Watershed and Loramie Creek Watershed If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: No

---

**Q22**

Flooding: Mitigation Action 21 Previous Action: Purchase, retrofit, relocate, or demolish repetitive loss properties in the County. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: No

---

**Q23**

Flooding: Mitigation Action 22 Previous Action: Develop a river and stream maintenance program for removing debris and log jams from drainage ways If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	2
Technically Feasible	2
Environmentally Sound	2
Immediate Need	2
Risk Reduction	3

---

**Q24**

Flooding: Mitigation Action 23 Previous Action: Develop plan to replace, modify, or expand culverts along OH-705 in the Village of Fort Lorami If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: No

---

**Q25**

Flooding: Mitigation Action 24 Previous Action: Improve storm water drainage in the Village of Fort Lorami If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: No

---

**Q26**

Flooding: Mitigation Action 25 Previous Action: Elevate or otherwise address flood prone structures within the base elevation of the 100- year floodplain If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: No

---

**Q27**

Flooding: Mitigation Action 26 Previous Action: Develop plans to replace, modify, or expand culverts along the Hull Creek railroad in the Village of Botkins If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: No

---

**Q28**

Flooding: Mitigation Action 27 Previous Action: Seek sources of funding to minimize storm water drainage problems in the Village of Jackson Center. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: No

---

**Q29**

Flooding: Mitigation Action 28 Previous Action: Seek funding to update Flood Insurance Rate Maps. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	2
Technically Feasible	2
Environmentally Sound	2
Immediate Need	2
Risk Reduction	2

## Page 6: Hazardous Materials

**Q30**

Hazardous Materials: Mitigation Action 29 New Action: Complete a commodity flow study. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: No

---

## Page 7: Invasive Species

**Q31**

Invasive Species: Mitigation Action 30New Action: Identify ash trees at risk to the Emerald Ash Borer.If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: No

---

**Q32**

Invasive Species: Mitigation Action 31New Action: Identify trees with symptoms of Emerald Ash Borer infestation.If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: No

---

**Q33**

Respondent skipped this question

Invasive Species: Mitigation Action 32New Action: Treat healthy trees and replace highly damaged trees with a non-Ash species.If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

---

**Q34**

Invasive Species: Mitigation Action 33New Action: Identify ash trees within 15 miles of a confirmed Emerald AshBorer infestation. Identify appropriate preventative treatmentsfor ash trees in this zone.If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: No

---

**Q35**

Invasive Species: Mitigation Action 34  
 New Action: Identify and log any invasive species event, including plants and animals. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	2
Technically Feasible	2
Environmentally Sound	2
Immediate Need	2
Risk Reduction	2

# Surveys: Village of Lockington

NAME: Tracy Johnson

JURISDICTION: Lockington

#	Mitigation Action	Status	Applicable to jurisdiction? (Y/N)	Cost Effective (1-5)	Technically Feasible (1-5)	Environmentally Sound(1-5)	Immediate Need (1-5)	Risk Reduction (1-5)
<i>Dam Failure</i>								
1	Obtain inundation mapping for at least all high hazard potential dams in the County.	New	N	4	1	1	1	1
2	Identify and record any high hazard potential dams in the County in need of rehabilitation.	New	N	1	1	1	1	1
3	Rehabilitate high hazard potential dams in the County as needed.	New	N	1	1	1	1	1
<i>Drought</i>								
4	Identify local drought indicators, such as precipitation, temperature, surface water levels, soil moisture, etc.	New	Y	3	3	5	5	5
5	Regularly monitor and report on local drought indicators.	New	Y	3	3	5	5	5
6	Develop a drought communication plan and early warning system.	New	Y	5	5	5	5	5
7	Develop a public education program for residents for restrictions on open burning and water usage during drought conditions.	Previous	Y	5	3	5	5	5
<i>Flooding</i>								
8	Ensure that all communities eligible for participation in the National Flood Insurance Program (NFIP) continue to participate.	New	Y	5	3	5	5	5
9	Develop a floodplain management plan and update it regularly.	New	Y	3	3	5	5	5

#	Mitigation Action	Status	Applicable to jurisdiction? (Y/N)	Cost Effective (1-5)	Technically Feasible (1-5)	Environmentally Sound(1-5)	Immediate Need (1-5)	Risk Reduction (1-5)
10	Establish a green infrastructure program to link, manage, and expand existing parks, preserves, greenways, etc.	New	Y	5	3	4	5	5
11	Require that floodplains be kept as open space.	New	Y	2	3	5	3	3
12	Limit the percentage of impervious surfaces within developed parcels (including parking).	New	Y	3	3	4	3	3
13	Complete a stormwater drainage study for known problem areas.	New	Y	3	3	5	5	5
14	Prepare and adopt a stormwater drainage study for known problem areas.	New	Y	3	3	5	5	5
15	Conduct a verification study of FEMA's repetitive loss inventory and developing an associated tracking database.	New	N	1	1	1	1	1
16	Raise utilities and other mechanical devices above expected flood levels.	New	N	1	1	1	1	1
17	Require that any County designated lifeline or critical facility is located outside of 100 year floodplains.	New	N	1	1	1	1	1
18	Map or otherwise record flood and flash flood events.	New	Y	5	5	5	3	3
19	Develop or maintain a floodplain management plan, and update it regularly.	New	Y	3	3	5	5	5
20	Develop depth analysis grids to reduce flooding impacts for locations within the Great Miami Watershed and Loramie Creek Watershed.	Previous	N	1	1	1	1	1
21	Purchase, retrofit, relocate, or demolish repetitive loss properties in the County.	Previous	N	1	1	1	1	1
22	Develop a river and stream maintenance program for removing debris and log jams from drainage ways	Previous	Y	3	3	5	5	5

#	Mitigation Action	Status	Applicable to jurisdiction? (Y/N)	Cost Effective (1-5)	Technically Feasible (1-5)	Environmentally Sound(1-5)	Immediate Need (1-5)	Risk Reduction (1-5)
23	Develop plan to replace, modify, or expand culverts along OH-705 in the Village of Fort Loramie.	Previous	N	1	1	1	1	1
24	Improve storm water drainage in the Village of Fort Loramie.	Previous	N	1	1	1	1	1
25	Elevate or otherwise address flood prone structures within the base elevation of the 100- year floodplain.	Previous	N	1	1	1	1	1
26	Develop plans to replace, modify, or expand culverts along the Hull Creek railroad in the Village of Botkins.	Previous	N	1	1	1	1	1
27	Seek sources of funding to minimize storm water drainage problems in the Village of Jackson Center.	Previous	N	1	1	1	1	1
28	Seek funding to update Flood Insurance Rate Maps.	Previous	N	1	1	1	1	1
<i>Hazardous Materials</i>								
29	Complete a commodity flow study.	New	N	1	1	1	1	1
<i>Invasive Species</i>								
30	Identify ash trees at risk to the Emerald Ash Borer.	New	N	1	1	1	1	1
31	Identify trees with symptoms of Emerald Ash Borer infestation.	New	N	1	1	1	1	1
32	Treat healthy trees and replace highly damaged trees with a non-Ash species.	New	N	1	1	1	1	1
33	Identify ash trees within 15 miles of a confirmed Emerald Ash Borer infestation. Identify appropriate preventative treatments for ash trees in this zone.	New	N	1	1	1	1	1
34	Identify and log any invasive species event, including plants and animals.	New	N	1	1	1	1	1
<i>Landslides</i>								
35	Identify and map landslide hazard areas.	New	N	1	1	1	1	1

#	Mitigation Action	Status	Applicable to jurisdiction? (Y/N)	Cost Effective (1-5)	Technically Feasible (1-5)	Environmentally Sound(1-5)	Immediate Need (1-5)	Risk Reduction (1-5)
36	Encourage the planting of plants with strong root systems on slopes in at risk areas.	New	N	1	1	1	1	1

## SHELBY COUNTY HAZARD MITIGATION PLAN

Name & Organization: Tracy Johnson - Lockington

### HAZARD PRIORITIES

#### Instructions:

1. Consider each hazard below.
2. Rate each hazard on a scale of 0 to 5 based on how important each hazard is to your community.
3. If a hazard should not be studied, give it a zero (0).
4. Provide any comments you would like to share regarding your selected ratings.

2017 Plan Hazards	Priority Ratings (Circle One Score)					
	Do not Include	Lowest Priority	Low-Medium Priority	Medium Priority	Medium-High Priority	Highest Priority
1. Flooding	0 <input type="radio"/>	1 <input type="radio"/>	2 <input type="radio"/>	3 <input type="radio"/>	4 <input type="radio"/>	5 <input checked="" type="radio"/>
2. Summer Storms	0 <input type="radio"/>	1 <input type="radio"/>	2 <input checked="" type="radio"/>	3 <input type="radio"/>	4 <input type="radio"/>	5 <input type="radio"/>
3. Winter Storms	0 <input type="radio"/>	1 <input type="radio"/>	2 <input checked="" type="radio"/>	3 <input type="radio"/>	4 <input type="radio"/>	5 <input type="radio"/>
4. Tornadoes	0 <input type="radio"/>	1 <input type="radio"/>	2 <input type="radio"/>	3 <input type="radio"/>	4 <input type="radio"/>	5 <input checked="" type="radio"/>
5. Drought and Extreme Heat	0 <input type="radio"/>	1 <input type="radio"/>	2 <input type="radio"/>	3 <input type="radio"/>	4 <input type="radio"/>	5 <input checked="" type="radio"/>
6. Earthquakes	0 <input type="radio"/>	1 <input type="radio"/>	2 <input type="radio"/>	3 <input checked="" type="radio"/>	4 <input type="radio"/>	5 <input type="radio"/>
Other Potential Hazards						
7. Dam and Levee Failure	0 <input type="radio"/>	1 <input type="radio"/>	2 <input type="radio"/>	3 <input type="radio"/>	4 <input type="radio"/>	5 <input checked="" type="radio"/>
8. Hazardous Materials	0 <input type="radio"/>	1 <input type="radio"/>	2 <input checked="" type="radio"/>	3 <input type="radio"/>	4 <input type="radio"/>	5 <input type="radio"/>
9. Invasive Species	0 <input type="radio"/>	1 <input checked="" type="radio"/>	2 <input type="radio"/>	3 <input type="radio"/>	4 <input type="radio"/>	5 <input type="radio"/>
10. High Winds	0 <input type="radio"/>	1 <input type="radio"/>	2 <input type="radio"/>	3 <input type="radio"/>	4 <input checked="" type="radio"/>	5 <input type="radio"/>

Additional Comments

- *Please consider how the hazards are grouped – should any be grouped together? Should any be made into its own category?*
- *Are there any hazards not listed that you would like to see included in the 2022 plan?*
- *Any other additional comments.*

## Q2

Dam Failure: Mitigation Action 1New Action: Obtain inundation mapping for at least all high hazard potential dams in the County.If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

---

**Q3**

Dam Failure: Mitigation Action 2  
 New Action: Identify and record any high hazard potential dams in the County in need of rehabilitation. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

**Q4**

Dam Failure: Mitigation Action 3  
 New Action: Rehabilitate high hazard potential dams in the County as needed. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

Page 4: Drought

**Q5**

Drought: Mitigation Action 4  
 New Action: Identify local drought indicators, such as precipitation, temperature, surface water levels, soil moisture, etc. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	4
Environmentally Sound	4
Immediate Need	3
Risk Reduction	4

**Q6**

Drought: Mitigation Action 5 New Action: Regularly monitor and report on local drought indicators. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>3</b>
Technically Feasible	<b>4</b>
Environmentally Sound	<b>4</b>
Immediate Need	<b>3</b>
Risk Reduction	<b>4</b>

---

**Q7**

Drought: Mitigation Action 6 New Action: Develop a drought communication plan and early warning system. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>3</b>
Technically Feasible	<b>4</b>
Environmentally Sound	<b>4</b>
Immediate Need	<b>3</b>
Risk Reduction	<b>4</b>

---

**Q8**

Drought: Mitigation Action 7 New Action: Develop a public education program for residents for restrictions on open burning and water usage during drought conditions. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>3</b>
Technically Feasible	<b>5 (highest possible score)</b>
Environmentally Sound	<b>5 (highest possible score)</b>
Immediate Need	<b>4</b>
Risk Reduction	<b>5 (highest possible score)</b>

---

**Q9**

Flooding: Mitigation Action 8 New Action: Ensure that all communities eligible for participation in the National Flood Insurance Program (NFIP) continue to participate. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	5 (highest possible score)
Technically Feasible	5 (highest possible score)
Environmentally Sound	5 (highest possible score)
Immediate Need	5 (highest possible score)
Risk Reduction	5 (highest possible score)

---

**Q10**

Flooding: Mitigation Action 9 New Action: Develop a floodplain management plan and update it regularly. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	5 (highest possible score)
Environmentally Sound	5 (highest possible score)
Immediate Need	5 (highest possible score)
Risk Reduction	5 (highest possible score)

**Q60**

Severe Winter Weather: Mitigation Action 59 New Action: Install heating systems in public shelters and lifelines/critical facilities that could be used as public shelters. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	5 (highest possible score)
Technically Feasible	5 (highest possible score)
Environmentally Sound	5 (highest possible score)
Immediate Need	5 (highest possible score)
Risk Reduction	5 (highest possible score)

**Q61**

Severe Winter Weather: Mitigation Action 60 New Action: Use snow fences or living snow fences to limit blowing and drifting of snow over critical roadway segments. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

Page 12: Wildfire

**Q62**

Wildfire: Mitigation Action 61 New Action: Identify and map wildfire risk areas. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	3
Immediate Need	3
Risk Reduction	3

**Q63**

Wildfire: Mitigation Action 62 New Action: Identify communities who are potentially vulnerable to wildfires. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>3</b>
Technically Feasible	<b>3</b>
Environmentally Sound	<b>3</b>
Immediate Need	<b>3</b>
Risk Reduction	<b>3</b>

Page 3: Dam Failure

**Q2**

Dam Failure: Mitigation Action 1New Action: Obtain inundation mapping for at least all high hazard potential dams in the County.If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	2
Technically Feasible	3
Environmentally Sound	3
Immediate Need	1 (lowest possible score)
Risk Reduction	1 (lowest possible score)

---

**Q3**

**Dam Failure: Mitigation Action 2** New Action: Identify and record any high hazard potential dams in the County in need of rehabilitation. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>1 (lowest possible score)</b>
Technically Feasible	<b>1 (lowest possible score)</b>
Environmentally Sound	<b>1 (lowest possible score)</b>
Immediate Need	<b>1 (lowest possible score)</b>
Risk Reduction	<b>1 (lowest possible score)</b>

---

**Q4**

**Dam Failure: Mitigation Action 3** New Action: Rehabilitate high hazard potential dams in the County as needed. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>3</b>
Technically Feasible	<b>3</b>
Environmentally Sound	<b>3</b>
Immediate Need	<b>3</b>
Risk Reduction	<b>3</b>

---

Page 4: Drought

**Q5**

**Drought: Mitigation Action 4** New Action: Identify local drought indicators, such as precipitation, temperature, surface water levels, soil moisture, etc. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>3</b>
Technically Feasible	<b>3</b>
Environmentally Sound	<b>3</b>
Immediate Need	<b>3</b>
Risk Reduction	<b>3</b>

---

**Q6**

Drought: Mitigation Action 5 New Action: Regularly monitor and report on local drought indicators. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>1 (lowest possible score)</b>
Technically Feasible	<b>1 (lowest possible score)</b>
Environmentally Sound	<b>1 (lowest possible score)</b>
Immediate Need	<b>1 (lowest possible score)</b>
Risk Reduction	<b>1 (lowest possible score)</b>

---

**Q7**

Drought: Mitigation Action 6 New Action: Develop a drought communication plan and early warning system. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>2</b>
Technically Feasible	<b>2</b>
Environmentally Sound	<b>2</b>
Immediate Need	<b>2</b>
Risk Reduction	<b>2</b>

---

**Q8**

Drought: Mitigation Action 7 New Action: Develop a public education program for residents for restrictions on open burning and water usage during drought conditions. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>3</b>
Technically Feasible	<b>3</b>
Environmentally Sound	<b>3</b>
Immediate Need	<b>3</b>
Risk Reduction	<b>3</b>

---

**Q9**

Flooding: Mitigation Action 8 New Action: Ensure that all communities eligible for participation in the National Flood Insurance Program (NFIP) continue to participate. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	3
Immediate Need	4
Risk Reduction	4

---

**Q10**

Flooding: Mitigation Action 9 New Action: Develop a floodplain management plan and update it regularly. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

---

**Q11**

Flooding: Mitigation Action 10 New Action: Establish a green infrastructure program to link, manage, and expand existing parks, preserves, greenways, etc. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	3
Immediate Need	3
Risk Reduction	3

---

**Q12**

Flooding: Mitigation Action 11 New Action: Require that floodplains be kept as open space. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	3
Immediate Need	3
Risk Reduction	3

---

**Q13**

Flooding: Mitigation Action 12 New Action: Limit the percentage of impervious surfaces within developed parcels (including parking). If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	3
Immediate Need	3
Risk Reduction	3

---

**Q14**

Flooding: Mitigation Action 13 New Action: Complete a stormwater drainage study for known problem areas. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	3
Immediate Need	3
Risk Reduction	3

---

**Q15**

Flooding: Mitigation Action 14 New Action: Prepare and adopt a stormwater drainage study for known problem areas. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

---

**Q16**

Flooding: Mitigation Action 15 New Action: Conduct a verification study of FEMA's repetitive loss inventory and developing an associated tracking database. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

---

**Q17**

Flooding: Mitigation Action 16 New Action: Raise utilities and other mechanical devices above expected flood levels. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

---

**Q18**

Flooding: Mitigation Action 17 New Action: Require that any County designated lifeline or critical facility is located outside of 100 year floodplains. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

---

**Q19**

Flooding: Mitigation Action 18 New Action: Map or otherwise record flood and flash flood events. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

---

**Q20**

Flooding: Mitigation Action 19 New Action: Develop or maintain a floodplain management plan, and update it regularly. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

---

**Q21**

Flooding: Mitigation Action 20 Previous Action: Develop depth analysis grids to reduce flooding impacts for locations within the Great Miami Watershed and Loramie Creek Watershed If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

---

**Q22**

Flooding: Mitigation Action 21 Previous Action: Purchase, retrofit, relocate, or demolish repetitive loss properties in the County. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

---

**Q23**

Flooding: Mitigation Action 22 Previous Action: Develop a river and stream maintenance program for removing debris and log jams from drainage ways If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

---

**Q24**

Flooding: Mitigation Action 23  
 Previous Action: Develop plan to replace, modify, or expand culverts along OH-705 in the Village of Fort Loramie  
 If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>1 (lowest possible score)</b>
Technically Feasible	<b>1 (lowest possible score)</b>
Environmentally Sound	<b>1 (lowest possible score)</b>
Immediate Need	<b>1 (lowest possible score)</b>
Risk Reduction	<b>1 (lowest possible score)</b>

---

**Q25**

Flooding: Mitigation Action 24  
 Previous Action: Improve storm water drainage in the Village of Fort Loramie  
 If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>1 (lowest possible score)</b>
Technically Feasible	<b>1 (lowest possible score)</b>
Environmentally Sound	<b>1 (lowest possible score)</b>
Immediate Need	<b>1 (lowest possible score)</b>
Risk Reduction	<b>1 (lowest possible score)</b>

---

**Q26**

Flooding: Mitigation Action 25  
 Previous Action: Elevate or otherwise address flood prone structures within the base elevation of the 100- year floodplain  
 If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>2</b>
Technically Feasible	<b>2</b>
Environmentally Sound	<b>2</b>
Immediate Need	<b>2</b>
Risk Reduction	<b>2</b>

---

**Q27**

Flooding: Mitigation Action 26 Previous Action: Develop plans to replace, modify, or expand culverts along the Hull Creek railroad in the Village of Botkins. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>1 (lowest possible score)</b>
Technically Feasible	<b>1 (lowest possible score)</b>
Environmentally Sound	<b>1 (lowest possible score)</b>
Immediate Need	<b>1 (lowest possible score)</b>
Risk Reduction	<b>1 (lowest possible score)</b>

## Page 7: Invasive Species

**Q31**

Invasive Species: Mitigation Action 30 New Action: Identify ash trees at risk to the Emerald Ash Borer. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	3
Immediate Need	3
Risk Reduction	3

---

**Q32**

Invasive Species: Mitigation Action 31 New Action: Identify trees with symptoms of Emerald Ash Borer infestation. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	3
Immediate Need	3
Risk Reduction	3

---

**Q33**

Invasive Species: Mitigation Action 32 New Action: Treat healthy trees and replace highly damaged trees with a non-Ash species. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	3
Immediate Need	3

---

**Q34**

Invasive Species: Mitigation Action 33 New Action: Identify ash trees within 15 miles of a confirmed Emerald Ash Borer infestation. Identify appropriate preventative treatments for ash trees in this zone. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	3
Immediate Need	3
Risk Reduction	3

---

**Q35**

Invasive Species: Mitigation Action 34 New Action: Identify and log any invasive species event, including plants and animals. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	3
Immediate Need	3
Risk Reduction	3

---

**Q36**

Landslides: Mitigation Action 35 New Action: Identify and map landslide hazard areas If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	2
Technically Feasible	2
Environmentally Sound	2
Immediate Need	2
Risk Reduction	2

---

**Q37**

Landslides: Mitigation Action 36 New Action: Encourage the planting of plants with strong rootsystems on slopes in at risk areas. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	3
Immediate Need	3
Risk Reduction	3

---

**Q38**

Landslides: Mitigation Action 37 New Action: Define steep slope/high risk areas in land use and comprehensive plans and create guidelines or restrict new development in those areas. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	3
Immediate Need	3
Risk Reduction	3

---

**Q39**

**Landslides: Mitigation Action 38**  
**New Action:** Apply soil stabilization measures, such as planting soil-stabilizing vegetation on steep, publically owned slopes. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	3
Immediate Need	3
Risk Reduction	3

---

## Page 9: Multiple Hazards

**Q40**

**Multiple Hazards: Mitigation Action 39**  
**New Action:** Adopt the International Building Code (IBC) and International Residential Code (IRC). If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	3
Immediate Need	3
Risk Reduction	3

---

**Q41**

**Multiple Hazards: Mitigation Action 40**  
**New Action:** Encourage the use of natural plantings. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	3
Immediate Need	3
Risk Reduction	3

---

**Q42**

Multiple Hazards: Mitigation Action 41 New Action: Form a citizen plan implementation steering committee to monitor progress on local mitigation actions. Include a mix of representatives from neighborhoods, local businesses, and local government. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	3
Immediate Need	3
Risk Reduction	3

---

**Q43**

Multiple Hazards: Mitigation Action 42 New Action: Define and identify populations that may be vulnerable during severe weather events. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	3
Immediate Need	3
Risk Reduction	3

---

**Q44**

Multiple Hazards: Mitigation Action 43 New Action: Develop education programs associated with multiple natural hazards and how to prepare for them prior to their occurrence. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	3
Immediate Need	3
Risk Reduction	3

---

**Q45**

Multiple Hazards: Mitigation Action 44 New Action: Develop a public education program for informing residents about the benefits of having NOAA radios and Family Disaster Plans, which will help them better respond to an emergency situation. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

---

**Q46**

Multiple Hazards: Mitigation Action 45 Previous Action: Seek funding for early warning systems, such as sirens and county-wide emergency notification system, to warn residents of approaching severe weather. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

---

**Q47**

Multiple Hazards: Mitigation Action 46 Previous Action: Provide back-up generators and the necessary hook-ups for critical facilities, which need to maintain continuous power to protect human health and life. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

---

**Q48**

Multiple Hazards: Mitigation Action 47 Previous Action: Develop emergency plan for the Sidney Senior Center. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

---

**Q49**

Multiple Hazards: Mitigation Action 48 Previous Action: Develop a tree maintenance program for trimming and pruning trees to help prevent damage from falling limbs. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

---

**Q50**

Multiple Hazards: Mitigation Action 49 Previous Action: Develop an outreach program for informing citizens of designated shelter locations. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

---

**Q51**

Multiple Hazards: Mitigation Action 50 Previous Action: Construct community shelter/safe rooms in the Village of Fort Loramie. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	3
Immediate Need	3
Risk Reduction	3

---

**Q52**

Multiple Hazards: Mitigation Action 51 Previous Action: Develop educational information for general public concerning alternate methods for keeping basements dry. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	3
Immediate Need	3
Risk Reduction	3

---

**Q53**

Multiple Hazards: Mitigation Action 52 Previous Action: Seek funding for auto sandbag filling equipment. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

**Q55**

Severe Summer Weather: Mitigation Action 54 New Action: Post warning signs about hail, wind, and lightning at local parks, county fairs, and other outdoor venues. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	3
Immediate Need	3
Risk Reduction	3

---

**Q56**

Severe Summer Weather: Mitigation Action 55 New Action: Coordinate with utility companies to perform regular tree trimming near utility lines. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

---

**Q57**

Severe Summer Weather: Mitigation Action 56 New Action: Encourage the construction of safe rooms in schools, daycares, nursing homes, and other buildings with vulnerable populations. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

---

**Q58**

Severe Summer Weather: Mitigation Action 57 New Action: Encourage the construction of safe rooms in mobile home communities. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

---

**Q59**

Severe Summer Weather: Mitigation Action 58 New Action: Distribute the location of public safe rooms to the general public. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

---

**Q60**

Severe Winter Weather: Mitigation Action 59 New Action: Install heating systems in public shelters and lifelines/critical facilities that could be used as public shelters. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

**Q61**

Severe Winter Weather: Mitigation Action 60 New Action: Use snow fences or living snow fences to limit blowing and drifting of snow over critical roadway segments. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	3
Immediate Need	3
Risk Reduction	3

Page 12: Wildfire

**Q62**

Wildfire: Mitigation Action 61 New Action: Identify and map wildfire risk areas. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	3
Environmentally Sound	3
Immediate Need	3
Risk Reduction	3

**Q63**

Wildfire: Mitigation Action 62 New Action: Identify communities who are potentially vulnerable to wildfires. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	<b>3</b>
Technically Feasible	<b>3</b>
Environmentally Sound	<b>3</b>
Immediate Need	<b>3</b>
Risk Reduction	<b>3</b>

# Surveys: Village of Russia

#10

**COMPLETE**

**Collector:** Web Link 1 (Web Link)  
**Started:** Wednesday, April 27, 2022 8:01:54 AM  
**Last Modified:** Wednesday, April 27, 2022 8:04:03 AM  
**Time Spent:** 00:02:09  
**IP Address:** 199.27.94.150

---

## Page 1: Survey Instructions

**Q1**

## Name and Organization

Name	Mark Shappie
Organization/Agency	Village of Russia
Title/Position	administrator
Email Address	administrator@russiaoh.com

---

## Page 2: Hazard Priorities

**Q2**

## Hazards included in 2017 Plan

Drought & Extreme Heat	Low-Medium Priority
Earthquakes	Lowest Priority
Flooding	Highest Priority
Summer Storms	Medium-High Priority
Winter Storms	Medium-High Priority
Tornadoes	Highest Priority

---

**Q3**

## Other Potential Hazards

Dam/Levee Failure	Lowest Priority
Hazardous Materials Incident	Highest Priority
Invasive Species/Infestation	Low-Medium Priority
High Winds	Medium-High Priority

---

**Q4**

Respondent skipped this question

Please consider the following and provide any additional comments: Please consider how the hazards are grouped - Should any be made into separate categories or grouped differently? Are there any hazards not listed that you would like to see included in the 2022 Plan? Any additional comments.

## Page 3: Dam Failure

**Q2**

Dam Failure: Mitigation Action 1New Action: Obtain inundation mapping for at least all high hazard potential dams in the County.If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	2
Immediate Need	4
Risk Reduction	4

---

**Q3**

Dam Failure: Mitigation Action 2  
 New Action: Identify and record any high hazard potential dams in the County in need of rehabilitation. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

**Q4**

Dam Failure: Mitigation Action 3  
 New Action: Rehabilitate high hazard potential dams in the County as needed. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

Page 4: Drought

**Q5**

Drought: Mitigation Action 4  
 New Action: Identify local drought indicators, such as precipitation, temperature, surface water levels, soil moisture, etc. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	3
Immediate Need	3
Risk Reduction	2

**Q6**

Drought: Mitigation Action 5 New Action: Regularly monitor and report on local drought indicators. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	3
Environmentally Sound	3
Immediate Need	4
Risk Reduction	3

---

**Q7**

Drought: Mitigation Action 6 New Action: Develop a drought communication plan and early warning system. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	3
Immediate Need	3
Risk Reduction	3

---

**Q8**

Drought: Mitigation Action 7 New Action: Develop a public education program for residents for restrictions on open burning and water usage during drought conditions. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

---

**Q9**

Flooding: Mitigation Action 8 New Action: Ensure that all communities eligible for participation in the National Flood Insurance Program (NFIP) continue to participate. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	3
Immediate Need	4
Risk Reduction	3

---

**Q10**

Flooding: Mitigation Action 9 New Action: Develop a floodplain management plan and update it regularly. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

---

**Q11**

Flooding: Mitigation Action 10 New Action: Establish a green infrastructure program to link, manage, and expand existing parks, preserves, greenways, etc. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	3
Environmentally Sound	4
Immediate Need	2
Risk Reduction	2

---

**Q12**

Flooding: Mitigation Action 11 New Action: Require that floodplains be kept as open space. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	3
Environmentally Sound	2
Immediate Need	2
Risk Reduction	2

---

**Q13**

Flooding: Mitigation Action 12 New Action: Limit the percentage of impervious surfaces within developed parcels (including parking). If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	3
Risk Reduction	3

---

**Q14**

Flooding: Mitigation Action 13 New Action: Complete a stormwater drainage study for known problem areas. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

---

**Q15**

Flooding: Mitigation Action 14 New Action: Prepare and adopt a stormwater drainage study for known problem areas. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

---

**Q16**

Flooding: Mitigation Action 15 New Action: Conduct a verification study of FEMA's repetitive loss inventory and developing an associated tracking database. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	2
Technically Feasible	2
Environmentally Sound	2
Immediate Need	2
Risk Reduction	2

---

**Q17**

Flooding: Mitigation Action 16 New Action: Raise utilities and other mechanical devices above expected flood levels. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	3
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

---

**Q18**

Flooding: Mitigation Action 17 New Action: Require that any County designated lifeline or critical facility is located outside of 100 year floodplains. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

---

**Q19**

Flooding: Mitigation Action 18 New Action: Map or otherwise record flood and flash flood events. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	3

---

**Q20**

Flooding: Mitigation Action 19 New Action: Develop or maintain a floodplain management plan, and update it regularly. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	3
Environmentally Sound	3
Immediate Need	3
Risk Reduction	3

---

**Q21**

Flooding: Mitigation Action 20 Previous Action: Develop depth analysis grids to reduce flooding impacts for locations within the Great Miami Watershed and Loramie Creek Watershed If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	3
Risk Reduction	3

---

**Q22**

Flooding: Mitigation Action 21 Previous Action: Purchase, retrofit, relocate, or demolish repetitive loss properties in the County. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	2
Technically Feasible	2
Environmentally Sound	2
Immediate Need	2
Risk Reduction	2

---

**Q23**

Flooding: Mitigation Action 22 Previous Action: Develop a river and stream maintenance program for removing debris and log jams from drainage ways If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	5 (highest possible score)
Risk Reduction	3

---

**Q24**

Flooding: Mitigation Action 23  
 Previous Action: Develop plan to replace, modify, or expand culverts along OH-705 in the Village of Fort Loramie  
 If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: no

---

**Q25**

Flooding: Mitigation Action 24  
 Previous Action: Improve storm water drainage in the Village of Fort Loramie  
 If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: no

---

**Q26**

Flooding: Mitigation Action 25  
 Previous Action: Elevate or otherwise address flood prone structures within the base elevation of the 100- year floodplain  
 If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	2
Risk Reduction	2

---

**Q27**

Flooding: Mitigation Action 26  
 Previous Action: Develop plans to replace, modify, or expand culverts along the Hull Creek railroad in the Village of Botkins  
 If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: No

---

**Q28**

Flooding: Mitigation Action 27  
 Previous Action: Seek sources of funding to minimize storm water drainage problems in the Village of Jackson Center  
 If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: NO

---

**Q29**

**Flooding: Mitigation Action 28** Previous Action: Seek funding to update Flood Insurance Rate Maps. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	2
Risk Reduction	2

## Page 7: Invasive Species

**Q31**

**Invasive Species: Mitigation Action 30** New Action: Identify ash trees at risk to the Emerald Ash Borer. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	2
Technically Feasible	2
Environmentally Sound	2
Immediate Need	2
Risk Reduction	2

---

**Q32**

Invasive Species: Mitigation Action 31 New Action: Identify trees with symptoms of Emerald Ash Borer infestation. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	2
Technically Feasible	2
Environmentally Sound	2
Immediate Need	2
Risk Reduction	2

---

**Q33**

Invasive Species: Mitigation Action 32 New Action: Treat healthy trees and replace highly damaged trees with a non-Ash species. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	3
Risk Reduction	3

---

**Q34**

Invasive Species: Mitigation Action 33 New Action: Identify ash trees within 15 miles of a confirmed Emerald Ash Borer infestation. Identify appropriate preventative treatments for ash trees in this zone. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	1 (lowest possible score)
Technically Feasible	1 (lowest possible score)
Environmentally Sound	1 (lowest possible score)
Immediate Need	1 (lowest possible score)
Risk Reduction	1 (lowest possible score)

---

**Q35**

Invasive Species: Mitigation Action 34 New Action: Identify and log any invasive species event, including plants and animals. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	3
Risk Reduction	3

## Page 8: Landslides

**Q36**

Landslides: Mitigation Action 35 New Action: Identify and map landslide hazard areas. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: no

**Q37**

Landslides: Mitigation Action 36 New Action: Encourage the planting of plants with strong root systems on slopes in at risk areas. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

**Q38**

Landslides: Mitigation Action 37 New Action: Define steep slope/high risk areas in land use and comprehensive plans and create guidelines or restrict new development in those areas. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: no

**Q39**

**Landslides: Mitigation Action 38**  
**New Action:** Apply soil stabilization measures, such as planting soil-stabilizing vegetation on steep, publically owned slopes. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	2
Risk Reduction	2

---

## Page 9: Multiple Hazards

**Q40**

**Multiple Hazards: Mitigation Action 39**  
**New Action:** Adopt the International Building Code (IBC) and International Residential Code (IRC). If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	1 (lowest possible score)
Technically Feasible	1 (lowest possible score)
Environmentally Sound	1 (lowest possible score)
Immediate Need	1 (lowest possible score)
Risk Reduction	1 (lowest possible score)

---

**Q41**

**Multiple Hazards: Mitigation Action 40**  
**New Action:** Encourage the use of natural plantings. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

---

**Q42**

Multiple Hazards: Mitigation Action 41 New Action: Form a citizen plan implementation steering committee to monitor progress on local mitigation actions. Include a mix of representatives from neighborhoods, local businesses, and local government. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	2
Technically Feasible	2
Environmentally Sound	2
Immediate Need	2
Risk Reduction	2

---

**Q43**

Multiple Hazards: Mitigation Action 42 New Action: Define and identify populations that may be vulnerable during severe weather events. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

---

**Q44**

Multiple Hazards: Mitigation Action 43 New Action: Develop education programs associated with multiple natural hazards and how to prepare for them prior to their occurrence. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	3
Risk Reduction	3

---

**Q45**

Multiple Hazards: Mitigation Action 44 New Action: Develop a public education program for informing residents about the benefits of having NOAA radios and Family Disaster Plans, which will help them better respond to an emergency situation. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	2
Technically Feasible	2
Environmentally Sound	2
Immediate Need	2
Risk Reduction	2

---

**Q46**

Multiple Hazards: Mitigation Action 45 Previous Action: Seek funding for early warning systems, such as sirens and county-wide emergency notification system, to warn residents of approaching severe weather. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

---

**Q47**

Multiple Hazards: Mitigation Action 46 Previous Action: Provide back-up generators and the necessary hook-ups for critical facilities, which need to maintain continuous power to protect human health and life. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	4
Technically Feasible	4
Environmentally Sound	4
Immediate Need	4
Risk Reduction	4

---

**Q48**

Multiple Hazards: Mitigation Action 47 Previous Action: Develop emergency plan for the Sidney Senior Center. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Comments: no

---

**Q49**

Multiple Hazards: Mitigation Action 48 Previous Action: Develop a tree maintenance program for trimming and pruning trees to help prevent damage from falling limbs. If you think this mitigation action is applicable to your jurisdiction, please rate the action based on the following categories and add any additional comments. If you do not think the mitigation action is applicable to your jurisdiction, please indicate "No" or "N/A" in the comment box.

Cost Effective	2
Technically Feasible	2
Environmentally Sound	2

### Q1

#### Name and Organization

Name	Mark Shappie
Organization/Agency	Village of Russia
Title/Position	administrator
Email Address	administrator@russiaoh.com

---

## Page 2: Goals Survey

### Q2

New Goals: Please provide any goals or objectives you would like included in the Plan.

New Goal 1	Mitigate the flooding concerns from the regional detention pond at the park
New Goal 2	Mitigate the debris in Nine Mile Creek from downed trees and debris

---

### Q3

Please provide any additional comments related to these goals in the space below.

It seems that our creeks are becoming full of downed trees and debris that are building dams and causing flooding concerns

---
